History—Organized on Oct. 14, 1893, under the laws of California. Its charter expires in 1943. In 1902 it conveyed all its properties to the United Railroads of San Francisco, and in April, 1921, through the reorganization of the latter company the Market Street Railway Co. acquired all the property, rights and franchises owned by the United Railroads. It also acquired by lease the property of the Gough Street R. R. Co., including the property heretofore owned by the San Francisco Electric Railways. The Market Street Ry. lines run on the principal business streets of the city.

Pursuant to the plan of reorganization of the United Raliroads of San Francisco, dated Oct. 2, 1919, and with the approval of the California Railroad Commission, the First General Deed of Trust of said Company to Union Trust Co. of San Francisco, dated June 7, 1902, was foreclosed and, under such proceedings, all its assets, liabilities and property, real personal and mixed, were acquired by the Market Street Railway Co. Through such reorganization the United Railroads of San Francisco ceased to be an operating company.

The basis of participation of the old securities of United Railroads of San Francisco and underlying companies in bonds, notes and stock of Market Street Ry. Co. is shown in detail in the 1920 Public Utility Manual, on page 1617 or furnished on request to our Information Department.

Franchise Situation—None of the company's franchises expire prior to 1929. Thereafter franchises covering the operation of various of the company's lines mature from time to time to 1952. The experience has been that lines on which franchises have matured have been acquired by the city at a fair satisfactory price.

Terms of Sale Asked—The San Francisco Board of Supervisors on Dec. 6, 1921, decided to request Company to name terms and conditions upon which it will turn over its railway system to the city of San Francisco to be operated in conjunction with the present Municipal Railway system. City Engineer O'Shaughnessy estimates the value of Company's railway system at $40,000,000, while the California R. R. Comm. valuation is about $41,500,000. Company itself has placed the figure at $51,800,000.

Valuation—The special committee of the Board of Supervisors of San Francisco failed to agree among themselves as to a fair purchase price and was replaced by a second committee who now have the matter in hand. At November, 1922 election an amendment to the city charter was passed by a 2 to 1 vote removing former restrictions on the acquisition of railway lines outside of the city boundaries and permitting of the purchase of the surburban lines of the Company. At the November, 1925, election, the proposal to purchase the Company's property for $36,000,000 was decisively rejected by the voters.

On Dec. 13, 1926, the Board of Supervisors of San Francisco appointed the members of the Public Utilities and Finance Committees, a joint Committee, to study the street railway situation and to report to the Board a plan for the acquisition of privately owned street railways. Up to December 31, 1927, the result of the Committee's deliberations had not yet been made public although a report, was filed in November, 1927, with the committee by Delos F. Wilcox who investigated the subject for the Board of Supervisors.

Mileage—The Company operates street railways in the City and County of San Francisco and in San Mateo County, Cal. The tracks in San Francisco are partly electric and partly cable; the line in San Mateo County is an interurban road from San Francisco to the City of San Mateo. Total mileage operated is 271.28 miles of single track, of which 253.69 owned and 17.59 leased. Rails, 38 to 141 lbs. All of revenue track is laid in City streets with exception of double track on fourteen miles of private right of way.

Equipment—Motor passenger cars, 725; work, 66; cable passenger cars, 51—total, all cars, 842. Power is purchased under contract extending to 1953 from the Sierra & San Francisco Power Co. or its lessee, the Pacific Gas & Electric Co. The transmission lines are largely the property of the Railway Company, the remaining lines belonging to the Power Company.

SAN DIEGO WATER SUPPLY COMPANY

History and Properties—Incorporated in 1924 in Nevada. Former name was San Dieguito Water Company. Company was organized to acquire and consolidate certain water properties heretofore owned by the Atchison, Topeka & Santa Fe RR. Co. and the San Diego County Water Co. Property consists of a large water reservoir near San Diego, California, known as Lake Hodges, together with appurtenant canals, pipe lines, lands and water-rights, and two additional reservoir sites known as Sutherland and Pamo.

Lease to City of San Diego—Substantially all of this property has been leased to the City of San Diego for a period of thirty years from December 1, 1925. Under the lease the City is unconditionally obligated to make all necessary repairs, renewals, replacements and restorations of the property and to assume all liabilities arising from its possession, operation and maintenance, and to make rental payments which are in excess of the interest and sinking fund requirements of Company's First Mortgage 5% bonds. The City at its own expense may enlarge, construct or reconstruct dams, reservoirs or other structures for the purpose of enlarging the water supply therefrom and it has already undertaken the construction of an additional reservoir at the Sutherland site.

City's Option to Purchase—In connection with the execution of the lease, the City acquired, at a cost of $500,000, the right to purchase the property at various times during the life of the lease for stated amounts of cash, which in each case are sufficient to provide for redemption of all Company's First Mortgage 5% Gold bonds then to be outstanding.

CAPITAL STOCK

$2,000,000 Common.

FUNDED DEBT

$3,250,000 FIRST MORTGAGE 5% SINKING FUND GOLD BONDS; DUE NOVEMBER 1, 1955

Dated May 1, 1927.

Interest Payable May and November 1, at principal office of Guaranty Trust Co., New York, or at Union Bank & Trust Co., Los Angeles, Cal.

Trustee—Union Bank & Trust Co., Los Angeles, Cal.

Provisions of Issue—Authorized and issued, $3,250,000; mortgage is closed.

Purpose of Issue—Proceeds of these bonds were applied toward the retirement of all outstanding indebtedness of Company.

Callability—Subject to call as a whole at any time, or in part on any interest date, on 30 days' notice, at 102 and interest.

Sinking Fund—A sinking fund is provided, beginning in 1930, sufficient to retire entire issue on or before the date of maturity.

Security—These bonds are secured by pledge and assignment of the lease under which Company's properties are operated by the City of San Diego and all payments to be made thereunder, and, subject to the lease, by direct closed first mortgage on all the property of the Company leased to the City and all permanent additions to such property which may at any time be constructed by the City, including the Sutherland dam.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—O'Melveny, Millikin & Tuller, Los Angeles, Cal.

Original Offering—First publicly offered ($3,250,000) in May, 1927, at 100 and interest by Guaranty Company of New York, New York, etc.

Listed—Boston Stock Exchange.

TOHO ELECTRIC POWER COMPANY, LIMITED

(Toho Denryoku Kabushiki Kaisha)

History—Incorporated Nov. 29, 1905, under the laws of Japan, as the "Kansai Water Power Company, Limited" (Kansai Suiryoku Denki Kabushiki Kaisha), and undertook the local supply of electric light and power in Nara and Kyoto Prefectures. In Oct. 1921, the Company consolidated with the Nagoya Electric Light Co., Ltd., and at that time changed its name to "Kansai Electric Company, Limited" (Kansai Denki Kabushiki Kaisha). The Nagoya Electric Light Company was organized and began business in Nagoya in 1889, and absorbed, from time to time, various other electric companies operating in the so-called Kansai District of central Japan. In 1922, the Company absorbed several other electric companies, among which was the Kyushu Electric Light & Traction Company, Ltd., with a capital of 50,000,000 yen (of which sum 34,312,500 yen was paid in). Shortly after the consolidation with the Kyushu Company, the Company again changed its name, this time to "Toho Electric Power Company, Limited" (Toho Denryoku Kabushiki Kaisha), the present name of the Company. In April, 1926, acquired the properties formerly owned by Gifu Electric Power Co., Ltd. The duration of the Company is unlimited.

Business—The principal business of the Company is to produce and supply electric light and power. It is, next to the Tokyo Electric Light Company, Ltd., the largest retail distributor of electric energy in Japan. Directly or through subsidiaries it supplies practically without competition, electric light and power to over 5,500,000 people in a territory of approximately 4,000 square miles. The company operates mainly in two distinct areas, the Kansai manufacturing district in and around Nagoya, Gifu, Nara and Toyohashi, in central Japan and the Kyushu district in and around Shimonoseki Fukuoka and Nagasaki in southern Japan. These districts constitute two of the most important commercial and industrial sections of Japan. The Company also engages in real estate and forestry undertakings, as well as in electric railway business.

Subsidiary Companies—The corporations under the Company's direct control by stock ownership are Toho Reserve Co., Ltd., and Toho Securities Co., Ltd. In addition to these two subsidiary companies, the Company is in a position to control, indirectly through Toho Securities Co., Ltd., the following eight corporations: Toho Gas Co., Ltd., Inazawa Electric Light Co., Ltd., Ogaki Gas & Electric Co., Ltd., Toho Electrical Works, Ltd., Nagoya Pier & Warehouse Co., Ltd., Ryuyosha Printing Co., Ltd., Nagaragawa Electrification Co., Ltd., and Sunmo.

Property (as of Oct. 31, 1927)—The Company has in operation or under construction electric generating stations having a total capacity of 219,893 k.w., including the new Nagoya steam plant with an installed capacity of 70,000 k.w. The Company also controls an additional 125,000 k.w. under favorable contracts with nine neighboring hydro-electric companies. Other property owned or under construction includes substations with 523,835 k.v.a. transformer capacity more than 9,100 route-miles of transmission and distribution lines and valuable undeveloped water-power sites.

(1)

$15,000,000 (KANSAI DIVISION) SINKING FUND GOLD 7s, SERIES "A"; DUE MARCH 15, 1955

Dated March 15, 1925.

Interest Payable March and Sept. 15, in New York at the office of Guaranty Trust Company of New York, in U. S. gold coin of the standard existing March 15, 1925 (or at the option of the holder in London in sterling at $4.8665 to the Pound Sterling).

Denominations—Coupon, $500 and $1,000. Series "A" bonds are not registerable either as to principal or interest. The Series "A" bonds are not interchangeable.

Trustee—Mitsui Bank, Ltd., Tokyo, Japan.

Provisions of Issue—The Indenture under which the First Mortgage (Kansai Division) gold bonds are issuable limits the aggregate amount of bonds at any time outstanding which may be issued thereunder to $30,000,000. Additional bonds shall mature at a date or dates later than the present issue but may have such rate of interest, sinking fund and other provisions as the Company may determine, and may be issued only for not more than 50% of the cost or appraised value, whichever is lower, of permanent improvements or additions to the mortgaged property. No additional bonds may be issued under the Indenture unless net earnings, after maintenance but before depreciation, available for interest, as defined in the Indenture, for twelve consecutive calendar months out of the fifteen immediately preceding, have equalled at least 3 times the annual interest requirements of all the outstanding funded debt of the Company, including the bonds proposed to be issued.

The Company covenants that so long as any of these bonds remain outstanding, none of its other physical properties now owned or hereafter acquired will be mortgaged to an amount exceeding 50% of their fair value, as defined in the Indenture; and it will also covenant not to create debts of any character having a maturity of more than three years unless net earnings, after maintenance but before depreciation, available for payment of interest, as defined in the Indenture, for twelve consecutive months out of the next preceding fifteen, shall have equalled at least twice the annual interest requirements on its total funded debt including the obligations proposed to be issued.

Callability—Subject to call as a whole or in part on any interest date on 60 days' notice at 100 and interest.

Sinking Fund—A sinking fund is provided to retire at least $125,000 of bonds each six months prior to March 15, 1930, by purchase in the open market or by call by lot at par and interest; thereafter on each succeeding interest date, the sinking fund is to retire 1/50 of the bonds outstanding as of March 15, 1930, through call by lot at 100 and interest.

Security—These bonds are a direct obligation of the company and in addition are specifically secured by a first lien, supplemented by assignments, covering all of the company's property in the Kansai Division. Property hereinafter acquired in the Kansai Division is to be included under the mortgage. The present depreciated value of the property mortgaged has been estimated to be in excess of $30,000,000.

The properties mortgaged, including those under construction, will include generating stations with an installed capacity of 85,343 k.w., sub-stations with the total capacity of 355,460 k.v.a. and approximately 5,197 miles of transmission and distribution lines, constituting a complete operating system serving more than 613,705 customers in and around Nagoya.

Tax Provisions—Free from any Japanese taxes when held by other than residents of Japan.

Legal Opinion—Davis, Polk, Wardwell, Gardner & Reed of New York; and Doctor S. Kishi of Tokyo (for the bankers), and Doctor T. Aoki, and McIvor, Kauffman, Smith and Yamamoto, of Tokyo (for the company).

Original Offering—First publicly offered ($15,000,000) in March, 1925, at 90½ and interest, to yield over 7.80%, by Guaranty Company of New York, Lee, Higginson & Co., and Harris, Forbes & Co., New York, etc.

Issued under an Indenture which provides, among other things, that so long as any of the notes are outstanding Company shall not (a) create any new mortgage or pledge of any assets now owned or hereafter acquired although this shall not prevent the Company from placing new mortgage on the Kansai Division to replace the existing one or acquiring properties subject to mortgages previously existing thereon or created in connection with such acquisition, (b) sell or transfer to another company any substantial part of the physical properties now owned, except when sold for value to the municipality or other political sub-division in which the property may be operated, (c) create debts of any character having a maturity of more than one year if the aggregate amount of such debt would thereby exceed the total amount of its then paid-in capital stock or if net earnings after maintenance but before depreciation available for payment of interest, for 12 months out of the preceeding 15 months, amount to less than twice the annual interest requirements on total funded debt including the obligations to be issued, or (d) guarantee any of the obligations of the Toho Securities Company, Limited, or any company controlled by it.

Purpose of Issue—Proceeds used to pay bank indebtedness, for refunding purposes, for construction and acquisition of additional property and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date, on 45 days' notice, at par and interest.

Tax Provisions—Interest payable without any deduction for any Japanese taxes, present or future, when held by other than residents of Japan.

Legal Opinion—Davis, Polk, Wardwell, Gardiner & Reed, New York, and Dr. S. Kishi, of Tokyo (for the bankers); Webb, Patterson & Hadley, New York, and Doctor T. Aoki, of Tokyo (for the Company).

Original Offering—First publicly offered ($10,000,000) in July, 1926, at 98½ and interest, to yield over 6.55%, by Guaranty Company of New York, Lee, Higginson & Co., Harris, Forbes & Co., New York; Harris, Forbes & Co., Inc., Boston; Harris Forbes & Co., Ltd., Montreal, and Harris Trust & Savings Bank, Chicago.

THE NORTHERN MEXICO POWER & DEVELOPMENT COMPANY, LIMITED

History and Properties—Incorporated Dec. 30, 1919, under the laws of the Province of Ontario and in May, 1921, took over all the assets and properties of the Mexican Northern Power Co., Ltd. from the receiver of that Company, including all the shares of **Compania Agricola y de Fuerza Electrica del Rio Conchos, S. A.,** a company developing and distributing hydro-electric power in the State of Chihuahua in Northern Mexico, and owning the property mentioned below.

Concessions have been granted by the Government of the Republic of Mexico for the development and

utilization of the water power of the Rio Conchos in the State of Chihuahua, in northern Mexico, to supply electric energy to the cities and towns of the State of Chihuahua and the mining districts thereof. Company has a concession to construct and operate steam or electric railways in the District of Camargo, State of Chihuahua.

The site of the first development of the company's works on the Rio Conchos is situated at a point called La Boquilla, about 20 miles from the line of the Mexican Central Ry., about 325 miles south of El Paso (which is the nearest railroad border town to the plant), **about 250 miles from the** Pacific coast, and about 900 miles north of the City of Mexico. Among the surrounding towns of importance are Chihuahua, Santa Rosalia, Parral, Santa Barbara, Jimenez, Escalon, Bermejillo, El Oro, etc., etc.

The company controls two sites on the Rio Conchos, one at La Joya, and the other at La Boquilla.

Double transmission lines from the power plant running south to the Parral District are carried on structural steel towers spaced 820 feet apart, these towers being designed to carry six aluminum wires equivalent to No. 000 copper wire, Am. gauge, mounted on suspension insulators proportioned for operation at 110,000 volts.

The above described properties were acquired in accordance with the plan of reorganization outlined on page 428 of the 1921 Public Utility Manual, details of which plan will be furnished upon application to our Information Department.

1926 Output—The total power distributed by Company during 1926 was 18,118 h.p., being an increase over the previous year of 3,571 h.p. or 24.5%.

CAPITAL STOCK

History and Properties—Incorporated March 4, 1899, in Md.; consolidation of all the street railway properties in the city of Baltimore and vicinity. Through this consolidation and the various absorptions which took place prior to it, the company controls the following railway properties.

Baltimore, Catonsville & Ellicotts Mills Passenger R. R., Baltimore City Passenger Ry., Baltimore Consolidated Ry. Co., Baltimore & Curtis Bay Ry., Baltimore, Gardensville & Belair Electric Ry., Baltimore & Northern Electric Ry., Central Ry. Co., Gwynns Falls Ry. of Baltimore City, Maryland Traction Co., Pimlico & Pikesville R. R., Shore Line Electric Ry., Walbrook, Gwynn Oak & Powhatan Ry. Also controls the stock and holds under lease the Baltimore, Sparrows Pt. & Chesapeake Ry., 37 miles, and guarantees the bonds. Also controls and operates the Baltimore, Halethorpe & Elkridge Ry. Co.

Franchises—With the exceptions noted below the franchises in the streets of the City of Baltimore are perpetual. The franchises granted to the Baltimore City Passenger Ry Co. and the Citizens Ry. Co. were subject to charter provisions, the City having the right every fifteen years to purchase these properties upon payment of the value of the properties and franchises. The lines of the above-named companies comprise about 69 miles of the system. In addition, about 15 miles of disconnected franchises are for 25 years, renewable for 25 years more at a fair valuation. In addition to the regular taxes, the City receives 9% of the gross receipts within the City limits.

Company's Bonds on Court List—On May 12, 1914, the Supreme Bench of Baltimore City added the Baltimore, Sparrows Point & Chesapeake Ry. Co.'s First Mortgage 4½% bonds to the list of securities approved for the investment of trust funds. The following bonds of the Company are now on the court list: Baltimore Traction Co. 1st 5s; Baltimore Traction Co., (No. Balto. Div.) 1st 5s; Central Ry. Co. 1st Consol. 5s; Lake Roland Elevated Ry. 1st 5s; United Ry. & Elec. Co. 1st Consol. 4s and 6s, and Baltimore, Sparrows Point and Chesapeake Ry. 1st 4½s.

Financing—Merger of Subsidiaries—The Maryland Public Service Commission in March, 1924, authorized The United Railways & Electric Co. of Baltimore to acquire all the outstanding capital stock of the Maryland Electric Rys. Co. The latter company was authorized to consolidate with the Baltimore, Halethorpe & Elkridge Ry. Co. and to issue $4,000,000 6½% bonds, the principal and interest of which are guaranteed by The United Rys. & Electric Co. of Baltimore. The consolidated company was also given authority to acquire all the properties and franchises of the Baltimore, Sparrows Point & Chesapeake Ry. Co. and the Baltimore and Belair Electric Ry. Co.

The consolidated or The Maryland Electric Railways Co., as above outlined. In addition to the acquisition of new property, now owns all of the property formerly belonging to the separate companies and leases all of its property now owned or hereafter acquired to The United Rys. & Electric Co. of Baltimore for a period of 999 years renewable forever.

The proceeds from the sale of the $4,000,000 bonds above-mentioned were used to pay indebtedness of the Maryland Company resulting from capital expenditures heretofore made and for additional capital expenditures. Approximately $600,000 was spent for automatic sub-stations, approximately $600,000 for cars, and approximately $1,350,000 was paid to The United Rys. & Electric Co. of Baltimore to reimburse its treasury for recent capital expenditures and for future capital expenditures upon its property.

Acquisition—The Maryland Electric Railways Co. acquired as of April 1, 1927 all the railway property, rights, privileges, franchises, etc. of Lorraine Electric Railway Co. which had a mileage of 1.14 miles.

Mileage and Equipment—Total miles single track, as of Dec. 31, 1927, 413. Gauge, 5 ft. 4½ in. Rail, 58 lb. to 125 lb. T and girder. Total cars, 1,560. Power station, 1; substations, 12.

Baltimore Coach Co.—In Jan., 1927, the Maryland Public Service Commission authorized the four bus companies controlled by The United Railways and Electric Co. of Baltimore to consolidate under the name Baltimore Coach Co., which issued 5,000 shares of no par value capital stock to that company. The four consolidating companies are Baltimore Transit Co., the City Motor Co., the East Fayette Street Bus Co., Inc., and the Baltimore Bus Co.

The company owned as of Dec. 31, 1927, 108 buses and 3 trackless trolleys, and operates a total route mileage of 45.22 miles and gave service to the extent of 2,113,819 miles during 1926.

Valuation—The Maryland Public Service Commission instituted proceedings for the valuation of Company's property on December 30, 1912. Stone & Webster were engaged by the Company as engineering experts and the late William H. Maltbie, was placed in charge of the work. The properties of Company were valued at $75,000,000 as of Feb. 1, 1928, in an opinion handed down by the Commission. The physical properties were valued at $70,000,000, the remaining $5,000,000 covering the company's easements.

Rate of Fare—On Feb. 10, 1928, the Public Service Commission issued an order, effective Feb. 13, 1928, placing the rates of fare as follows: three checks for 25 cents; fare without checks, 9 cents; children between 4 and 12 years, 5 cents; school children over 12, including those attending high schools, 5 cents; universal free transfer. The Company is seeking the right to charge a flat 10 cent fare and at time of going to press the matter was being thrashed out in the courts.

CAPITAL STOCK

Authorized, $35,000,000 Common and $14,000,000 4% cumulative Preferred; outstanding, $20,461,200 Common; par, $50. $8,684,000 THE UNITED RAILWAYS & ELECTRIC COMPANY OF BALTIMORE FIRST CONSOLIDATED MORTGAGE GOLD 6s; DUE MARCH 1, 1949

Dated March 6, 1899.

Interest Payable March and September 1, at Alexander Brown & Sons, Baltimore.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—Continental Trust Co., Baltimore.

Provisions of Issue—In addition to the $6,000,000 issued, $2,684,000 of the 4% bonds were exchanged for the 6% bonds, making the outstanding amount, $8,684,000 as of Dec. 31, 1927. These bonds are issued under the First Consolidated Mortgage, dated March 6, 1889, and the principal as well as interest at the rate of 4% per annum, is secured by the lien of that mortgage. Pursuant to a Supplemental Indenture, the company is to affix to the bonds its obligations to pay additional interest at the rate of 2% per annum, thus making the total interest rate 6% per annum. The 2% additional interest is not secured by the First Consolidated Mortgage, but in the Supplemental Indenture the company covenants that it will not create any new mortgage upon any part of its property subject to the First Consolidated Mortgage, unless such new mortgage expressly secured the payment of said additional interest obligations equally and ratably with any indebtedness secured by such new mortgage.

Security—See description under First Consolidated 4s above.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Original Offering—First publicly offered ($6,000,000) in April, 1922, at 97 and interest yielding about 6¼%, by Alexander Brown & Sons, Baltimore.

Bond Exchange—Due to the fact that the 6% bonds were largely over-subscribed, a number of holders of the First Cons. Mtge. 4% Bonds expressed a desire to exchange their bonds for the 6% Bonds on some fair basis. Accordingly, the holders of $2,684,000 4% Bonds availed themselves of this privilege, the holders paying the company $250 per $1,000 bond for the exchange.

THE MARYLAND ELECTRIC RAILWAYS COMPANY

(Controlled and operated under lease by United Rys. & Electric Co. of Baltimore)

History and Properties—Incorporated March 21, 1924, in Maryland, as a consolidation of The Maryland Electric Rys. Co. (organized Aug. 7, 1906), the Baltimore, Halethorpe & Elkridge Ry. Co. (incorporated Dec. 20, 1905) and the Baltimore, Sparrows Point & Chesapeake Ry. Co. (incorporated Jan. 22 1903.) For statements of these three companies see Manual for 1924, pages 1414, 1415 and 1416, or apply to our Information Department. On May 5, 1924, Company acquired the Baltimore & Belair Electric Ry. History and Properties—Incorporated in 1904, in Manitoba, as the Winnipeg Electric Railway Co.; name changed to present title in May, 1924. Consolidation of Winnipeg Electric St. Ry. and the Winnipeg General Power Co. Controls the Winnipeg, Selkirk & Lake Winnipeg Ry. and the Suburban Rapid Transit Co. and guarantees the bond issues of those two companies. Also owns 60% of the non-par shares of the Manitoba Power Co., Ltd.; also entire outstanding stock of the Winnipeg River Power Co., Ltd. Owns a water power plant on Pinawa Channel, Winnipeg River, with a capacity of 30,000 h.p. Also has 12,000 h.p. auxiliary steam plant in the city of Winnipeg; 68 miles of high-tension steel-tower and 56 miles of high-tension wood pole transmission lines, located practically the entire distance on a 100 ft. right-of-way owned in fee. Controls all the street railway and gas business in Winnipeg, St. Boniface and the adjoining municipalities, serving a population of about 305,000, and competes with City in electric power and lighting business. Gas plant has a capacity of 2,500,000 cu. ft. with a distribution system comprising 129.2 miles of mains. Price of gas (effective Sept. 1, 1923), monthly rates: First 400 cu. ft., 75 cts. net; next 4,600 ft., $1.30 gross, $1.20 net; next 20,000 ft., $1.25 gross, $1.15 net; next 25,000 ft., $1.20 gross, $1.10 net; next 50,000 ft., $1.15 gross, $1.05 net; all over 100,000 ft., $1.10 gross, $1.00 net; all over 300,000 ft., 95 cts. net. Prepayment meters, $1.50 net per 1,000 cu. ft. Gas heating rate; 85 cents per 1,000 ft.

Franchises—Street railway franchise is exclusive in Winnipeg until 1932 and in St. Boniface until 1943, at which time the municipalities must either buy the railway plants or extend the franchise. In 1913, the company was granted franchises and made contracts for new railway lines in St. Vital and Fort Garry, and for electric lighting and power privileges in St. Vital, and in addition contracts for street lighting in Assiniboia and St. Vital.

The company is required to pay to the city of Winnipeg 5% of the gross annual earnings of all its railway lines in the city, in addition to a tax of $20 on each car operated.

MANITOBA POWER COMPANY, LIMITED

(Controlled by Winnipeg Electric Co.)

History and Property—Incorporated under the Companies' Act of Canada, by Letters Patent and Supplementary Letters Patent, dated respectively October 21, 1910, March 4, 1920, and November 15, 1921. Acquired the plant and assets of the Winnipeg River Power Co., Ltd. The Company has at Great Falls the largest power site available on the Winnipeg River. On this site the Company has constructed a hydro-electric plant which has a capacity of 112,000 h.p. consisting of four units of 28,000 h.p. each. Company has placed orders for the installation of the fifth and sixth units to be ready for operation during the late summer and early fall of 1928. The installation of these two units will complete the Great Falls plant to its full rated capacity of 168,000 h. p.

There has been constructed a high tension transmission line, 17 miles in length, extending from the Great Falls plant to connect with the existing line from the Pinawa Hydro-Electric plant of the Winnipeg Electric Company to Winnipeg; 18 miles of high tension transmission line extending from Great Falls plant to the Manitoba Pulp and Paper Company mills at Pine Falls, with whom the Manitoba Power Company has entered into a contract to supply power for a period of ten years; also 70 miles of high tension transmission line connecting the Great Falls plant with the City of Winnipeg.

All lines are of steel tower construction and situate on a right-of-way owned by the Company.

Contracts—Company was formed for the purpose c developing and furnishing additional hydro-electri power for the Winnipeg Electric Company. Com pany's power development is the most importar source of power to Winnipeg Electric Company, whic has a contract with Manitoba Power Company, Lim ited, whereby it agrees to purchase power for a perio of 20 years from 1923.

The Company has also a ten-year contract with th Manitoba Paper Co., Limited, to supply it with a power for its mill at Fort Alexander, within 15 mile of Great Falls. One paper machine with a rate capacity of 125 tons went into operation January, 192 and a second machine of the same capacity in Augus 1927.

Company also has entered into a contract with th City of Winnipeg. This calls for the delivery to th City by Manitoba Power Company, Limited, of 10,0 h.p. in 1928; 20,000 h.p. in 1929; 30,000 h.p. in 193 and for six years thereafter, at which time it dimi ishes 10,000 h.p. per year.

Company has negotiated contracts with variou mines in the central Manitoba mining area to supp their power requirements.

FUNDED DEBT

(1)

$2,500,000 CATSKILL POWER CORP. FIRST MORTGAGE 5½% GOLD BONDS SERIES "A"; DUE MAY 1, 1955

Dated May 1, 1925.

Interest Payable May and November 1, at The Bankers Trust Co., New York.

Denominations—Coupon (principal may be registered) $100, $500 and 1,000. Fully registered bonds of $1,000 or multiples thereof; interchangeable.

Trustee—Bankers Trust Co., New York.

Provisions of Issue—Authorized issue is unlimited. Issued $2,500,000 Series "A," the proceeds of which, together with those of the sale of 21,600 shares of Capital stock at $50 a share, were used in the purchase of the property in meeting the cost of installing an additional unit of 1,457 h.p. at Mongaup Falls plant and in constructing the Toronto Lake reservoir, with an estimated storage capacity of 1,200,000,000 cu. ft. Additional Series "A" bonds totaling $150,000 may be issued on account of a possible excess of construction costs paid over present estimates. In addition to the above, bonds may be issued under the mortgage only for refunding,

par for par, bonds issued under this mortgage; or for not more than 75% of the cost or fair value, whichever is less, of additional property in New York State, or of permanent improvements, extensions or additions. Additional bonds may be issued only if (except in case of refunding) the net earnings of the company, as defined in the mortgage, for a period of twelve consecutive months within the fifteen calendar months immediately preceding application, shall have been equal to at least twice the interest charges on all (1) bonds outstanding under the mortgage (2) all bonds secured by any mortgage lien, or other encumbrance, ranking prior to or on a parity with the lien of the first mortgage on any properties of the Company and (3) the bonds applied for.

Callability—Subject to call in whole or in part on any interest date on 30 days' notice at 107½ and interest on Nov. 1, 1925 and at ½ of 1% less for each six months thereafter to Nov. 1, 1927 and at 105 and interest thereafter to Nov. 1, 1954.

Improvement Fund—An improvement fund will become operative Dec. 31, 1927, and will require that an amount equal to 2% of outstanding bonds shall be annually used by Corporation for the acquisition of property against which no additional bonds may be issued, or applied to the redemption of bonds.

Property Maintenance Provisions—The indenture provides that at least every five years, and oftener on request of 10% of the bondholders, an engineer appointed by the Trustee shall report to the Trustee whether the property has been kept in good repair and condition and sufficient amounts for such maintenance charged to operating expenses or current income. Corporation covenants to deposit with the Trustee any deficiency shown by such report to exist in such charges.

Security—Secured by a direct first mortgage on all the property (reserving certain rights to cut timber, etc.) formerly owned by Corporation or hereafter acquired, except as to any liens existing upon such after-acquired property at the time of acquisition.

Assumed—Assumed by Rockland Light and Power Company upon consolidation May 21, 1926.

Tax Provisions—Corp. pays Normal Federal Income tax up to 2% and will reimburse holders upon application within 60 days after payment for all taxes (except transfer, estate, inheritance and succession taxes) not exceeding in the aggregate for any one year ½ of 1% of the face value of their holdings assessed under the laws of either Massachusetts, Vermont, New Hampshire, Pennsylvania, Rhode Island or Connecticut (but only one of said States) and paid by said bondholder.

Legal Opinion—Ropes, Gray, Boyden & Perkins (for the bankers).

Original Offering—First publicly offered ($2,500,000), in June, 1925, by Estabrook & Co. and Putnam & Co., New York, and H. C. Warren Co. and Charles H. Tenney & Co., Boston, etc., at 95 and interest, yielding over 5.85%.

CONNECTICUT RAILWAY & LIGHTING COMPANY

History—Incorporated July 2, 1895, in Conn., as The Gas Supply Co., name changed March 2, 1899, to Connecticut Lighting & Power Co., and on Jan. 10, 1901, to present title. Property leased, Dec. 19, 1906, for 999 years from Aug. 1, 1906, to Consolidated Railway Company, now The New York, New Haven and Hartford Railroad. The street railway properties have been sublet to The Connecticut Company, the electric light and power with the gas properties have been sublet to The Connecticut Light & Power Company. Total rental is on a graduated scale, increasing from $975,000 in 1907 to $1,400,000 in 1915 and thereafter. Out of this rental and other income the Company pays its interest and other charges and 4½% dividends on its Common and Preferred stock.

CAPITAL STOCK

Authorized and outstanding, $8,977,200 Common and $8,142,900 cumulative Pfd.; par, $100.

Preferred Stock Provisions—Pfd. stock has preference for assets as well as to dividends; both classes of stock have equal voting rights.

Transfer Agents—The Equitable Trust Co., New York, and Union and New Haven Trust Co., New Haven, Conn.

Registrars—Guaranty Trust Co., New York, and Second National Bank, New Haven, Conn.

Annual Meeting—Fourth Wednesday in September.

Dividends—The Pfd. stock originally entitled to 5% cumulative dividends, but none had been paid up to the lease to Consolidated Ry. in Dec., 1906. In 1907, Pfd. stockholders received additional Pfd. stock in settlement of accrued dividends, and agreed to the reduction of dividend rate to 4% from Aug., 1906, during the continuance of the lease. Quarterly dividends at rate of 4% per annum were paid from May 15, 1907, until Aug. 15, 1917, when the rate was increased to 4½% per annum and maintained to date. On Common, 1% paid Nov. 15, 1907, and 1% quarterly until Aug., 1917, when rate was increased to 1⅛% quarterly, which rate maintained to date. Payments on both classes F, M, A & N 15.

THE GROTON & STONINGTON TRACTION COMPANY

History and Property—Incorporated July 25, 1921. in Conn., and on Jan. 1, 1923, purchased from the Receiver of the Shore Line Electric Ry. Co., the line from Westerly, R. I., to Main St., New London, Conn., and from Mystic to Old Mystic, Conn. Length of line owned, 20.81 miles; trackage (Connecticut Company), 0.75 mile—total, 21.56 miles. Total track (owned, 21.46 miles; trackage, 1.50 miles), 22.96 miles. Equipment: Closed passenger cars, 13; auto passenger buses, 3; work car, 1; snow plow, 1,; miscellaneous, 1.

Reorganization—On Nov. 22, 1926, P. LeRoy Harwood, acting on behalf of the bondholders committee (consisting of Clarence E. Thompson, P. LeRoy Harwood, C. Royce Boss, and Lucius E. Whiton), purchased the property of The Groton & Stonington Traction Co. for $50,000. This was in pursuance to foreclosure action brought by the committee representing the holders of The Groton & Stonington Street Railway First Mortgage 5% bonds; due July 1, 1924, and Groton & Stonington Street Railway Old Mystic Extension First Mortgage 5% bonds; due July 1, 1936. The committee in turn deeded the property back to the company in consideration of $16,500 cash, $250,000 of income bonds and $395,000 Common stock, and the surrender and cancellation of The Groton & Stonington Traction Co. First Mortgage 5% bonds, due April 1, 1943, together with unpaid interest thereon. Under the plan each holder of a $1,000 bond of the Groton & Stonington Street Railway Co. received $500 in 6% 20-year income bonds and 10 shares of stock (par $100) of the company.

Change in Control—It was announced in January, 1928, that F. E. Kingston & Co., Hartford, Conn., had acquired the majority of the First Mortgage bonds

and the shares of stock of Company. Sale of the bonds and stock was made on the advice of the Stockholders' Protective Committee and represented the holdings of 75% of the stockholders.

$1,800,000 FIRST MORTGAGE 5½% GOLD BONDS, SERIES OF 1927; DUE APRIL 1, 1929

Dated, Series of 1926, April 1, 1926; Series of 1927, April 1, 1927.

Interest Payable April and October 1 at The Minnesota Loan & Trust Co., Minneapolis, Minn.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The Minnesota Loan & Trust Co., Minneapolis, Minn.

Provisions of Issue—Authorized amount of bonds under this mortgage is limited by restrictions of Indenture. Amount issued, $1,500,000 Series of 1926, and $1,800,000 Series of 1927. Additional bonds may be issued under the Mortgage for refunding purposes or for additions and extensions at not exceeding 80% of cost, but only when net earnings for a period of 12 consecutive months out of 15 months next preceding the issuance of such bonds shall have been equal to at least twice the annual interest charge on bonds outstanding and then to be issued.

Purpose of Issue—Proceeds from sale of $1,000,000 of these bonds were used in part for payment of properties acquired and in part to reimburse company for improvements to all properties heretofore made. Proceeds from the balance of this issue were to be held by Trustee and paid out against engineers' certificates for construction of transmission lines and for other permanent additions costing in excess of $600,000.

Callability—Subject to call as a whole or in part on any interest date upon 30 days' notice at par and a premium of ½ of 1% for each 6 months of unexpired maturity.

Retirement Fund—Company covenants to pay to the Trustee annually commencing April 1, 1927, a cash sum equal to 2% of the greatest amount of bonds outstanding. Such moneys will be used either for the purchase or retirement of bonds of this series or for permanent additions and betterments which cannot be made the basis of issuance of additional bonds.

Security—These bonds are secured by a direct first mortgage on entire properties owned by the Company on April 1, 1926, subject to a $42,517 encumbrance on a small portion of the property. Further secured by pledge of all of the Common stock of the Eastern Montana Light and Power Co., together with a lease of its properties to the Montana-Dakota Power Co.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

Legal Opinion—Cobb, Wheelwright, Hoke & Benson, Minneapolis, Minn.

Original Offering—First publicly offered ($1,500,000 Series of 1926) in May, 1926, at 99¾ and interest to yield about 5.60%, by The Minnesota Loan & Trust Co., Minneapolis, and Second Ward Securities Co., Milwaukee.

CINCINNATI, LAWRENCEBURG & AURORA ELECTRIC ST. R.R.

History—Incorporated Nov. 18, 1898, in Ohio. Owns road from Anderson's Ferry at Cincinnati to Aurora, Harrison and Lawrenceburg. Franchises expire in 1924 and 1925. Length of line: Single track, 31.97 miles; sidings, 1.28 miles—total, 33.25 miles. Gauge, standard. Rail, 70 and 73 lb. T and girder. Motor cars, 12. In latter part of September, 1925, Company established a bus line from its terminal at Sedansville to the heart of Cincinnati, Ohio, about six miles. A fleet of four "White" busses operate between the two points.

Receivership—Judge Warner at Cincinnati on June 23, 1913, on application of Pres. J. C. Hooven, who, it is stated, loaned the company $125,000, appointed F. B. Shutts, Miami, Fla., receiver. On Dec. 28, 1914, C. E. Hoover was appointed receiver upon the resignation of Mr. Shutts. The company, it is stated, suffered about $145,000 damages from the flood in the spring of 1913. On Jan. 17, 1918, Judge J. B. Kelley appointed Edgar Stark, trust officer of the Union Savings Bank & Trust Co., Cincinnati, as co-receiver of Company to act with Receiver C. E. Hooven. Appointment of co-receiver was made for purpose of protecting the interests of the Trust Co., which is to advance money to the road to make necessary improvements.

Property Sold—Company's property was purchased Dec. 1, 1926 for $205,000, by the Union Trust Co. of Cincinnati. Property was sold under order of the Hamilton County (Ohio) Common Pleas Court and the Dearborn County (Ind.) Circuit Court.

New Company—It was unofficially announced in March, 1928 that as a move toward lifting the receivership of Company, articles of incorporation were filed for a seccessor company, which will issue 7,500 shares of no par value Common stock, to be distributed among the holders of the below described bonds. C. H. Deppe is to become Pres. of new company and J. L. Lackner, Sec.

THE UPHAM GAS COMPANY
(Mt. Vernon, Ohio)

History and Properties—Incorporated in March, 1923, in Ohio, to produce, transport and market natural gas for industrial and commercial purposes. For three years to March, 1926, The Upham Co. (originally incorporated in 1905 in W. Va.) sold the gas it produced from its properties in Ohio to The Upham Gas Co. for distribution among consumers. In 1926 The Upham Gas Co. acquired the physical properties of The Upham Co., including the pipe line system of about 76 miles, all gas leases, both developed and undeveloped, three 80 h.p. compressor units, real estate, warehouse property, field storage acreage, rights of way, concessions, franchises, etc. The Upham Gas Co. sells gas mostly to industrial consumers in and about Mount Vernon, Ohio, at rates ranging between $.35 and $.40 per thousand cubic feet. About 12% of its sales are to other gas consumers, rates for some of

this gas being $.15 per thousand cubic feet at the well. The properties acquired from The Upham Co. are located in Knox County, Ohio. As of March, 1926, there were 73 producing wells, and open flow was estimated at 10,000,000 cubic feet. Approximately 6,500 acres under leaseholds have been drilled and proven productive. In addition there are leaseholds on approximately 12,700 acres of undeveloped property and in addition gas rights on approximately 7,000 acres of land to be developed under a working arrangement with the Pure Oil Co.

NEW YORK, WESTCHESTER & BOSTON RAILWAY COMPANY

History and Properties—Incorporated June 8, 1915, in N. Y.; consolidation of the Westchester Northern R. R. Co. and New York, Westchester & Boston Ry.

The company is authorized by its charter to construct and operate a railroad from the Harlem River in the City of New York, Borough of the Bronx, northwardly through the said Borough, to the line dividing New York City and Mount Vernon; thence through Mount Vernon to New Rochelle and Port Chester, together with a branch from Mount Vernon to White Plains. Of this route there was completed and put in operation in 1912 the portion of the line extending from 174th St. in the City of New York to New Rochelle and White Plains, there being four tracks from 174th Street, New York City, to Columbus Avenue Junction, Mount Vernon, two for express and two for local; two tracks from Columbus Avenue Junction, Mount Vernon, to Harrison and two tracks from Columbus Avenue Junction to White Plains. The line from New Rochelle to Harrison is leased

from the N. Y., N. H., & H. RR. Co. From about 174th St. in the City of New York south to the Harlem River, the road is operated jointly with the Harlem River & Port Chester R. R. Co., between which points the route of each road in part coincides. This operation is conducted under the terms of a contract with the Harlem River & Port Chester R. R. Co., dated Oct. 17, 1911, granting to the Westchester Company the right in perpetuity to maintain and operate its railroad over the joint right of way and also over the tracks of the Harlem River & Port Chester R. R. Co. lying to the east thereof. The Westchester Northern RR. Co., organized to extend the line from White Plains, N. Y., to Danbury, Conn., with a branch to Brewster, Putnam County, N. Y., was abandoned in 1925. Mileage in operation, Dec. 31, 1927, 26.72 miles, or 84.32 miles of track.

In July, 1927, Company started service between Mamaroneck and Harrison, N. Y.

Equipment consists of 75 multiple unit all steel cars, 2 flat cars, 4 service cars and 1 electric freight switching locomotive.

HAMBURG ELECTRIC COMPANY

(Hamburgische Electricitatswerke, Aktiengesellschaft)

History and Properties—Company was founded in 1894 as a stock company with a capital of 6,000,000 Marks. In 1915, the Free State of Hamburg became a stockholder in the Company and furnished capital equal to that already outstanding, or 22,000,000 Marks. Business is the production and distribution of electric energy for light and power in the Free State of Hamburg. Company also has the right to distribute light and power outside the limits of the Free State of Hamburg and current is thus sold in large amounts. Various industries located in Hamburg are important sources of revenue and in addition, Company has exclusive right to furnish power to the street railways in Hamburg under favorable contracts.

Properties consist of the following steam power plants: A large generating plant in Tiefstack, capacity 87,000 k.w. or 118,207 h.p., a large generating plant at Neuhof and three smaller generating stations. Total present installed capacity amounts to 162,930 k.w. or about 203,107 h.p. Upon final completion of the Neuhof plant Company will have total installed capacity of at least 300,000 k.w., or about 402,000 h.p. Also owns and operates 7 transforming stations, and 24 sub-stations. Distribution system at June 30, 1927, consists of 1,498 miles of underground cable line, and 368 miles of overhead line. Meters installed as of June 30, 1927, 232,312.

Company holds a 50% interest in Fernheizwerk Hamburg G M B H (Hamburg Steam Heating Company) and 100% interest in Stromversorgung Wilhelmsburg G m. b. H (Wilhelmsburg Power Company).

Valuation—The book value of the physical property, less depreciation, as at June 30, 1927, was $33,782,989. In 1926 an American Engineer, Mr. F. B. Hulse, gave the opinion that the physical properties could not be reproduced new, less depreciation at that date not less than $34,520,000.

Relationship with The Free State of Hamburg—The Free State of Hamburg holds about 29% of the Common stock of Company and also holds one Preferred share with special voting powers, by virtue of possession of which Preferred share, the Free State has the majority of votes in any meeting of stockholders, its voting power representing about 51.4% of total voting capital. On the board of directors of ten, the Free State is represented by five members. It participates in earnings of Company in the three following ways: (1) Dividends paid on its holdings of capital stock; (2) an agreed percentage of Company's gross revenues averaging about 10% depending on sale prices of current; and (3) a part of the net profits which increases progressively as dividends increase. For the fiscal year, 1926-27, the State received in these three forms of participation the following sums: $451,000, $980,000 and $1,223,430.

CAPITAL STOCK

Authorized and outstanding, 66,000,000 Gold Marks ($15,708,000) Common stock of 100 Marks par value per share, and 8,536 Marks ($2,032) Preferred stock. Controlling interest is held by The Free State of Hamburg—see preceding paragraph.

Dividends have been paid (in years ended June 30) on Preferred stock as follows: 1916 to 1919, inclusive, 5% each; 1920, 7½%; 1921, 9%; 1922 and 1923, none; 1924, 8%; 1925, 1926 and 1927, 10% each. On Common (years ended June 30) dividends have been paid as follows: 1911, 8%; 1912 to 1914, 8½% each year; 1915, 11¾%; 1916, 6%; 1917, 3%; 1918, 4%; 1919, 5%; 1920, 8½%; 1921, 10%; 1922, 12%; 1923, none; 1924, 8%; 1925, 1926 and 1927, 10% each.

Purpose of Issue—Proceeds from the sale of these $4,000,000 were to be used to increase Company's generating capacity and distributing system.

Callability—Subject to call as a whole, but not in part, at option of Company, on November 1, 1930, or on any interest date thereafter on 60 days' notice at 103 and interest. Subject to call for the sinking fund on November 1, 1926, and on any interest date thereafter at par and interest.

Sinking Fund—Trust agreement provides that beginning November 1, 1926, the sinking fund will operate to retire semi-annually $100,000 Debentures of this issue either by delivery to the Fiscal Agent of Debentures by the Company or by redemption thereof by lot at 100.

Security—These debentures are direct obligations of Company. Secured by a trust agreement in customary American form in which, among other things, Company covenants that as long as any of these debentures are outstanding, Company will not: (a) mortgage or pledge any of its properties except for the obligations under the so-called Dawes Plan, unless these debentures are given priority as to security: (b) issue any additional debentures or other funded obligations; (1) unless net earnings for 12 consecutive months in the previous 15 months shall have exceeded 3½ times annual interest charges on all obligations outstanding and to be outstanding; (2) which will cause its indebtedness to exceed 60% of the depreciated value of its plants (including additions and betterments thereto) as appraised by competent engineers; (3) which will cause its funded indebtedness to exceed the par amount of its share capital.

Tax Provisions—Principal, interest and sinking fund payable at International Acceptance Bank, Inc., New York City, in United States Gold coin of the present standard of weight and fineness without deduction for any past, present or future taxes or duties levied by or within the German Reich or the Free State of Hamburg.

Legal Opinion—Hornblower, Miller & Garrison, New York and Paris, and Dr. Hermann Samson, Hamburg, (for the Bankers) and Dr. Erich Diestel, Hamburg, (for the Company).

Original Offering—First publicly offered ($4,000,000) in October, 1925, at 95½ and interest to yield over 7.65%, by Marshall Field, Glore, Ward & Co., and Blyth, Witter & Co., New York.

GREAT CONSOLIDATED ELECTRIC POWER COMPANY, LTD.

(Daido Denryoku Kabushiki Kaisha)

History—The Daido Denryoku Kabushiki Kaisha is a consolidation of the Kiso Electric and Industrial Co., Ltd., (capital, Yen 18,600,000); The Japan Hydro-Electric Power Co., Ltd., (capital, 50,000,000 Yen); and The Osaka Transmission Co., Ltd., (capital, 20,000,000 Yen) effected Feb. 25, 1921, with a capital of 100,000,000 Yen. In August, 1923, in order to acquire the properties and rights of the Osaka Electric Light Co., Ltd., a company called the Osaka Electric Co., Ltd., was established subsidiary to the Daido Denryoku K. K. In October of the same year, this company was absorbed by the Daido Denryoku, and the capital of this company was then raised to 112,963,000 Yen. In accordance with resolutions passed at a special shareholders' meeting held on April 18, 1927, the capital was increased by 60,037,000 Yen, making total capital of the company 173,000,000 Yen.

Subsidiaries—The Company owns stock in several Japanese electric corporations engaged in a business incidental to the activities of the Company. The following table summarizes its holdings of stock in corporations which are controlled by such stock ownership:

	Authorized Capital (in Yen)	Owned by Daido (in Yen)
Daido Fertilizer Manufacturing Co.	3,000,000	2,985,000
Daido Real Estate Co.	600,000	600,000
Shinbi Electric Power Co.	1,500,000	826,500
Osaka Electric Power Co.	10,000,000	9,975,000
Showa Electric Power Co.	40,000,000	27,340,000

Business—The Company is primarily a wholesaler of power, selling its output under long term contracts to large industrial consumers, interurban and street railways and to retail systems distributing light and power in the cities of Tokyo, Yokohama, Osaka, Nagoya, Kyoto, Nara and many other cities and towns embracing a territory having a population of over 20,000,000. Among its principal customers are the Tokyo Electric Light Co., the Toho Electric Power Co., Ltd., the Ujigawa Electric Co., the Kyoto Electric Light Co. and the municipally owned electric lighting and street railway system serving the City of Osaka.

The Company furnishes practically the entire electric light and power requirements of the Municipality of Osaka, which conducts under municipal ownership the entire electric lighting and tramway business in the city. Also supplies power in large quantities direct to interurban railways, electric tramways and many large industrial plants.

Properties—The Company owns 13 generating plants with a total capacity of 270,000 k.w., consisting of 169,500 k.w. hydro-electric generating capacity and 100,500 k.w. steam generating capacity. It also owns 25 substations having a combined operating and spare capacity of 805,700 k.v.a. and a comprehensive high tension transmission system having a total length of 624 miles, including 181 miles of 154,000 volt double circuit lines and 263 miles of 77,000 volt double circuit lines.

Franchises and Water Power Concessions—The franchises of the Company for the building and operating of transmission lines, substations, switching stations, and appurtenant works run for a period of forty years from Nov. 11, 1921. It owns in fee all the land on which its substations, power houses and similar structures are erected. The Company now holds, through license or concession from the Imperial Japanese Government, water rights affording it total kilowatt capacity of 316,438. Similar concessions held by affiliated companies afford an additional kilowatt capacity of 249,451. Concessions now pending before the Japanese Department of Communications, if granted, will afford an additional kilowatt capacity of 505,861. If such pending concessions are granted, the total kilowatt capacity of the Company and affiliated companies will be 1,276,049.

CAPITAL STOCK

Authorized and outstanding, 173,000,000 Yen (increased from 112,963,000 Yen in Oct., 1927), consisting of 3,460,000 shares of 50 Yen each. Each share of stock carries one vote.

Stockholders' Meetings—Held on call in June and December, at Tokyo, Japan.

Dividends—Company has paid dividends since its organization in 1919, at the following rates per annum: For term ended May 31, 1921, 6%; Nov. 30 1921, 6.2%; May 31, 1922, 6.4%; Nov. 30, 1922, 7%, May 31, 1923, 7½%; Nov. 30, 1923, 8%; May 31, 1924, 8%; Nov. 30, 1924, 8%; May 31, 1925, 8%; Nov. 30, 1925, 8.5%; May 31, 1926, 10%; Nov. 30, 1926, 10%; May 31, 1927, 10%; Nov. 30, 1927, 10%.

$12,681,000 FIRST & GENERAL MORTGAGE 6½% SINKING FUND GOLD BONDS (CLOSED ISSUE); DUE JULY 1, 1950

Dated July 1, 1925.

Interest Payable January and July 1, at office of Dillon, Read & Co., New York, in U. S. gold coin (or at the option of the holder at office of J. Henry Schroder & Co., London, in Sterling, at exchange rate of $4.8665 to the £ Sterling).

Denominations—Coupon, $500 and $1,000.

Trustee—The Industrial Bank of Japan, Ltd., Tokyo; Central Union Trust Co. of New York, Countersigning Agent.

Provisions of Issue—Authorized and issued, $13,500,000 of which $819,000 retired by sinking fund to January 1, 1928.

Callability—Subject to call as a whole or in part on any interest date after 30 days' notice at 100 and interest.

Sinking Fund—A sinking fund will be provided, available semi-annually, sufficient to retire $300,000 bonds per annum for the first ten years and $700,000 bonds per annum thereafter, to buy bonds if available at not exceeding 100 and interest and insofar as not available to call by lot at that price. This sinking fund is calculated to retire the entire issue by maturity.

Security—These bonds will be the direct obligation of the company and in the opinion of counsel, will be secured by closed first mortgage lien created under the laws of Japan on properties representing a cost less depreciation, as of Feb. 28, 1925, of $33,234,478, as certified by Messrs. Harold Bell, Taylor, Bird & Co., Chartered Accountants. These properties comprise an integral part of the company's system and includes generating plants having a total present capacity of 136,100 k.w., substations of 195,400 k.v.a. total present capacity and 396 miles of high tension transmission lines. The bonds will be further secured by closed mortgage lien created under the laws of Japan on additional properties representing a cost less depreciation as of the above date of $37,063,367, subject only to the lien of the mortgage securing the company's Series "A" bonds (closed issue), of which there were $13,250,000 outstanding at Feb. 1, 1928. Total properties thus securing the present issue of bonds represented a cost less depreciation of $70,297,845, and include all of the completed power plants, substations, transmission lines and distribution lines now directly owned by the company, with the exception of a small distributing system the ownership of which is to be vested in a subsidiary company.

Tax Provisions—No deduction shall be made for any Japanese taxes, when held by non-residents of Japan.

Original Offering—First publicly offered ($13,500,000) in July, 1925, at 86 and interest, to yield over 7¾%, by Dillon, Read & Co., Harris, Forbes & Co., Guaranty Company of New York and Bonbright & Co., Inc., all of New York.

Listed—New York Stock Exchange.

DEBENTURES OUTSTANDING

19,910,000 Yen Seventh Issue 6½% Debentures, dated Oct. 25, 1927; due Oct. 25, 1934. Authorized and issued, 19,910,000 Yen.

The Debentures described above were issued for the purpose of redemption of the remainder of the 7½% 4th and 6th debenture issues.

Depreciation Policy—Under covenants made by the Company in the indenture securing its First and General Mortgage bonds, the Company is required to charge to operating expenses in each fiscal term all expenditures made during such term for the maintenance of its properties in accordance with the standard prescribed in the Indenture, and, in each fiscal term out of its net earnings for such fiscal term, to make proper credits to a reserve for depreciation before any appropriations are made for dividends or special compensation in the form of bonuses or otherwise. The amount to be credited to such depreciation reserve in each fiscal term is required to be determined in accordance with a depreciation schedule prepared by Thebo, Starr & Anderton, Inc. Such schedule is based on the method known as the "Six Per Cent Annual Sinking Fund Method" and applied to all the Company's depreciable properties as shown upon its balance sheet of May 31, 1924, and is extended from time to time to include all properties constructed or acquired by the Company after said date. If the Fiscal Agent shall notify the Company at any time after Aug. 1, 1927, that in its judgment such schedule has proved inadequate and shall request the Company so to do, the Company, from time to time, will make such additional credits to depreciation reserve as, in the opinion of public accountants selected by the Fiscal Agent, may be required to make the standard of the Company, with respect to depreciation, conform to that of corporations in the U. S. of America engaged in businesses similar to that of the Company.

MIDDLESEX WATER COMPANY

History and Property—Incorporated Feb., 1897, in N. J., and in Oct., 1907, the Consumers Aqueduct Co. was merged. Franchise unlimited. Supplies water in the townships of Woodbridge, Raritan and Piscataway, and the boroughs of Carteret, Metuchen and South Plainfield in Middlesex County, N. J., and in the township of Clark in Union County, serving population of 46,700. The Company owns 113 miles of mains and proposes to construct approximately five additional miles of 20-inch main. The Company has three sources of water supply with a daily capacity of 10,750,000 gallons and has pumping capacity of 16,000,000 gallons per day. The Company has a storage capacity of 183,000,000 gallons, or 22 days' supply at present rate of sale. The number of its consumers is 7,950.

WATER SALES, YEARS ENDED DECEMBER 31

1923	2,794,035,000 gallons
1924	2,456,606,000 gallons
1925	2,625,000,000 gallons
1926	2,411,777,500 gallons
1927	2,581,557,000 gallons

Valuation—The Company filed a schedule of increased rates with the Board of Public Utility Commissioners of New Jersey on Dec. 10, 1923. The Board suspended the rates and, after hearings, declared the value of the Company's property as of Dec. 31, 1923, to be $1,738,000, and prescribed a schedule of rates based on that valuation. The Company then began suit in the U. S. District Court for the district of New Jersey to set aside the valuation made by the Utility Board and to enjoin the enforcement of its schedule of rates as confiscatory. The Court held that the Company's property was worth "not less than $2,500,000" on Dec. 31, 1923, not including the value of its sources of water supply, and that the Utility Board's rate schedule was confiscatory and issued an injunction to prohibit its enforcement. The Board appealed to the U. S. Supreme Court which dismissed the appeal Oct. 10, 1927, permanently ending the litigation. Since Dec. 31, 1923, the sum of $556,000 has been expended for extending and improving the Company's property.

According to an independent appraisal by Nicholas S. Hill, Jr., Consulting Engineer of New York City, the cost of reproduction new of the Company's physical property in place Aug. 31, 1926, at current prices would have been $3,021,390, not including the value of the Company's sources of water supply.

$2,000,000 FIRST MORTGAGE GOLD BONDS, 6% SERIES; DUE JUNE 1, 1955

Dated June 1, 1925.

Interest Payable June and December 1, at The Huntington National Bank, Columbus, Ohio, or at The First National Bank, New York, N. Y.

Denominations—Coupon, $500 and $1,000; principal may be registered; denominations interchangeable.

Trustee—The Huntington National Bank, Columbus, Ohio.

Provisions of Issue—Issued, $2,000,000 6% Series due 1955, to provide in part, payment of the purchase price of Company's properties. No additional first mortgage bonds will be issuable other than for (A) electric and/or artificial gas property located in Ohio, or permanent improvements, extensions or additions thereafter made to such properties or made after June 1, 1925, to the electric properties now owned by Company, and then only in case such property is covered by the indenture as a direct first mortgage, subject only to (1) prior mortgages and liens not exceeding $100,000, for which an equal amount of cash is deposited with the Trustee, and (2) taxes for the then current year and liens incident to construction which are not reasonably determinable; or for (B) an equal amount of bonds issued for such properties (including 6% Series due 1955 now issued) surrendered to the Trustee or redeemed. Bonds may be issued in series in such amounts, in such denominations, bearing such date, maturity, interest rate not exceeding 8% per annum and such conversion, redemption, sinking fund and tax provisions, and may otherwise vary from the bonds of other series, as shall be determined from time to time by the Directors of Company, at the time of authorization of the original issue of bonds of each series, subject, to the restrictive provisions of the indenture. Additional bonds may be issued for not exceeding 75% of the cash cost or fair value, whichever is less, of additional property and/or of permanent improvements, extensions or additions, of the kind above stated, provided net earnings of Company determined as provided in the indenture for a period of 12 consecutive calendar months out of the preceding 15 months, shall have been equal to at least (a) two times the annual interest charges on all the outstanding First Mortgage Gold bonds, including those proposed to be issued, or (b) 10% of the amount of all such bonds, whichever is the greater amount; except that for the 6% series of 1955 (not purchased with sinking fund moneys) and for additional bonds issued subject to these restrictions, surrendered to the Trustee or redeemed, an equal amount may be issued.

Callability—Subject to call on any interest date upon 30 days' notice, on or before June 1, 1953, at 105 and interest, and thereafter at 101 and interest.

Sinking Fund—The indenture provides for payment to the Trustee semi-annually, beginning June 1, 1928, of sums amounting to 1% per annum of the amount of First Mortgage Gold bonds outstanding. Such funds shall be ued by the Trustee for the purchase of First Mortgage Gold bonds entitled to purchase from sinking fund moneys at the sinking fund prices of such bonds. The series of 1955 is entitled to purchase from sinking fund moneys at or below 102 and interest. To the extent that bonds entitled to purchase from sinking fund moneys are not obtainable at sinking fund prices, the sinking fund moneys may be used to reimburse Company for additional properties and permanent extensions, improvements and additions to the mortgaged property which might otherwise be made the basis for the issuance of additional First Mortgage Gold bonds.

Security—Secured by a direct first mortgage on the entire fixed assets of Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to reimburse resident holders of 6% Series due 1955, if requested within 60

days after payment, for the Pennsylvania and Connecticut Personal Property Tax, not exceeding 4 mills per annum on each dollar of assessed value, and for the Massachusetts Income Tax on interest not exceeding 6% per annum of such interest.

Legal Opinion—Hawkins, Delafield & Longfellow, New York, E. H. and W. B. Turner, Dayton, Ohio.

Original Offering—First publicly offered ($2,000,000) in November, 1925, at par and interest, by Bodell & Co., New York, etc., and The Huntington National Bank, Columbus, Ohio.

LEIPZIG OVERLAND POWER COMPANIES

(Landkraftwerke Leipzig Aktiengesellschaft in Kulkwitz and Energie Aktiengesellschaft Leipzig)

History and Property—The Leipzig Overland Electric Power Company (Landkraftwerke Leipzig Aktiengesellschaft in Kulkwitz) (organized in 1910) and Leipzig Public Service Corporation (Energie Aktiengesellschaft Leipzig) (organized in 1923), serve directly or indirectly a highly developed industrial and agricultural territory of approximately 2,900 square miles located in the Free States of Saxony and Prussia and having a population of about 1,000,000 (1925). The diversified character of this territory is emphasized by the fact that it completely surrounds and includes certain portions of the City of Leipzig, which is one of the most important commercial centers in Germany.

Leipzig Overland Power Companies serve immediately adjacent territories and are partially under the same ownership. Leipzig Public Service Corporation purchases practically all of its electrical energy from Leipzig Overland Electric Power Company; it also leases the properties of a neighboring utility company in which Leipzig Overland Electric Power Company owns a substantial interest.

Practically the entire business of Leipzig Overland Electric Power Company consists in the generation, distribution and sale of electric light and power. Leipzig Public Service Corporation operates various utility properties, including nine gas plants and also electric and gas distribution systems, which it leases under advantageous contracts; in addition it furnishes management to other utility companies. The two Companies together have approximately 112,000 customers. Over 73% of the capital stock of Leipzig Overland Electric Power Company is owned directly or indirectly by the Free State of Saxony and the various municipalities served and 74% of the capital stock of Leipzig Public Service Corporation is owned directly or indirectly by the various municipalities served.

Leipzig Overland Electric Power Company owns and operates a modern electric power station which will shortly, upon the completion of a new unit, have a total steam turbo-generator capacity of 30,000 k.w., together with an extensive distribution system including a ring transmission line around the City of Leipzig. Under advantageous contracts with other electrical power concerns, an additional generating capacity aggregating 8,000 k.w. is available. The Company also owns an extensive distribution system consisting of 671 miles of high and medium tension transmission lines and 610 miles of low tension lines. A portion of this system forms a ring transmission line around the City of Leipzig. The Company has 8 principal sub-stations and 324 transformer stations with a total transformer capacity of 48,270 k. v. a. The Company obtains its entire fuel supply from an adjacent, electrically operated, lignite coal mine operated by a wholly owned subsidiary company, Leipziger Braunkohlenwerke Aktiengesellschaft in Kulkwitz.

FUNDED DEBT

$2,884,000 TWENTY-YEAR 6½% SINKING FUND MORTGAGE GOLD BONDS; DUE MAY 1, 1946

Dated May 1, 1926.

Interest Payable May and November 1, in U. S. gold coin at office of W. A. Harriman & Co., Inc., New York.

Denomination—Coupon, $1,000; principal may be registered.

Trustees—American Trust Co., New York, and Allgemeine Deutsche Credit-Anstalt, Leipzig, Germany.

Provisions of Issue—Authorized, $5,000,000; issued, $3,000,000, of which $116,000 retired through sinking fund. Trust Agreement securing these bonds authorized an additional $2,000,000 which may be issued only to extent of 50% of cost or fair value, of new properties and/or additions, betterments and improvements which are to be placed under Mortgage, and then only if combined aggregate net earnings of companies for twelve consecutive months out of fifteen calendar months preceding issuance thereof amount to at least 1¾ times annual interest and sinking fund

charges on their entire funded debt then outstanding, including bonds to be issued. Leipzig Overland Electric Power Company covenants that, with exception of Dawes payments, certain revalorized mortgages not in excess of $40,000 and purchase money obligations, Leipziger Braunkohlenwerke Aktiengesellschaft (the coal company), as long as these bonds are outstanding, will not create any mortgage indebtedness upon any of its property without securing these bonds by a lien prior to that of said indebtedness.

Purpose of Issue—Proceeds of this Loan were used for enlargement, extension and improvement of operating properties including coal mine, for retirement of outstanding funded debt of Leipzig Overland Electric Power Co., as additional working capital and for other corporate purposes.

Callability—Subject to call as a whole or in part except for sinking fund, on any interest date, on 60 days' notice on and after May 1, 1931, and prior to May 1, 1936, at 101 and interest, and thereafter at par and interest.

Sinking Fund—Trust Agreement under which these bonds are issued provides for semi-annual sinking fund payments beginning Nov. 1, 1926, sufficient to retire entire issue by maturity. In lieu of cash companies may deliver, at their face value, outstanding bonds of this issue. Sinking fund monies are to be used for retirement of bonds by semi-annual drawings at par; notice of drawn bonds will be published in New York City 30 days prior to redemption date.

Security—Bonds are the direct, joint and several obligation of Leipzig Overland Electric Power Company and Leipzig Public Service Corporation, and are furthermore secured by a mortgage, subject only to Dawes payments, on substantially all real property of first named Company, including its power plant and additions thereto to be constructed from a portion of proceeds of this financing. Leipzig Overland Electric Power Company covenants to transfer to the German Trustee, its entire transmission system (insofar as said system is not included in property covered by the mortgage) to be held in trust as additional security for these bonds. The present reproduction value of the properties serving as security for this loan, after allowing for depreciation and including the portion of the proceeds of the loan to be used for additions and improvements, is estimated to amount to over $6,675,000. As further security Leipzig Overland Electric Power Company has pledged and deposited with German Trustee all capital stock of Leipziger Braunkohlenwerke Aktiengesellschaft in Kulkwitz.

Tax Provision—Principal and interest payable without deduction for any past, present or future taxes, levied by or within the German Reich.

Legal Opinion—Hornblower, Miller & Garrison, New York, and Dr. Wilhelm Beutner, Berlin.

Original Offering—First publicly offered ($3,000,000) in September, 1926, at 92½ and interest, to yield about 7.20%, by W. A. Harriman & Co., Inc., and International Acceptance Bank, Inc., New York, etc.

Listed—Boston Stock Exchange.

SOUTHERN CALIFORNIA GAS CORPORATION

History and Business—Incorporated Nov. 12, 1927, in Delaware and owns or controls over 99% of the Common stock of Southern California Gas Company (see appended statement) and also holds 50% of the capital stock of **Ventura Fuel Company** which owns and has operated since June 16, 1927, a natural gas collection and transmission system from the Ventura fields, 70 miles to Los Angeles. Corporation also owns all of the capital stock (there being no other outstanding capital obligations) of **Producers Gas & Fuel Company,** operating in the San Joaquin Valley.

CAPITAL STOCK

Authorized, 600,000 shares Common and 200,000 shares Pfd., both of no par value; outstanding, 600,000 shares Common and 75,000 shares $6.50 cumulative dividend Pfd.

Preferred Stock Provisions—Pfd. stock has preference for assets and cumulative dividends from Dec. 1, 1927, over the Common stock, and is entitled in liquidation to $100 per share and accrued dividends, plus a premium of $6 per share if such liquidation be voluntary. Pfd. stock is subject to redemption as a whole or in part upon 30 days' notice at $106 per share and accrued dividends. The Corporation shall not, without the affirmative vote or written consent of at least two-thirds of the outstanding Pfd. stock, (1) issue, assume or guarantee the payment of any bonds, notes or obligations maturing more than one year after their date, except that this restriction does not apply to the issuance of additional bonds in accordance with the terms of the Corporation's Collateral Trust Indenture dated Nov. 1, 1927, nor to the issue of other obligations, secured or unsecured, on the basis of not exceeding 75% of the cost to the Corporation, of additional securities acquired, nor to the refunding of previously issued obligations; (2) authorize or issue any stock or class of stock having priority or preference over the Pfd. stock as to dividends or assets; (3) amend the provisions of the Certificate of Incorporation so as to affect adversely any of the preferences or the rights thereby given to the Pfd. stock; (4) increase the number of shares of Pfd. stock authorized to be issued. Except as above the holders of Pfd. stock have no voting rights unless the Corporation shall fail to pay any quarterly dividend and shall not on or before the fourth succeeding quarterly dividend date

pay in full said dividend and all subsequently accumulated dividends. In such event, until such dividends are paid in full, the holders of Pfd. stock as a class have the right to elect one less than a majority of the board of Directors. The balance of the authorized Pfd. stock may be issued in one or more series with varying dividend rates not exceeding $7 per share per annum and redemption and voluntary liquidation premiums not exceeding $10 per share.

Purpose of Issue—The proceeds from the sale of the Pfd. stock and also the proceeds from the sale of Common stock provided funds to pay in part for the Common stock of Southern California Gas Company and for other corporate purposes.

Transfer Agents (Preferred)—Los Angeles-First National Trust & Savings Bank, and The Farmers' Loan & Trust Co., New York.

Registrars (Preferred)—Union Bank & Trust Co. of Los Angeles, and The Chase National Bank of the City of New York. For Common, The Chase National Bank of the City of New York.

Legal Opinion—Rushmore, Bisbee & Stern, New York, and Gibson, Dunn & Crutcher, Los Angeles.

Original Offering—First publicly offered (75,000 shares $6.50 cumulative dividend Pfd.) in Nov., 1927, at $100 per share and dividend, by Hunter, Dulin & Co., Peirce, Fair & Co., Blyth, Witter & Co., Bond & Goodwin & Tucker, Inc., Banks, Huntley & Co., American National Co. and George H. Burr, Conrad & Broom, Inc., Los Angeles, etc.

Tax Provisions—Corporation pays Normal Federal Income Tax up to 2%.

Dividends—Initial quarterly dividend of $1.625 was paid on the Pfd. stock March 1, 1928; payments quarterly, M, J, S & D 1.

FUNDED DEBT

$25,000,000 COLLATERAL TRUST GOLD BONDS, 5% DUE 1937; DUE NOVEMBER 1, 1937.

Dated November 1, 1927.

Interest Payable May and November 1, at The Chase National Bank of the City of New York or at the office or agency of the Corporation in Los Angeles.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—The Chase National Bank of the City of New York.

Provisions of Issue—Authorized amount, unlimited; issued, $25,000,000 5s.

Bonds in addition to the $25,000,000 may not be issued except for the purpose of refunding bonds of some previous series, unless the consolidated net earnings of the Corporation and its subsidiaries (as defined in the Trust Indenture), for 12 consecutive calendar months within 15 months immediately preceding the application therefor, shall have been at least 1½ times the amount of the consolidated annual fixed charges of the Corporation and its subsidiaries (as similarly defined and including interest on funded debt and fixed dividend requirements on preferred stocks of subsidiaries outstanding in the hands of the public, as well as annual interest requirements on the bonds outstanding and about to be issued). Subject to compliance with said requirements as to consolidated net earnings, additional bonds may be issued in series on the basis of not exceeding 100% of the deposit value (as defined in the Trust Indenture) of additional shares of Preferred stock and/or bonds, notes or other evidences of indebtedness pledged thereunder, or on the basis of 100% of such deposit value of additional shares of Common stock so pledged up to a total of $6,000,000, and thereafter on the basis of 66 2/3% of the deposit value of such Common stock. Bonds may also be issued for the purpose of refunding a like principal amount of previously authenticated bonds of any other series. Bonds may also be authenticated on the basis of the deposit of cash with the Trustee to an amount equal to their principal amount subject to withdrawal for the above described purposes in lieu of the authentication of bonds under the conservative provisions of the Trust Indenture.

Callability—Subject to call as a whole or in part at any time on 30 days' notice at principal amount and accrued interest plus premiums if redeemed after Nov. 1, 1928, equal to ½% up to and including Nov. 1, 1929; thereafter increasing ½% annually up to Nov. 1, 1933; and thereafter decreasing ½% annually until maturity.

Sinking Fund—None provided.

Security—Secured by pledge with the Trustee of the shares of Common stock of Southern California Gas Co. and Capital stock of Ventura Fuel Co. owned by the Corporation. The Indenture provides that the Trustee shall not release any of these pledged shares of stock (except for reorganization purposes as provided in the Trust Indenture) unless provisions shall be made for the payment of all the outstanding bonds of this series on or before the next interest payment date.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania 4 mills tax and Massachusetts 6% Income tax on interest, refundable upon application within 90 days after payment.

Legal Opinion—Rushmore, Bisbee & Stern and Taylor, Blanc, Capron & Marsh, New York.

Offering—First publicly offered ($12,500,000) in Dec., 1927, at 95½ and interest to yield about 5.60% by Chase Securities Corp., Stone & Webster and Blodget, Inc., Pynchon & Co., New York; Hunter, Dulin & Co., Peirce, Fair & Co. and Blyth, Witter & Co., Los Angeles, etc.

walk, Downey, Bellflower and surrounding territory. In Sept., 1921, purchased property of Citrus Belt Gas Co. On Sept. 1, 1927, acquired the properties of Midway Gas Co. and Valley Natural Gas Co. (see 1927 Public Utility Manual, page 824), located in Los Angeles, Kern and Ventura Counties, together with valuable rights and contracts for purchases of natural gas in Buena Vista, Elk Hills, Rosecrans, Dominguez, Brea Canyon, Inglewood, Santa Fe Springs, Signal Hill, Torrance, Huntington Beach and Ventura Avenue field. During the latter part of 1927, also acquired Riverbend Gas & Water Co. (see 1927 Public Utility Manual, page 643); Hartford Gas & Power Co. (see 1927 Public Utility Manual, page 839), and Central Counties Gas Co. (see 1927 Public Utility Manual, page 720).

Company supplies part of Los Angeles and vicinity, and all of San Bernardino, Riverside, Redlands, Redondo, Glendale, Hanford, Dinuba, Visalia, about 85 other cities and towns and communities, a territory having a population of over 2,100,000.

Property—The property in Los Angeles consists of a modern gas plant with generators, purifiers, and gas compressors capable of producing 28,000,000 cu. ft. per day. The plant at Colton, Cal., has a generating capacity of 4,500,000 cu. ft. per day, supplying the distributing systems owned in San Bernardino, Riverside, Redlands and Colton. In addition, compressor and holder stations are maintained at various points throughout the system to insure a uniform gas pressure and an adequate reserve for peak loads. The Company's main buildings are all of concrete and steel construction and entirely fireproof. The distributing system comprises 3,333 miles of main, serving 207,307 domestic consumers, and 802 industrial and wholesale consumers. Output for the year 1927 amounted to 61,071,346,000 cu. ft.

Franchises—The franchises of the Company in Los Angeles, Riverside and some of the other cities, constituting the principal territory served, are within the scope of the decision of the United States Supreme Court, which held such rights to be perpetual and co-extensive with the corporate limits of the city. All of the other franchises of the Company extend beyond the maturity of the First Mortgage Bonds.

FUNDED DEBT

(1)

$10,332,000 FIRST LIEN 5½% GOLD BONDS, SERIES OF 1941; DUE JULY 1, 1941

Dated July 1, 1926.

Interest Payable January and July 1, at The Equitable Trust Co. of New York.

Denominations—Coupon, $500 and $1,000 (interchangeable denominations); principal may be registered.

Trustee—The Equitable Trust Company of New York.

Provisions of Issue—Authorized amount limited by restrictions of Trust Indenture. Issued, $12,100,000, of which $10,332,000 outstanding Jan. 31, 1928.

Trust indenture provides that additional bonds may be issued thereunder to refund an equal amount of bonds of future constituent companies or to refund bonds of different series issued under Trust Indenture. Additional First Lien bonds may also be issued, in manner provided in Trust Indenture, to a principal amount not in excess of 70% of cost or fair value of additions, extensions and permanent improvements, and to a principal amount not in excess of 70% of cost of acquisition or fair value of properties of future constituent companies. Such additional bonds may only be issued provided additional bonds of constituent companies to a principal amount not less than the aggregate principal amount of First Lien bonds proposed to be issued, shall have been pledged as additional security under Trust Indenture. Bonds may not be issued, except for refunding purposes, unless consolidated net earnings for a period of twelve consecutive calendar months within fifteen calendar months immediately preceding issuance of new bonds have been at least two times annual interest charges on all bonds which will be outstanding in hands of public under Trust Indenture and constituent company mortgages and on those bonds to be issued. In computation of net earnings repairs and maintenance charges must be at least 50% of amount of annual maintenance and improvement fund.

Purpose of Issue—Proceeds from sale of the initial $3,500,000 issue of these bonds were used exclusively to retire funded debt of constituent properties; balance for other corporate purposes.

Callability—Subject to call on any interest date, on 30 days' notice, to and including Jan. 1, 1931, at 105; thereafter, to and including Jan. 1, 1936, at 103; thereafter, to and including Jan. 1, 1939, at 102; thereafter, to and including Jan. 1, 1940, at 101; thereafter, at par; in each case with accrued interest.

Maintenance and Improvement Fund—Corporation covenants to establish a maintenance and improvement fund based on annual gross operating revenues of Corporation and its constituent companies. This fund shall be equal to 12½% of gross earnings of electric and gas properties; 10% of the gross earnings of the water properties; and 20% of gross earnings derived from electric railway service. This fund must be expended for improvements, additions and extensions as well as for repairs, maintenance and depreciation, but no bonds may be issued against such expenditures.

Security—Bonds are a direct obligation of Corporation and are secured by pledge of all outstanding bonds and capital stock of the following companies: Peoples California Hydro Electric Corp., Peoples Hydro Electric Vermont Corp., Peoples Iowa City Waterworks Corp., Peoples Minnesota Gas and Electric Corp., Peoples Utilities Kansas Corp., New Jersey Northern Gas Co., Peoples Utilities Pennsylvania Corp., Austin Gas Co., Citizens Gas Co. (Stroudsburg, Pa.), Jersey Shore Gas Co., Peoples West Coast Hydro Electric Corp., and Burlington Traction Co. Trust Indenture provides that any additional bonds or stocks which may be issued by these companies in future shall likewise be pledged as additional security under Trust Indenture.

Tax Provisions—Corporation pays Normal Federal Income tax up to 2%. Minnesota tax not to exceed three mills, Pennsylvania, Connecticut, Kansas and California taxes, not to exceed four mills, Maryland four and one-half mills tax, Kentucky and District of Columbia five mills taxes, Michigan five mills exemption tax, Virginia five and one-half mills tax, and Massachusetts income tax not to exceed 6%, refundable.

Legal Opinion—Murray, Aldrich & Roberts, and Lancaster, Simpson, Junell & Dorsey (for the Corporation), and White & Case (for the bankers).

Dated January 1, 1927.

Interest Payable January and July 1, at Central Union Trust Co. of New York.

Denominations—Coupon, $500 and $1,000; interchangeable; principal or both principal and interest may be registered.

Trustee—Central Union Trust Co. of New York.

Provisions of Issue—Authorized amount unlimited; issued, Series of 1962, $6,000,000. Trust Agreement provides that no additional debentures may be issued, except for refunding purposes, unless the combined net

income of the Corporation and its constituent companies, after interest charges on secured debt, for 12 consecutive calendar months within the preceding 15 calendar months, shall have been at least 2¼ times the annual interest charges upon all outstanding unsecured indebtedness of Corporation and its constituent companies, including the debentures to be issued. Corporation covenants that it will not issue any secured funded debt, except its First Lien Bonds, unless all Debentures issued under this Trust Agreement are secured ratably therewith. So long as any Debentures are outstanding under this Trust Agreement, there will be issued no obligations, other than its First Lien bonds, maturing more than 5 years from date of issue except under the above earnings restrictions.

Callability—Subject to call on any interest date, on 30 days' notice, to and including Jan. 1, 1952, at 110 and interest; thereafter, to and including Jan. 1, 1960, at 105 and interest; thereafter, at their principal amount.

Maintenance and Improvement Fund—Corporation covenants to establish a maintenance and improvement fund based on the annual gross revenues of Corporation, and its constituent companies, which shall be equal to 12½% of gross revenues of the electric and gas properties, 10% of the gross revenues of the water properties and 20% of the gross revenues derived from electric railway service. In the computation of net income, as defined in the Trust Agreement, maintenance and depreciation charges must be at least equal to the annual requirements of this fund.

Convertibility—Debentures are convertible at face value on or before Jan. 1, 1952, into Class "A" Common stock of Corporation, as constituted at the time of conversion at the following prices: To and including Jan. 1, 1932, $32.50 per share; thereafter to and including Jan. 1, 1937, $37.50 per share; thereafter to and including Jan. 1, 1942, $45 per share; thereafter to and including Jan. 1, 1947, $50 per share; thereafter to and including Jan. 1, 1952, $60 per share. Debentures called for redemption shall be convertible to and including the 10th day prior to day of redemption.

Security—Debentures are the direct obligations of Corporation, and with the exception of the First Lien bonds represent its only funded debt outstanding.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania, Connecticut, Minnesota, Kansas and California taxes, not to exceed 4 mills, Maryland tax not to exceed 4½ mills, Kentucky and District of Columbia taxes not to exceed 5 mills, Michigan exemption tax not to exceed 5 mills, and Massachusetts Income Tax not to exceed 6% refunded to resident holders upon timely and proper application.

Legal Opinion—White & Case (for the Bankers) and Murray, Aldrich & Roberts, and Lancaster, Simpson, Junell & Dorsey (for the Corporation).

GREEN MOUNTAIN POWER COMPANY, INC.

(Leased to Peoples Hydro Electric Vermont Corp.)

History—Incorporated Nov. 25, 1925 in Vermont. Formed to develop the hydro-electric property of the former Montpelier & Barre Light & Power Co., now Peoples Hydro Electric Vermont Corp., at Molly's Falls, Marshfield, Vt. Property consists of a hydro-electric plant with a capacity of 7,000 h.p. and of 980 acres owned in fee and 49 acres held under perpetual easements. Plant is connected with distributing system at Montpelier, Vt., with a 16-mile 33,000-volt transmission line.

Lease—The properties of company are leased to Peoples Hydro Electric Vermont Corp. for 99 years, the lessee agreeing to pay an annual rental equal to twice the interest charges on all bonds from time to time outstanding under the First Mortgage, and, in addition to pay taxes, maintenance and replacement charges necessary to keep the property in good working condition and to make all such further payments as will enable company to comply with its obligations under this mortgage.

CAPITAL STOCK

Authorized and outstanding 5,000 shares of no par value.

Annual Meeting—In March.

FUNDED DEBT

$750,000 FIRST MORTGAGE 5½% GOLD BONDS, SERIES "A"; DUE FEBRUARY 1, 1956

Dated February 1, 1926.

Interest Payable February and August 1 at American Trust Co., Boston.

Denominations—Coupon (principal may be registered), $100, $500 and $1,000 and registered $1,000 and multiples; interchangeable.

Trustee—American Trust Co., Boston, Mass.

Provisions of Issue—Authorized amount, unlimited; outstanding, $750,000 Series "A" 5½s The proceeds from these bonds, together with those of the sale of approximately 4,000 shares of no par value capital stock at $75 per share, were used for the construction of dam, reservoir, pipe lines, transmission line, and a modern hydro-electric plant at Molly's Falls, and for the purchase of the necessary land and water rights.

Additional bonds may be issued in series bearing such rates of interest, maturity dates (not earlier than Feb. 1, 1956), redeemable on such terms, and containing such other rights and limitations consistent with the mortgage as the Board of Directors may determine prior to the issue thereof, for refunding par for par bonds issued under this mortgage or underlying bonds secured by prior mortgages on after-acquired property; or for not more than 75% of the cost of permanent physical additions, extensions, improvements or betterments, or the cost or fair value, whichever is less, of additional property acquired, provided net earnings of Company as defined in the mortgage for a period of 12 consecutive months within the 15 calendar months immediately preceding the application for the bonds shall have been equal to at least twice the interest charges on (1) all bonds at the time outstanding under the mortgage; (2) all bonds secured by any mortgage, lien or other encumbrance ranking prior to the lien of the first mortgage on any property of Company and (3) the bonds applied for; or, as an alternative for; (4), if the lessee which operates the properties of Company shall have obligated itself to increase the annual rental by sums equal to at least twice such annual interest charges on the bonds applied for, and under other provisions of the mortgage believed to be adequate for the protection of the bondholders.

Callability—Subject to call in whole or in part on any interest date on 30 days' notice at 107½ on Aug. 1, 1926 and at said 107½ less ½ of 1% for each 6s mos. thereafter to and including August 1, 1928 and at 105 thereafter to and including Aug. 1, 1955 and in each case with accrued interest.

Security—Secured by a first mortgage on all the property owned or thereafter acquired except that after-acquired property may be subject to other liens. The present issue represents approximately 75% of the cost of the properties. The 99-year lease is subject to the lien of the mortgage and will constitute a part of the security for these bonds.

Maintenance Fund—The indenture provides that at least every 5 years and oftener on request of ten per cent of the bondholders, an engineer or other competent person appointed by the trustee shall report to the trustee whether the property has been kept in good repair and condition and sufficient amounts for such maintenance charged to operating expenses or current income. The Company covenants to deposit cash with the trustee to the amount of any deficiency shown by such report to exist in such charges.

Tax Provisions—Company pays Normal Federal Income tax up to 2%. All taxes (except transfer, estate, inheritance and succession taxes) not exceeding in the aggregate for any one year ½ of 1% of the face value of their holdings assessed under the laws of either Massachusetts, Vermont, New Hampshire, Pennsylvania, Rhode Island, or Connecticut (but only one of said States), refunded upon 60 days' application.

Legal Opinion—Pillsbury, Dana & Young (for company), and Ropes, Gray, Boyden & Perkins (for the Bankers).

Original Offering—First publicly offered ($750,000 Series "A" 5½s), at 95 and interest to yield 5.85%, in march, 1926, by Charles H. Tenney & Co., Boston.

The estimated population served is 63,500 and company has 8,021 consumers of which 3,850 are electric, 2,620 water and 1,551 gas consumers.

Electric properties consist principally of 8 hydro-electric plants with an installed capacity of 5,186 k.w. and over 315 miles of transmission lines. The Company also owns undeveloped hydro sites with a capacity of 4,000 h.p. Gas properties consist of plants having a daily capacity of 270,000 cu. ft. and of 21 miles of gas mains. Water plants have a daily pumping capacity of 10,200,000 gallons and there are 23 miles of water mains.

Control—Company is controlled by Peoples Light and Power Corp. through ownership of all the outstanding Common stock.

CAPITAL STOCK

Authorized, 12,000 shares Common of no par value and $2,000,000 6% cumulative Pfd., par $100; outstanding, Jan. 31, 1928, 8,250 shares Common and $800,000 Pfd. All the Common stock is owned by Peoples Light and Power Corp.

Preferred Stock Provisions—Has preference for assets and dividends, is subject to call as a whole or in part on any dividend date on 30 days' notice at 105 and dividend and in case of involuntary liquidation is entitled to $100 and dividend and in voluntary liquidation to $105 and dividend.

Additional Pfd. may not be issued unless the net earnings available for dividends on Pfd., for any 12 consecutive calendar months within 15 calendar months next preceding the date of the additional issue, are at least 2½ times the annual dividend requirements on all Pfd. outstanding, including that to be issued.

Without the consent of at least two-thirds of the Pfd. Company may not authorize or issue any stock having preference over Pfd. as to dividends or as to distribution of assets upon dissolution or liquidation or amend the provisions of Pfd. so as to affect ad-

versely any of the preferences and other rights given to Pfd., except to increase the authorized number of shares of Common stock, or increase the authorized amount of Pfd.

Pfd. is entitled to vote share and share alike with Common if at any time dividends shall be in arrears and unpaid on the Pfd. for 8 consecutive quarterly periods, and until all such dividends in arrears shall have been paid.

Tax Provisions—Dividends are exempt from present Normal Federal Income tax. Company will refund Pennsylvania and Connecticut 4 mills tax, and Massachusetts Income tax up to 6%.

Legal Opinion—White & Case, New York, and Sanborn, Blake & Aberg, Madison, Wis.

Original Offering—First publicly offered ($800,000 6% Pfd.) in Dec., 1927, at 95 and dividend, to yield over 6.32%, by G. L. Ohrstrom & Co., Inc., New York, etc.

Transfer Agent (Pfd.)—Seaboard National Bank of New York, N. Y.

Dividends—Pfd. dividends regularly paid quarterly J, A, J & O 1 at Seaboard National Bank of New York, N. Y., initial payment having been made Jan. 3, 1928 to stock of record Dec. 24, 1927.

FUNDED DEBT

$2,000,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES OF 1947, DUE OCTOBER 1, 1947

Dated October 1, 1927.

Interest Payable April and October 1 at Seaboard National Bank of New York, N. Y.

Denominations—Coupon, $500 and $1,000; principal may be registered; denominations interchangeable.

Trustee—The Seaboard National Bank of the City of New York.

Provisions of Issue—Authorized amount unlimited; issued and outstanding, Jan. 31, 1928, $2,000,000 Series of 1947 5s. Additional bonds may be issued for not in excess of 75% of the cost or fair value, whichever is lower, of new or additional property and improvements, extensions or additions, acquired or constructed subsequent to Oct. 1, 1927, provided net earnings, as defined in the Mortgage, for 12 consecutive calendar months within the 15 calendar months immediately preceding the date of application for such additional bonds, have been at least equal to twice annual interest charges on all bonds outstanding and those proposed to be issued. In computing net earnings, the amount deducted for maintenance and repairs must be one-half of the Maintenance and Improvement Fund mentioned below, or the amount actually expended for maintenance and repairs during such period, whichever is greater.

Purpose of Issue—The proceeds from the sale of these bonds were used for the acquisition of the properties and for other corporate purposes.

Callability—Series of 1947 5s are subject to call as a whole or in part on any interest date upon 60 days' notice to and including Oct. 1, 1929, at 105; thereafter, to and including Oct. 1, 1934, at 103; thereafter to and including Oct. 1, 1940, at 102; thereafter to and including Oct. 1, 1946, at 101; and thereafter at 100; plus accrued interest in each case.

Maintenance and Improvement Fund—Company covenants to establish a Maintenance and Improvement Fund equal to 12½% of the operating revenues of the electric and gas properties and 9% of the operating revenues of the water properties. This fund may be expended for improvements, extensions and additions, as well as for repairs and maintenance, but no bonds may be issued against such expenditures. The foregoing percentages of operating revenue may be changed by arbitration from time to time after Oct. 1, 1930, at intervals of not less than three years.

Security—Secured by a direct first mortgage on all the physical properties of the Company. The depreciated value of the properties, as determined by The Railroad Commission of Wisconsin as a basis for the issuance of the securities at present outstanding, is in excess of $3,260,000.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%, and agrees to refund Minnesota, Pennsylvania, Connecticut, Kansas and California taxes not to exceed 4 mills, Maryland taxes not to exceed 4½ mills, Kentucky, Virginia, West Virginia and District of Columbia taxes not to exceed 5 mills, Michigan exemption tax not to exceed 5 mills, and Massachusetts income tax not to exceed 6%, to resident holders upon proper application.

Legal Opinion—White & Case, New York, and Sanborn, Blake & Aberg, Madison, Wis.

Original Offering—First publicly offered ($2,000,000 Series of 1947 5s) in November, 1927, at 95½ and interest, to yield about 5.37%, by G. L. Ohrstrom & Co., Inc., and Coffin & Burr, Inc., New York, etc.

(see 1925 Public Utility Manual, page 676), Bisbee Improvement Co., Douglas Traction & Light Co., Douglas Gas Corp. (see 1925 Public Utility Manual, page 1561), Florence Improvement Co. and the Ice Department of Douglas Investment Co. In Feb., 1928 acquired the properties owned by Peoples Arizona Gas & Electric Corp.

Company serves a population of 82,000, supplying 10,882 customers with electricity in Douglas, Bisbee, Yuma, Globe, Purtleville, Lowell, Bakerville, Calena, Don Luis, Naco, Claypool, Cobra Valley, Little Ranches, Lower Miami, Midland City and Miami in Ariz., Winterhaven, Cal., and Agua Prieta in Mexico; 5,057 customers with artificial gas in Douglas, Bisbee, Globe, Yuma, Lowell, Warren and Bakerville, Ariz.; 7,061 customers with water in Bisbee, Naco, Miami, Yuma, Safford, Bakerville, Lowell, Upper Lowell, South Bisbee, Don Luis, Johnson Addition, Cochise, Jiggersville and Winwood Addition, Ariz., Agua Prieta, Mexico and wholesale to the town of Warren, Ariz.; telephone service is given to 28 customers in Agua Prieta, Mexico; and ice is sold retail in Bisbee, Lowell, Warren, Don Luis, Naco and Florence, Ariz.

Electric properties consist principally of 5 generating stations with an installed capacity of 5,824 k.w. and 110 miles of distribution lines. Gas propertes have a daily capacity of 1,590,000 cubic feet and 64 miles of mains and water systems have a daily pumping capacity of 7,700,000 gallons and 63 miles of mains.

CAPITAL STOCK

Authorized, 100,000 shares Common and 50,000 shares cumulative Pfd., both of no par value; outstanding Jan. 31, 1928, 23,000 shares Common and 15,000 shares $6.50 Dividend Series Pfd. All the Common stock is owned by General Power and Light Co. Capital stock changed from 50,000 shares Common of no par value in Jan., 1928.

Preferred Stock Provisions—Has preference for assets and dividends, is subject to call as a whole or in part on any dividend date on 30 days' notice, at 105

and dividend, and upon any dissolution or liquidation of Company is entitled to receive $100 and dividend, plus a premium of $5 per share if such liquidation be voluntary, before any distribution may be made to Common.

Additional Pfd. may not be issued unless the net earnings available for dividends on Pfd., as therein defined, for any 12 consecutive calendar months within 15 calendar months immediately preceding the date of the additional issue, are at least 2½ times the annual dividend requirements on all Pfd. outstanding, together with that proposed to be issued. Without the consent of the holders of at least two-thirds of Pfd., Company may not authorize or issue any stock having preference over Pfd. as to dividends or as to disposition of assets upon dissolution or liquidation; amend the provisions of Pfd. so as to effect adversely any of the preferences and other rights given to the Pfd., except to increase the authorized number of shares of Common or increase the authorized number of shares of Pfd. Pfd. shall be entitled to vote share and share alike with Common, if at any time dividends shall be in arrears and unpaid on Pfd. for 8 consecutive quarterly periods and until all such dividends in arrears shall have been paid.

Tax Provisions—Dividends are exempt from present Normal Federal Income tax and Company agrees to refund certain Pennsylvania, Connecticut and California taxes not to exceed 4 mills, Maryland tax not to exceed 4½ mills and Massachusetts income tax not to exceed 6% to resident holders upon proper application.

Legal Opinion—White & Case, New York.

Transfer Agent (Pfd.)—Seaboard National Bank of New York, N. Y.

Dividends—Pfd. dividends are payable quarterly, J, A, J & O 1 at Seaboard National Bank of New York.

FUNDED DEBT

$1,961,200 FIRST MORTGAGE TWENTY-YEAR SINKING FUND 6% GOLD BONDS, SERIES "A"; DUE OCTOBER 1, 1945
$1,700,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES OF 1948; DUE JANUARY 1, 1948

Dated, Series "A" 6% of 1945, October 1, 1925 and 5% Series of 1948, January 1, 1928.

Interest Payable April and October 1 on Series "A" 6s and January and July 1 on 5% Series of 1948 at Bank of North America & Trust Co., Philadelphia, Pa., and Seaboard National Bank of New York, N. Y.

Denominations—Coupon, $100 (6% Series "A" only), $500 and $1,000; principal may be registered; denominations interchangeable.

Trustees—Bank of North America & Trust Co. and John H. Mason, Philadelphia.

Provisions of Issue—Authorized amount, unlimited; outstanding Jan. 31, 1928, $1,961,200 Series "A" 6s and $1,700,000 5% Series of 1948. The proceeds from the sale of $1,700,000 5% Series of 1948 were used to acquire additional properties and for other corporate purposes.

The mortgage securing these bonds, as amended by supplemental indenture dated Jan. 1, 1928 provides that additional bonds of Series "A," or Series of 1948, or of other series hereafter created may be issued: (a) for the purpose of refunding an equal principal amount of bonds of any prior series, and for not in excess of 70% of the cost or fair value, whichever is lower, of physical additions and extensions, as defined in the amended mortgage, acquired or constructed by Company, provided the Company's net earnings, as defined in the amended mortgage, for 12 consecutive calendar months within the 14 calendar months immediately preceding the date of application for such additional bonds, have been at least equal to twice annual interest charges on all bonds outstanding against the properties and those then proposed to be issued.

Callability—Series "A" 6s are subject to call as a whole or in part with accrued interest, on any interest date on 30 days' notice at a premium of 5% on or before Oct. 1, 1940 and thereafter at a premium of 2½% on or before Oct. 1, 1945.

The 5% Series of 1948 is subject to call as a whole or in part on any interest date upon 30 days' notice, to and including Jan. 1, 1930 at 105; thereafter, to and including Jan. 1, 1935 at 103; thereafter to and including Jan. 1, 1941 at 102; thereafter to and including Jan. 1, 1945 at 101; and thereafter at 100; plus accrued interest in each case.

Sinking Fund—For the Series "A" 6s, Company agreed to deposit cash with Trustee on Oct. 1, 1926, and annually thereafter, in an amount equal to 1% of the principal amount of Series "A" bonds at the time outstanding in each of the years 1926-1935, inclusive, and 2% in each of the years 1936-1944, inclusive, these funds to be applied to the purchase of Series "A" bonds at not exceeding the then current redemption price or to their redemption on the following interest date.

As provided in Supplemental Indenture, Company agrees to pay to Trustee, in cash or in Series "A" or Series of 1948 bonds at par, on May 1, 1929, and annually thereafter, an amount equal to 1% of the principal amount of Series of 1948 bonds at the time outstanding in each of the years 1929 to 1938 inclusive, and 2% of said principal amount in each of the years 1939 to 1947, inclusive. The Supplemental Indenture also provides that Company may credit against such payments 70% of the cost or fair value, whichever is lower, of bondable additions and extensions against which no bonds have been or may thereafter be issued. Moneys in this fund may be used to purchase or redeem Series "A" or Series of 1948 bonds or may be withdrawn to reimburse the Company for a like percentage of similar additions and extensions.

Maintenance and Depreciation Fund—The Company has covenanted that on or before the last day of February of each year it will set apart as a Maintenance and Depreciation Fund an amount equal to 12½% of the gross earnings derived from the operation of the properties of the Company. This fund may be expended for repairs and maintenance, and also for additions and extensions, but no bonds may be issued against such expenditures. Whenever all Series "A" bonds have been retired, and from time to time thereafter, at intervals of not less than 3 years, the Maintenance and Depreciation Fund may be re-established at such percentages of operating revenue as shall be fixed by arbitration.

Security—These bonds are secured by a direct first mortgage on the entire physical property, rights, privileges and franchises in the United States now owned by Company or hereafter acquired except as to liens existing on property hereafter acquired at the time of acquisition.

Tax Provisions—Company pays Normal Federal Income tax up to 2%, and agrees to refund upon proper application Minnesota, Pennsylvania, Connecticut, Kansas and California taxes not to exceed 4 mills, Maryland taxes not to exceed 4½ mills, Kentucky, Virginia, West Virginia and District of Columbia taxes not to exceed 5 mills, Michigan exemption tax not to exceed 5 mills, and Massachusetts income tax not to exceed 6%.

Legal Opinion—Chapman, Cutler & Parker (for Company) and Townsend, Elliott & Munson (for Bankers) for Series "A" 6s, and White & Case, New York, for 5% Series of 1948.

Original Offering—First publicly offered ($2,000,000 Series "A" 6s) in February, 1926, at 97½ and interest to yield 6.22% by Stroud & Co., Inc., Philadelphia, Pa., etc., and True, Webber & Co., Chicago; $1,700,000 5% Series of 1948 offered in January, 1928, at 96 and in-

terest, to yield 5.33%, by G. L. Ohrstrom & Co., Inc., and Coffin & Burr, Inc., New York, etc.

NEW ENGLAND INVESTMENT AND SECURITY COMPANY—1927

(Controlled by New York, New Haven & Hartford RR. Co.)

A Voluntary Association under an Agreement and Declaration of Trust dated June 25, 1906. The purpose of its organization was to acquire shares and securities of any corporation, voluntary association or trust in the New England states engaged in the business of transportation or in the business of supplying power or materials for those organizations so acquired and to finance acquired organizations. Under

the terms of the above agreement and of an agreement and declaration of Trust dated May 25, 1927, the Association is continued for ten years from that date under the designation of "New England Investment and Security Company—1927".

Controls through ownership, directly or indirectly, of all or a majority of their stocks the Springfield Railway Companies—1926, Springfield Street Ry. Co. Worcester Consolidated Street Ry. Co., Worcester & Shrewsbury Street Ry. Co., and Worcester & Shrewsbury Railroad Co., the two latter properties being acquired in Jan., 1925. The Milford, Attleboro and Woonsocket St. Ry. Co. went into hands of receiver July 2, 1924 thus terminating its control by the New England Investment and Security Co.

The company holds by assignment dated April 1, 1909, all the Consolidated Ry. Co.'s interest in the capital stock of the Worcester & Webster Street Ry., and Webster & Dudley Street Ry.

The New England Investment & Security Co. formerly held control of the Worcester Railways & Investment Co., but the latter company liquidated and dissolved and made a final distribution of its assets Dec. 31, 1917. The New England Investment & Security Co. as sole shareholder at liquidation received the entire assets.

Acquisition Approved—The New York, New Haven & Hartford R. R. Co. in Dec., 1923, filed petition in Massachusetts General Court for legislation enabling it to acquire the property of the New England Investment & Security Co. or such other legislation pertaining to the road's interest in that company. The "New Haven" owns $12,825,000 of the outstanding $13,115,000 notes of the "New England Company," which matured April 1, 1924. Under favorable action by the Federal courts in November, 1925, and by the Legislature of Massachusetts in 1926, the New York, New Haven & Hartford RR. Co. has been permitted to assume control of this Association.

CAPITAL STOCK

Authorized, $100,000 Common and $10,000,000 4% cumulative Pfd.; outstanding, $100,000 Common and $111,500 Pfd.; par, $100. All the Common stock is owned by The New York, New Haven & Hartford RR. Co. The Pfd. stock is redeemable at any time as an entirety only at 105 and accumulated dividends.

Transfer Agent—Old Colony Trust Co., Boston.

Registrar—New England Trust Co., Boston.

Annual Meeting—Third Wednesday in May.

Dividends—Dividends on Pfd. stock are guaranteed by the N. Y., N. H. & H. R. R. Co., which also guarantees $105 per share in case of liquidation. The validity of the guaranty has been upheld by the Connecticut Supreme Court of Errors. Dividends of 4% per annum on Pfd. stock are paid Jan. and July 1. No dividends paid on Common.

Exchange of Preferred Stock—By vote of the trustees on Sept. 20, 1917, the plan to exchange $4,000,000 4% Pfd. stock (par, $100) for an equal number of shares of First Pfd. stock of the Worcester Consolidated Street Ry. became operative. The latter has a par value of $80 per share and is entitled to $105 per share in the event of liquidation and to cumulative dividends of $5 per share. Exchange of the stock relieves the New York, New Haven & Hartford, R. R. of its guaranty of dividends thereon. The New England Company stock exchanged to be cancelled. As of Dec. 31, 1927, 38,885 shares had been exchanged.

Control—Under the approval of the Massachusetts Department of Public Utilities in Jan., 1927, The New York, New Haven & Hartford RR. Co. acquired the entire Common stock of the "Investment Company" which since 1914, had been held by a protective committee in the interest of the Pfd. shareholders, the former holders accepting in exchange $290,000 par value of the "Investment Company," Funding Gold notes.

FUNDING GOLD NOTES

The company has outstanding, $13,115,000 3%, 4% and 5% Funding Gold Notes; dated April 1, 1909; due April 1, 1924; int. April and Oct. 1, at Old Colony Trust Co., Boston, Trustee. The N. Y., N. H. & H. R. R. Co. owned all the notes, but in pursuance of an order from the Department of Justice was to dispose of same by April 1, 1919. In March, 1919, an extension was granted to July 1, 1921, in which to dispose of these notes, and in 1925 a decision in the Federal court released the N. Y., N. H. & H. RR. from the obligation to dispose of the notes. The N. Y., N. H. & H. RR. Co. guarantees the principal and interest of $5,000,000 of the notes. A direct obligation of Company, but not secured by mortgage.

By their terms these notes bore interest at 3% for 5 years; at 4% for the succeeding 5 years and at 5% for the final 5 years, but by an agreement with the holders of the notes they have received in payment of the coupons due up to April 1, 1917 inclusive, cash at the rate of 3%, and for the Oct. 1, 1917, coupon at 2%, taking an obligation of the New England Investment and Security Company for the difference. The holders of the notes accepted the obligation of the Investment Company for the entire amount of the coupons due April 1, 1918, Oct. 1, 1918 and April 1, 1919, and for balance of coupons due Oct. 1, 1919, after payment of $34,000 cash by the Investment Company. The coupons due April 1 and Oct. 1, 1920; April 1 and Oct. 1, 1921; April 1 and Oct. 1, 1922, and April 1 and Oct. 1, 1923, were also settled in obligations. Original issue, $16,250,000, of which $3,135,000 redeemed and cancelled.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%.

WORCESTER CONSOLIDATED STREET RAILWAY COMPANY

(Controlled by New England Investment and Security Company—1927)

History and Properties—Chartered in 1886, in Mass. On Feb. 23, 1901, absorbed Leominster & Clinton Street Ry., the Fitchburg & Surburban Street Ry., the Clinton & Hudson Street Ry., the Worcester & Clinton Street Ry., the Worcester & Marlboro Street Ry., and the Worcester & Surburban Street Ry. On May 31, 1911, the following companies were absorbed; Marlboro & Westborough St. Ry., Worcester & Holden St. Ry., Worcester & Southbridge St. Ry., and Worcester & Blackstone Valley St. Ry. In 1895 leased the North End St. Ry.; in July, 1896, leased the Worcester & Shrewsbury R. R. and Worcester & Shrewsbury St. Ry., and on May 31, 1911, the Webster & Dudley St. Ry., and the Worcester & Webster St. Ry. were leased. In March, 1913, the properties of the Electric Mfg. Co. and Quinsigamond Park Co. were purchased and those companies liquidated and dissolved. Franchises, perpetual. Population served, 1920 census, over 384,000.

Operates the entire street railway mileage of Worcester, Mass., together with electric car or motor coach service to Boylston, Shrewsbury, Grafton, Millbury, West Boylston, Auburn, Oxford, Southbridge, Sturbridge, Webster, Holden, Sutton, Northbridge and Uxbridge. Length of line owned: Main track, 210.26 miles; second track, 33.18 miles; sidings, etc., 19.15 miles—total owned, 262.59 miles. Line operated: Main track, 86.97 miles; second track, 27.25 miles; sidings, etc., 11.64 miles—total operated, 125.86 miles (including 31.05 miles leased). Gauge, standard. Rail, 56 to 75 lbs. The Company owns a modern steam turbine generating plant with an ultimate capacity of 15,000 k. w. and which has 10,000 k. w. of installed generating capacity located at Millbury about six miles from Worcester. In addition to the 10,000 k. w. generated at the Company's plant at Millbury the Company purchases power under a favorable contract from the New England Power Company which extends to July 1, 1928 and which provides for revision as to rates at that time.

Rates—The present rate of fare is 10c cash in the city of Worcester. Outside the city limits a zone system is in operation, each zone extending about two miles with a fare of 7c per zone.

CAPITAL STOCK

Authorized and outstanding, $3,326,000 Common (par, $100) and $3,600,000 $5 per share cumulative First Pfd. (par, $80). The Pfd. stock was created and the Common stock decreased from $6,926,000 in May, 1917. The New England Investment & Security Co.—1927 owns the entire Common stock and 3,919 shares of the Pfd.

Preferred Stock Provisions—The Pfd. stock is entitled to cumulative dividends of $5 per share per annum and $105 per share in case of liquidation. While any matured dividend on First Pfd. stock is unpaid or while the unfunded and current debt of the company shall exceed 25% of the entire capital stock, First Pfd. shareholders may elect a majority of the directors. The First Pfd. stock may not be increased without

the consent of two-thirds of its holders except that in case of consolidation with Springfield Street Ry. Co., $2,750,000 may be issued without such consent.

Annual Meeting—First Wednesday in November.

Dividends—Dividends on Pfd. stock were paid semi-annually, June 30 and Dec. 31, up to and including Dec. 31, 1917; the June, 1918, dividend on Pfd. was postponed; none paid thereafter until April 1, 1922, when $2.50 per share was paid, which amount was paid June 30, Oct. 2 and Dec. 30, 1922, April 1, June 30, Oct. 1 and Dec. 31, 1923 and April 1 and June 30, 1924; Dec. 31, 1924, $2.75 per share; June 30, 1925, $2.50 per share; Dec. 31, 1925, $5.25; none since. OBERPFALZ ELECTRIC POWER CORPORATION

(Oberpfalzwerke Aktiengesellschaft fuer Elektrizitaetsversorgung)

History and Property—Organized in 1908 under the laws of the State of Bavaria for the purpose of supplying the territory of Oberpfalz (Upper Palatinate), in northeastern Bavaria, with electricity for domestic and industrial purposes. In 1923 it changed its name from Bayerische Uberlandzentrale Aktiengesellschaft in Ibenthann to its present title. This territory has an area of about 3,789 square miles, and a population of approximately 629,000. Company serves over 1,200 communities, including such cities as Regensburg, Amberg, Auerbach, Neumarkt and Weiden.

The District of the Oberpfalz and the cities and communities served are majority stockholders of the Oberpfalz Electric Power Corporation. Under the terms of its franchises the Company has the right to use Bavarian State property for its transmission lines, and has the exclusive right, with small local exceptions, to furnish electric current to the communities served and to charge rates that will insure successful financial operation.

The property comprising the system of the Corporation includes one large modern steam electric generating plant at Ponholz and the two hydro-electric plants Pfreimdtalsperre and Tanzmuchle on the Naab River, which is a large tributary to the Danube. The combined capacity of the Company's present properties is approximately 17,200 k.w. Upon completion of certain contemplated extensions the capacity will be very considerably increased.

In addition to its generating plants, the Company entered into an agreement with the Bayernwerke (Bavarian Works) which have a capacity of about 200,000 k.w., securing the sole distributing rights in the Oberpfalz until September 30, 1950, and maintains for this purpose one principal substation in Regensburg of 10,000 kva. and one principal substation in Amberg of 10,000 kva.

The coal used for the steam electric generating plant is mined at the adjoining coal mine "Haidhof," which belongs to the Company and has a coal reserve of 4,500,000 tons, estimated sufficient for at least 25

years' operation. The coal is conducted from the mine by means of an automatic conveyor system directly to the boiler house.

The property comprises a transmission system consisting of over 77 miles of high tension lines of 35,000 volts, carried on structural steel towers; over 1,100 miles of 6,000 volt, 10,000 volt and 20,000 volt transmission lines and over 930 miles of low voltage lines; 950 transformer and two switching stations and an extensive distribution system reaching 40,000 customers who consumed over 30 million kilowatt hours in 1925.

CAPITAL STOCK

Authorized, $3,613,095; outstanding, $1,025,976 (owned principally by communities served).

FUNDED DEBT

$1,205,000 FIRST (CLOSED) MORTGAGE 7% SINKING FUND GOLD BONDS; DUE JUNE 1, 1946

Dated June 1, 1926.

Interest Payable June and December 1, in U. S. gold coin, at The New York Trust Company, New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustees—New York Trust Company, New York, Trustee; Berliner Handels-Gesellschaft Kommandit-Gesellschaft Auf Aktien, Berlin, Co-Trustee.

Provisions of Issue—Authorized and issued, $1,250,000, of which $45,000 retired by sinking fund. March 28, 1928. Corporation covenants that so long as any of these bonds are outstanding it will not permit the establishment of any rates or charges for electric light or power furnished by it which will not produce for Company annual net earnings applicable to payment of interest upon bonds at least equal to 2.5 times such interest charges.

Purpose of Issue—Proceeds of this loan were used for new construction work, enlargement of existing plants, extension of Corporaiton's distribution system and retirement of floating debt incurred for aforesaid purposes.

Callability—Subject to call through operation of sinking fund at 100 and interest on any interest date. Bonds will be non-callable, except for sinking fund purposes, up to but not including June 1, 1931, and thereafter will be callable at option of Corporation, as a whole or in part, by lot on any interest date upon 30 days' notice up to but not including June 1, 1936, at 105 and interest; thereafter up to but not including June 1, 1941, at 104 and interest; thereafter and prior to maturity at 103 and interest.

Sinking Fund—Indenture provides for semi-annual cumulative sinking fund payments, beginning Dec. 1, 1926, sufficient to retire entire issue by maturity. In lieu of such payments Corporation may deliver, at their par value, outstanding bonds of this issue. Sinking fund monies are to be used for redemption of bonds by semi-annual drawings at 100 and interest. Notice of drawn bonds will be published in New York City 30 days prior to redemption date.

Security—A direct obligation of Corporation and secured by a direct first closed mortgage on, and by a transfer in nature of security of, all of Corporation's present fixed property, and all property acquired or constructed from the proceeds of this loan, subject only to prior charges under Dawes Plan estimated as not exceeding $553,971 principal amount.

Guaranty—Unconditionally guaranteed by endorsement as to payment of principal, interest and sinking fund by German Electric Co., Germany (AEG).

Tax Provisions—Interest payable without deduction for any past, present or future taxes or duties levied by or within the German Reich, or any of its component States.

Legal Opinion—Hornblower, Miller & Garrison, New York, and Wilhelm Beutner, Berlin (for the Bankers).

Original Offering—First publicly offered ($1,250,000) in July, 1926, at 97½ and interest, to yield about 7.25%, by P. W. Chapman & Co., Inc., and A. M. Lamport & Co., Inc., New York, etc.

ELECTRIC POWER CORPORATION

(Elektrowerke Aktiengesellschaft, Germany)

History—Organized in 1892 as the Golpa-Jessnitz A. G. which owned and operated the lignite mine known as Golpa and also a plant for the manufacture of briquettes. In 1915 the business of the Corporation was changed into the manufacture and sale of electricity. Its name was changed to Elektrowerke Aktiengesellschaft. In that year the Company erected the power station known as Zschornewitz, enlarged and extended the Golpa lignite mine and commenced to supply current to chemical industries in the neighborhood. In 1917 its entire capital stock was purchased by the German Reich and at that time the first transmission line to Berlin was installed and the Company began to supply the base load to the municipally owned distributing plant in Berlin. Thereafter the Company acquired the Niederlausitzer Kraftwerke A. G. which owned and operated the power plant known as Trattendorf and the Gewerschaft Brigitta which owned and operated the lignite mine Brigitta near Spremberg. It further organized the Mitteldeutsche Kraftwerke A. G. which acquired the power plant Lauta and organized the Gesellschaft fur Kraftubertragung G. m. b. H. which constructed and operated transmission lines. In 1921, the properties of these various companies, together with those of the Sachsenburg Lignite Gesellschaft (which owned lignite mines near Golpa) were taken over by the Company, which issued its own shares in exchange for such shares of these companies as it did not itself already own. The entire assets and liabilities of these companies were thus transferred to the Company, the former companies (including the Sachsenburg Lignite Gesellschaft) being thereupon liquidated and dissolved. In 1923, Vereinigte Industrie-Untermehmungen Aktiengesellschaft or "Viag" (United Industrial Corporation) was organized and acquired from the Reich the stock of Electric Power Corporation. The Viag is in turn controlled by the German Government through ownership of its entire $28,571,428 capital stock. The duration of the charter of the Company is perpetual.

Subsidiaries—The three subsidiaries of the Company, Kolonie Zschornewitz G. m. b. H., Kolonie Trattendorfer Hof G. m. b. H., and Kolonie Brigittenhof G. m. b. H., own tracts of land adjacent to the three plants of the Company upon which they have erected dwelling houses which are leased to employees of the Company.

Business—The Corporation supplies power entirely at wholesale, over 50% of its output being sold to distributing systems serving the Province of Branden

burg, including the city of Berlin, the Province of Silesia, the Province of Saxony, the Free State of Anhalt, and the Free State of Saxony. In this manner the corporation supplies a large part of the current consumed by the City of Berlin.

During the eight years ended Dec. 31, 1927, the electrical output of the plants of this company and its predecessors has been as follows:

	k.w.h.
1920	769,793,000
1921	1,019,505,000
1922	1,311,774,000
1923	1,293,097,000
1924	1,410,210,000
1925	1,577,119,000
1926	1,485,908,000
1927	1,674,470,000

Properties—The properties include three large modern steam power plants, Zschornewitz with a present installed capacity of 230,000 k.w., Trattendorf with 90,000 k.w., and Lauta with 88,000 k.w., or a total present installed capacity of 408,000 k.w.; as well as approximately 1,046 circuit miles of 110,000 volt transmission lines. The Company is now engaged in the installation of 40,000 k.w. of additional generating equipment in its Trattendorf plant to be completed in the Fall of 1928, and 40,000 k.w. in its Lauta plant to be completed in the Spring of 1929. The Company's three steam plants are located 75 miles to the south of Berlin adjacent to extensive lignite coal fields owned by it and estimated to be sufficient to furnish its entire fuel supply for more than fifty years.

COAL PRODUCTION, YEARS ENDED DEC. 31

	Total coal production (Metric tons)	Total sale of briquettes
1921	2,504,786	53,548
1922	2,939,987	54,523
1923	2,764,050	40,955
1924	3,300,000	29,934
1925	3,841,247	64,468

NOTE—Substantially all of the coal produced by the Company is used by it in its own plants.

Relation To Dawes Plan—The Company by reason of Government ownership (through VIAG) of all its capital stock is not required to issue any of the so-called industrial debentures under the Dawes Plan. It is required, however, under German laws enacted to carry the Dawes Plan into effect to make annual payments which in 1927 amounted to less than $135,000.

CAPITAL STOCK

Authorized and outstanding, $14,285,714. All owned by the United Industrial Corporation (Viag). The entire stock of Viag is owned by the German Government.

THE SWEETWATER WATER CORPORATION

History and Property—Incorporated Dec. 18, 1926, in California, and acquired all the properties of Sweetwater Water Corporation (see 1927 Public Utility Manual, page 829). The properties of Company consist chiefly of the Sweetwater Dam and Reservoir on the Sweetwater River in San Diego County, valuable water rights, two riveted steel and iron transmission pipe lines of 24 and 30 inches in diameter, aggregating more than 10 miles in length, located respectively on the north and south sides of Sweetwater Valley and extending from the main dam to the distribution system; approximately 96 miles of distribution lines ranging from 30 inches to ¾ inch in diameter; 4,550 services, connected to the distribution system; 3,723 installed meters; a booster pumping plant; fourteen tracts of proven water-bearing lands located below the dam on which pumps can be installed. The reservoir is located only about four miles from the distribution area, thus resulting in low transmission costs, and the entire supply, including irrigation water, is delivered under pressure and is metered.

Company supplies water for domestic, industrial and agricultural purposes to a compact area of approximately 5,502 acres, situated in San Diego County. The territory served comprises a small portion of the City of San Diego, all of National City and Chula Vista and a large unincorporated area in the same vicinity. The population of this area is approximately 20,000.

THE AVON RIVER POWER COMPANY, LIMITED

History and Property—Incorporated Nov. 29, 1921, under laws of Province of Nova Scotia. Owns and operates the hydro-electric power plant on the Avon River, Nova Scotia. This plant was put into operation in Feb., 1924. On Jan. 1, 1926 the Company acquired the plants and properties of the Windsor Electric Light and Power Company, Limited, and on July 1, 1926 took over the properties of the Gaspereaux River Light Heat and Power Company Limited. The transmission lines of the combined companies serve the Eastern Section of the Annapolis Valley including Kentville, Wolfville, Canning, Hantsport, etc., also Windsor and a considerable portion of Hants County.

The Company's present development on the Avon River, about nine miles from Windsor, comprises two units with a total capacity of 2,600 h.p. operating under a head of approximately 127 ft. Company also owns a second power site at a point two miles further up the river capable of developing about 3,000 h.p. under a head of 130 ft. The dam at this point has been completed and, as the same power water will be used for both installations and as storage has been provided for both developments, the installation of the second units can be completed at a very low cost. The development of this site will be proceeded with at once.

The storage facilities on the Avon River comprise nine lakes all of which have been dammed by the Company. Through an order-in-council granted by the Nova Scotia Government the Company has for a period of fifty years the power rights and privileges on the whole course of the Avon River from its headwaters, including the nine tributary lakes, to a point below the present development, with renewal preference. The development on the Gaspereaux River is 1,100 h.p. operating under a head of 32 ft. Storage of the tributary lakes is provided on a yearly rental basis through an arrangement with the Nova Scotia Tramways and Power Company Limited. A pulp mill at this point with a capacity of 12 tons of groundwood pulp per day is owned and operated for the utilization of secondary power. The combined companies own about fifty miles of main transmission lines, of which 33 miles is at 22,000 volts and the balance at from 6,600 to 2,200 volts.

GREAT NORTH WESTERN TELEGRAPH COMPANY OF CANADA

History—Incorporated May 7, 1880, in Canada, for the transmission of messages by telegraph. In 1881 leased the lines and property of Montreal Telegraph Company and Dominion Telegraph Company for a period of ninety-seven years. The Western Union Telegraph Co. guarantees the payment by the

Great North Western Telegraph Co. of Canada of an annual rental of $165,000 to the Montreal Telegraph Co. and of $62,500 to the Dominion Telegraph Co.

Pursuant to an agreement, effective Jan. 1, 1915, the Canadian Northern Telegraph Co. and the Great North Western Telegraph Co. operated, under the name of the latter company. Prior to this agreement, the Great North Western Company was confined to a limited territory in Canada, without access, save through other companies, to the Pacific seaboard. As a result of this consolidation of properties, the lines of the new Great North Western Telegraph Co. system extend entirely across Canada from coast to coast.

Canadian National Telegraphs—The Great North Western Telegraph Co. of Canada, Canadian National Telegraph Co. and Grand Trunk Pacific Telegraph Co. are now operating under name Canadian National Telegraphs. The officers of Canadian National Telegraphs are as follows: W. G. Barber, Gen. Mgr.; A. C. McConnell, Asst. Gen. Mgr. & Sec.; G. H. Renwick, Aud.; T. H. Bush, Treas., Geo. Watt, Pur. Agt., Toronto, Ont. No. of offices, 1,937. Miles of wire, 139,995.

CAPITAL STOCK

Authorized and outstanding, $500,000; par, $100. No dividends paid. Annual meeting, last Wednesday in September.

GENEVA, SENECA FALLS & AUBURN R. R. CO., INC.

History—Incorporated May 28, 1913, in N. Y., and on July 1, 1913, took over all rights, franchises, property, etc., of Geneva & Auburn Ry. Co. (see Manual for 1913, page 3823), sold at foreclosure March 14, 1913. Franchises perpetual. Population served, 35,000. Line extends from Geneva to Waterloo and Seneca Falls, N. Y. Length of road operated 11.93 miles. Rail 70, 80, 90 and 100 lb. T and 75 and 90 lb. girder. Gauge, standard. Cars—passenger, 9; flat, 1; service, 1; snow plow, 1; sweeper 1.

Geneva Railway Bus Lines, Inc., a subsidiary, replaced motor buses for trolleys on Geneva City streets.

Receivership—Attorney Lansing S. Hoskins and James M. Ryan, of Geneva, N. Y., were appointed receivers by Supreme Court Justice Benjamin B. Cunningham on Oct. 22, 1926. In Jan., 1925, the Company failed to pay interest on its bonds and the bondholders agreed to a reduction of interest to 3% for a period of five years and thereafter to 3½%. The Company was unable to meet its interest obligation even at the reduced rate and a foreclosure action was instituted by the Chatham Phenix National Bank & Trust Co., New York, Trustee for the issue, and is now pending.

SCRANTON & WILKES-BARRE TRACTION CORPORATION

History—Incorporated May 29, 1913, in Va. A holding company. Successor after foreclosure sale dated May 29, 1913, to The Lackawanna & Wyoming Valley Rapid Transit Co. (see Manual for 1913, page 3858). As of Feb. 1, 1928 stockholders of Scranton & Wilkes-Barre Traction Corp. adopted a plan for the exchange of Preferred and Common stock for equal par value of Lackawanna & Wyoming Valley Railroad Co. Preferred and Common stock. The Corporation sold its holdings of bonds of Lackawanna & Wyoming Valley Railroad Co. for sufficient cash to retire its outstanding Funded Debt and $1,000,000 Pfd. stock and $250,000 Common stock of Lackawanna & Wyoming Valley Railroad Co. Plans are under way for the elimination of the Scranton & Wilkes-Barre Traction Corp. which heretofore has owned all of the stock and bonds of the Lackawanna & Wyoming Valley Railroad Co. (see statement of latter on page 1296).

History—Incorporated June 16, 1927, in Delaware, r the purpose of acquiring all of the assets of Amer- an Water Works and Electric Company, Incorpor- ed, a Virginia corporation, pursuant to the provisions the Plan and Agreement for Reincorporation of the irginia Company, dated June 16, 1927, given below. ie duration of the charter is perpetual.

American Water Works & Electric Co., Inc., is a lding company and controls through stock owner- ip, electric, gas and transportation companies serv- g 1,200 communities in Pennsylvania, Maryland, irginia, West Virginia and Ohio, having an esti- ated total population of 1,700,000, water companies rving 190 communities, in sixteen states, having an timated population of 3,350,000, and various con- uction, finance and farming companies.

PLAN AND AGREEMENT OF REINCORPORATION

On June 16, 1927, a Plan and Agreement for Rein- rporation was entered into between a Stockholders' mmittee, consisting of H. Hobart Porter, Chairman, thur W. Loasby, Seward Prosser and Chas. S. Sabin d Bankers Trust Company as Depositary.

The Plan contemplated the reincorporation of the rginia Company under the laws of Delaware, the retirement of the Pfd. stock of the Virginia Company, the issue, in lieu of its outstanding Common stock $20 par value, of Common stock without par value of the Delaware Company at the rate of two shares of the new Common stock for each share of the Virginia Company stock outstanding, the issue and sale of 200,- 000 shares of $6 Series, First Pfd. stock of the Delaware Company, the acquisition by the Delaware Company of all of the assets of the Virginia Company and the assumption of all liabilities of the Virginia Company by the Delaware Company.

Common stockholders were requested to deposit their stock with the Committee in order that the Plan might be carried out and on July 23, 1927, the Plan and Agreement was declared operative. At a special meeting on July 25, 1927, stockholders of the Virginia company ratified the retirement of the 7% cumulative First Pfd. stock and the sale of all assets to the Delaware Company.

For the benefit of the 7% cumulative First Pfd. stockholders of the Virginia Company, the Company made an arrangement whereby such stockholders could at their option receive for each share instead of the redemption price, one share of $6 Series First Pfd.

stock of the Delaware Company, $11.00 in cash and an adjustment of dividends between the $6 Series, First Pfd. stock and 7% cumulative First Pfd. stock in the amount of $1.35. Holders of over $8,000,000 Pfd. stock of the Virginia Company took advantage of this offer.

The remaining 7% cumulative First Pfd. stock of the Virginia Company was called for payment on Aug. 15, 1927, at $110 per share and accrued dividends from April 27, 1927 to Aug. 15, 1927, in the amount of $2.10.

and Electric Company in Delaware, 200,000 shares of $6 Series, First Pfd. stock, without par value, of the Delaware corporation were issued and, as previously stated, part were exchanged for Pfd. stock of the Virginia Company and the remainder sold for cash. The proceeds were used to provide funds for the retirement of the 7% Pfd. stock of the Virginia corporation, to reimburse the Company partially for the cost of new properties, acquired, and for other corporate purposes.

During 1927 the subsidiary water works companies issued and sold through bankers a total of $6,100,000 of First Mortgage bonds, made up as follows:

The Birmingham Water Works Co. sold in March, 1927, $800,000 and in Dec., 1927, $1,200,000, a total of $2,000,000, of its First Mortgage 5% Gold Bonds, Series "C," due 1957. The proceeds of these bonds were used to reimburse the Company partially for the cost of improvements, extensions and additions to its properties, and the acquisition on Dec. 31, 1927, of the water works system previously owned by the City of Birmingham, serving that portion of Birmingham known as North Birmingham.

The Butler Water Company in Oct., 1927, created a new mortgage and issued and sold thereunder $1,000,000 First Mortgage 5% Gold Bonds, Series "A," due 1957. The proceeds of this issue were used to reimburse the Company partially for the cost of improvements, extensions and additions to its properties, to provide funds for the payment of the Sinking Fund 5% Bonds which matured July 1, 1927, and for the retirement of its 30-year Gold 5s, due Sept. 2, 1931, which had been called for redemption.

Joplin Water Works Company in April, 1927, created a new mortgage on its properties and issued and sold thereunder $1,000,000 First Mortgage 5% Gold Bonds, Series "A," due 1957. The proceeds of this issue were used to reimburse the Company partially for the cost of betterments and extensions to its properties, and for the retirement of the 40-Year Gold 5s, due 1940, and Gold Mortgage 5s, due 1948, which were called for redemption.

Richmond Water Works Corporation in May, 1927, purchased the properties of the Richmond City Water Works, at which time it created a mortgage on its properties and issued and sold thereunder $1,000,000 First Mortgage 5% Gold Bonds, Series "A," due 1957.

City Water Company of Chattanooga in June, 1927, sold $600,000 principal amount of First Mortgage 5% Gold Bonds, Series "C" and the Commonwealth Water Company in Aug., 1927, sold $500,000 principal amount of First Mortgage 5% Gold Bonds, Series "C," the proceeds of which issues were used to reimburse the respective companies for the cost of additions, betterments and extensions to the companies' properties.

The West Penn Electric Company during 1927 sold a total of $12,000,000 par value of its 6% cumulative Pfd. stock. Of this amount $8,300,000 was sold through bankers and $3,700,000 was sold on the customer ownership plan throughout the territories served by that Company and its subsidiaries.

CAPITAL STOCK

Authorized, $2,500,000; oustanding, $1,549,400 Common and $56,000 7% Cumulative Pfd.; par, $100. All owned by American Water Works and Electric Company, Incorporated; the remainder of the authorized stock may be issued as Pfd. or Common, as the Company may elect. Annual meeting, last Saturday in April.

FUNDED DEBT

$2,930,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A," DUE OCTOBER 1, 1956

Dated October 1, 1926.

Interest Payable April and October 1, at American Water Works and Electric Co., Inc., 50 Broad St., New York, N. Y.

Denominations—Coupon, $500 and $1,000 (interchangeable); principal may be registered.

Trustee and Registrar—Guaranty Trust Co. of New York, New York.

Provisions of Issue—Open mortgage. Outstanding, Feb. 16, 1928, $2,930,000 Series "A" 5s. Proceeds were used to retire certain indebtedness of company (including the payment of $1,789,000 First Mtge. 6% bonds, Series "A," due Nov. 1, 1930, but called for payment Nov. 1, 1926 at 102 and interest at Continental & Commercial Trust & Savings Bank, Chicago) and for other corporate purposes.

Additional in series, bearing such interest rates, maturities, redemption provisions and such other features and provisions as may be determined by directors of Company, subject, however, to the restrictive provisions of the mortgage may be issued under the mortgage for (a) not exceeding 80% of cost or fair value, whichever is lower, of permanent improvements, additions or extensions to property of Company or any new or additional property constructed or acquired subsequent to June 30, 1926; (b) cash deposited with the Trustee under the provisions of the mortgage; (c) the paying, redeeming or refunding of indebtedness secured by prior liens on property acquired subsequent to June 30, 1926; and (d) the paying, redeeming or refunding of bonds of another series. No additional bonds may, however, be issued except for the purposes expressed in (c) and (d) above, unless net earnings of Company, as defined in the mortgage, for twelve consecutive calendar months within fifteen calendar months immediately preceding the month in which application is made for authentication of bonds, shall have been at least one and three-quarters times the annual interest charges upon (a) all bonds outstanding under the mortgage, (b) those to be issued and (c) all indebtedness secured by prior liens, if any, on property acquired subsequent to June 30, 1926, except such part thereof as will be paid or retired from the proceeds or through the issue of the additional bonds applied for. In the calculation of such net earnings at least 5% of gross revenues must be charged to operating expenses for repairs and current maintenance.

Callability—Subject to call as a whole or in part on at least 30 days' notice at 105 up to and including Oct. 1, 1936, and at 1% less during each 5 year period thereafter up to and including Oct. 1, 1951, and at par thereafter; plus accrued interest in each case.

Public Acquisition of Properties—In event that any municipal corporation or other governmental subdivision within the territorial limits of which the Company shall then be operating, shall acquire all or the major portion in value of the water works properties of the Company and shall assume payment of principal and interest of all bonds issued under the mortgage as a valid and binding general obligation, all liability and obligation of the Company upon the bonds and the coupons shall forthwith cease and determine. In event that any such municipal corporation or other governmental subdivision shall acquire all or any part of the water works properties of the Company, and shall not assume the payment of principal and interest of all bonds issued under the mortgage, then bonds in principal amount not exceeding the price paid for the property so acquired, may, at the option of the Company be declared due and payable at 100 and interest.

Security—Secured by a first mortgage on all the physical property now owned by Company, and will be secured by a direct mortgage on such property hereafter acquired.

Tax Provisions—Company pays Normal Federal Income tax up to 2% and agrees to refund, upon proper application within 60 days after payment, the Pennsylvania and Connecticut Personal Property Taxes, not exceeding 4 mills per annum, the Maryland Security tax, not exceeding 4½ mills per annum, and the Massachusetts Income Tax, not exceeding 6% per annum on income derived from the bonds.

Legal Opinion—Sullivan & Cromwell, New York, (for the Company), and Seibert & Riggs, New York, (for the bankers.)

Original Offering—First publicly offered ($2,750,000) in September, 1926, at 95½ and accrued interest, to yield 5.30%, by W. C. Langley & Co., and Halsey, Stuart & Co., Inc., New York, etc., and H. M. Payson & Co., Portland, Me.

Interest Payable March and Sept. 1, at Farmers' Loan & Trust Co., New York, Trustee. Coupon, $1,000. Authorized, $750,000; $152,000 reserved to retire equal amount of 5s, due July 1, 1927. In addition to outstanding amount, $13,000 are held in treasury. Subject to call at par and interest at any time. Company does not pay Normal Federal Income Tax.

(2)

$1,000,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE OCTOBER 1, 1957

Dated October 1, 1927.

Interest Payable April and October 1 at American Water Works and Electric Co., Inc., 50 Broad St., New York, N. Y.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee and Registrar—The Farmers' Loan & Trust Co., New York.

Provisions of Issue—Authorized amount, not limited; issued and outstanding, $1,000,000 Series "A" 5s. Additional bonds may be issued in series, bearing the same or different rates of interest, interest dates, maturities, redemption provisions and such other features and provisions as may be determined by the Board subject, however, to the restrictive provisions of the Mortgage, for (a) not exceeding 80% of the cost or fair value, whichever is lower, of permanent improvements, additions or extensions to the property of the Company or any new or additional property constructed or acquired subsequent to July 31, 1927; (b) cash deposited with the Trustee under the provisions of the Mortgage; (c) the paying, redeeming or refunding of indebtedness secured by prior mortgage liens on property acquired subsequent to July 31, 1927; and (d) the paying, redeeming or refunding of bonds theretofore issued under the mortgage. No additional bonds may, however, be issued except for the purposes expressed in (c) and (d) above, unless net earnings of the Company, as defined in the Mortgage, for 12 consecutive calendar months within 15 calendar months immediately preceding the month in which application is made for authentication of bonds, shall have been at least 1¾ times the annual interest charges upon (a) all bonds outstanding under the Mortgage; (b) those to be issued and (c) all indebtedness secured by prior liens, if any, on property acquired subsequent to July 31, 1927, except such part thereof as will be paid or retired from the proceeds or through the issue of the additional bonds applied for. In the calculation of such net earnings at least 5% of gross revenues must be charged to operating expenses for repairs and current maintenance.

Purpose of Issue—Proceeds were used to provide for the retirement of certain indebtedness of the Company, including all bonds outstanding, and for other corporate purposes.

Callability—Subject to call as a whole or in part on at least 4 weeks' notice at 105 up to and including Oct. 1, 1952; and at 100 thereafter, plus accrued interest in each case. In event that any municipal corporation or other governmental subdivision within the territorial limits of which the Company shall then be operating, shall acquire all or any part of the water works properties of the Company, then bonds in principal amount not exceeding the price paid for the property so acquired, may, at the option of the Company be declared due and payable at 100 and interest.

Sinking Fund—None provided.

Security—Secured by a first mortgage on all the fixed property owned by the Company, and by a direct mortgage on such property hereafter acquired.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Free from Pennsylvania 4 mills tax. Connecticut personal property taxes not exceeding 4 mills per annum, Maryland security tax not exceeding 4½ mills per annum and the Massachusetts income tax, not exceeding 6% per annum on income derived from bonds, refunded upon proper application within 60 days after payment.

Legal Opinion—Seibert & Riggs, New York (for the Bankers), and Sullivan & Cromwell, New York (for the Company).

Original Offering—First publicly offered ($1,000,000) in October, 1927, at 95 and interest, to yield over 5.30%, by W. C. Langley & Co., and Halsey, Stuart & Co., Inc., New York, etc.

BONDS REDEEMED

Mortgage provides for issuance of bonds in series, bearing same or different rates of interest, interest dates, maturities, redemption provisions and such other features and provisions as may be determined by directors, subject, however, to restrictive provisions of Mortgage. Bonds in principal amount of $464,000 may be certified and issued against properties owned by Co. as of May 31, 1926, and additional bonds may also be issued for (a) not exceeding 80% of cost or fair value of permanent improvements, additions or extensions to the property of Company or any new or additional property constructed or acquired subsequent to May 31, 1926; (b) cash deposited with Trustee under provisions of Mortgage; (c) the paying, redeeming or refunding of indebtedness secured by prior liens on property acquired subsequent to May 31, 1926; and (d) paying, redeeming or refunding of bonds of another series. No additional bonds may, however, be issued except for purposes expressed in (c) and (d) above, unless net earnings of Co. for twelve consecutive calendar months within fifteen calendar months immediately preceding month in which application is made for authentication of bonds, shall have been at least one and three-quarter times annual interest charges upon (a) all bonds outstanding under Mortgage, (b) those to be issued and (c) all indebtedness secured by prior liens, if any, on property acquired subsequent to May 31, 1926, except such part thereof as will be paid or retired from proceeds or through issue of the additional bonds applied for. In calculation of such net earnings at least 5% of gross revenues must be charged to operating expenses for repairs and current maintenance.

Purpose of Issue—The bonds were issued to retire an equal principal amount of indebtedness of Company, including all bonds outstanding against property of Company.

Callability—Subject to call as a whole or in part on 30 days' notice at 105 up to and including June 1, 1931, at 102 thereafter up to and including June 1, 1936, at 101 thereafter up to and including June 1, 1951, and at par thereafter; plus accrued interest in each case.

In event that any municipal corporation or other governmental subdivision or that any governmental body of the State of New Jersey shall acquire all or the major portion in value of the water works properties of the Company and shall assume payment of principal and interest of all bonds issued under the indenture as a valid and binding general obligation, all liability and obligation of the Company upon the bonds and the coupons shall forthwith cease and determine. In event that any such municipal corporation or any governmental subdivision or governmental body shall acquire all or any part of the water works properties of the Company, and shall not assume the payment of principal and interest of all bonds issued under the indenture, then bonds in principal amount not exceeding the price paid for the property so acquired, may, at the option of the Company be declared due and payable at 100 and interest.

Security—Bonds are secured by a first mortgage on physical property now owned by Company and will be secured by a direct mortgage on property hereafter acquired.

Tax Provisions—Company pays Normal Federal ncome tax up to 2%; bonds are free of personal prop- rty taxes in New Jersey, and Pennsylvania and Con- ecticut Personal Property taxes up to 4 mills, Mary- ınd Security tax up to 4½ mills, and Massachusetts ncome tax up to 6%, refundable.

Legal Opinion—Sullivan & Cromwell, New York for the Company), and Seibert & Riggs, New York for the bankers).

Original Offering—First publicly offered ($2,500,- 00) in July, 1926, at 95 and interest, to yield over 30%, by Halsey, Stuart & Co., Inc., and W. C. angley & Co., New York, etc.

FUNDED DEBT

$1,000,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE MAY 1, 1957

Dated May 2, 1927.

Interest Payable May and November 1, at American

Water Works and Electric Co., Inc., 50 Broad St., New York.

Denominations—Coupon $500 and $1,000; principal may be registered.

Trustees—United States Mortgage & Trust Co. and H. F. Barnard, New York.

Provisions of Issue—Authorized amount, unlimited, subject to restrictions below stated. Issued and outstanding, $1,000,000 Series "A" 5s, to provide in part for the acquisition of the property.

Additional bonds in series, bearing the same or different dates, rates of interest, maturities, redemption provisions, etc., as may be determined by the Board of Directors at the time of issue, for (a) not exceeding 80% of the cost or fair value, whichever is lower, of permanent improvements, additions or extensions to the property of the corporation or any new or additional property constructed or acquired subsequent to April 30, 1927; (b) cash deposited with the Trustee under the provisions of the mortgage; (c) the paying, redeeming or refunding of indebtedness secured by prior liens on property acquired subsequent to April 30, 1927; and (d) the paying, redeeming or refunding of bonds of another series. No additional bonds may, however, be issued except for the purposes expressed in (c) and (d) above, unless net earnings of the Corporation, as defined in the Mortgage, for 12 consecutive calendar months within 15 calendar months immediately preceding the month in which application is made for authentication of bonds, shall have been at least 1¾ times the annual interest charges upon (a) all bonds outstanding under the Mortgage, (b) those to be issued and (c) all indebtedness secured by prior liens, if any, on property acquired subsequent to April 30, 1927, except such part thereof as will be paid or retired from the proceeds or through the issue of the additional bonds applied for. In the calculation of such net earnings at least 5% of gross revenues must be charged to operating expenses for repairs and current maintenance.

Callability—Subject to call in whole or in part on four weeks' notice at 105 up to and including May 1, 1952, and at par thereafter; plus accrued interest in each case. In event that any municipal corporation or other governmental subdivision within the territorial limits of which the Corporation shall then be operating, shall acquire all or any part of the water works properties of the Corporation, then bonds in principal amount not exceeding the price paid for the property so acquired, may, at the option of the Corporation, be declared due and payable at 100 and interest.

Upon organization company acquired the securities dealt with under the plan, as well as all the assets of the former The West Penn Company (see 1925 Public Utility Manual, page 1484), which was dissolved April 7, 1926. Final distribution to the stockholders of that company was made April 30, 1926 Pfd. stock receiving $101.46 per share, representing the par value of such stock, and accrued and unpaid dividends to April 30, 1926, and Common stock $125 per share. Subsequent to Dec. 31, 1926, The West Penn Electric Company acquired all the assets (consisting principally of $8,073,600 Common stock of the Monongahela West Penn Public Service Co.) of the West Penn Monongahela Co. (see 1926 Public Utility Manual, page 2204), which company was dissolved on April 29, 1927.

Company is a holding company owning $14,598,523 of the $14,600,000 outstanding Common stock of Monongahela West Penn Public Service Company, all of the outstanding 120,000 shares of no par value Common stock of The Potomac Edison Company, $15,750,000 of the $27,750,000 outstanding Common stock of West Penn Power Company (the remaining $12,000,000 being owned by West Penn Railways Company), and all of the $17,091,700 outstanding Common stock of West Penn Railways Company. The Company also owns all of the outstanding Common stock of Ohio Valley Transit Company, Tri-State Improvement Company, West Penn Auto Company, West Penn Realty Company, West Penn Securities Department, Inc., West Penn System Construction Company and West Virginia Public Service Company.

Property—Company controls electric light, power and railway companies serving an area of approximately 22,700 square miles, extending from within 25 miles of the City of Baltimore, Maryland, across Maryland and northern West Virginia to the Ohio River, and northward in the important industrial sections of western Pennsylvania, with the exception of the City of Pittsburgh and its immediate environs, to north central Pennsylvania. The total population served by the Company is approximately 1,700,000.

The subsidiaries of The West Penn Electric Company own and operate 31 electric generating stations with an aggregate installed capacity of approximately 514,955 k.w.; 2,399 miles of high tension transmission lines, 651.84 miles of track for street car and interurban railway service; and serve 235,501 electric consumers in over 1,200 communities.

Financing in 1927—In accordance with the general policy of simplifying the corporate and financial structure of Company's subsidiaries, during the year 1927, Keystone Power & Light Co. was dissolved, its 7% Pfd. stock was called for payment on Aug. 15, 1927 at par and accrued dividend at Equitable Trust Co., New York, and its subsidiary, Keystone Power Corp., was merged with West Penn Power Co., as was Allegheny Valley Light Co. (For last published statements of these companies see 1927 Public Utility Manual, pages, 1615, 1916 and 1632). Home Electric Company was purchased and also merged with West Penn Power Company.

The Trustee under the Mortgage of West Penn Railways Company dated April 1, 1905, purchased $1,260,500 of First Mortgage 5% Gold bonds out of funds on deposit as proceeds of the sale of released property.

Supplying of the capital requirements of Company and its subsidiary companies for 1927 was accomplished solely by the issuance and sale of its own Preferred and Common stocks and those of several of its subsidiaries. The West Penn Electric Company issued and sold $12,000,000 par value of its 6% cumulative Preferred stock, $3,700,000 being sold in a customer-ownership campaign. The proceeds of this issue were used to purchase additional Common stock of the West Penn Power Company, the Monongahela West Penn Public Service Company and The Potomac Edison Company.

Monongahela West Penn Public Service Company issued and sold $584,400 par value of its 7% cumulative Preferred stock, and The Potomac Edison Company sold $3,430,500 par value of its 6% cumulative Preferred stock, $780,500 par value of this amount being sold through its employees in a customer-ownership campaign. The proceeds of the sale of these issues were applied toward the purchase of additional public utility properties and for improvement and extension of those already owned.

The funded debt of Company and its subsidiaries was reduced in the sum of $5,374,000 as the result of mergers, refunding and purchase of bonds by Trustees.

Preferred Stock Provisions—Has preference for assets and dividends over other classes of stock; may be issued in series, but each series shall have equal rank and be identical with all other series, except as follows; Rate of dividends, which shall not be more than 8%; redemption price, which shall not exceed $120 per share; the right, if any of holders to convert such stock into stock of another series or class, and the rates and conditions of such conversions; all of which shall be subject to the option of the Board of Directors. No additional Preferred stock may be issued unless the consolidated surplus net earnings applicable to the payment of dividends on the Preferred stock shall have been for a period of 12 consecutive months within the 15 calendar months immediately preceding the issuance of the additional stock at least twice the dividend requirements for a like period upon the entire amount of Preferred stock outstanding and that proposed to be issued. In the event of liquidation, is entitled to receive $100 a share plus accrued dividends before distribution to other classes of stock. Preferred stock has no voting power, except (a) in case of default of four consecutive quarterly dividends, (b) to amend charter to provide for issue of any stock having priority over Preferred stock, or to change the terms of any outstanding Preferred stock, such amendment requiring the consent of the holders of three-fourths of the shares of Preferred stock outstanding. No holder of Preferred stock is entitled as such as a matter of right to subscribe for or purchase any new or additional issue of stock of any class or of securities convertible into stock.

The present outstanding Preferred stock is classified as 7% and 6% cumulative Preferred stock, the former being entitled to receive cumulative dividends at the rate of 7% per annum and callable on any dividend date on thirty days' notice at 115; and the latter to receive cumulative dividends at the rate of 6% per annum and callable on any dividend date, as a whole or in part, on 30 days' notice at 110.

Class "A" Stock Provisions—Class "A" stock is preferred as to assets and dividends over the Class "B" and Common stocks, and after dividends have been paid in full on the Preferred stock, is entitled to receive cumulative dividends at the rate of $7 per share per annum and no more. Callable on any dividend date on 30 days' notice at 115. In event of liquidation and after Preferred stock has been paid in full, is entitled to receive $100 per share and accrued dividends before any distribution is made to Class "B" or Common stockholders. Has equal voting rights share for share with Common stock. No additional Class "A" stock can be authorized or issued, nor the terms of any outstanding Class A stock changed, nor any stock or securities convertible into stock issued which has priority over the Class "A" stock, except the Preferred stock, without the consent of the holders of three-fourths of the shares of Class "A" stock outstanding. No holder of Class "A" stock is entitled as such as a matter of right to subscribe for or purchase any additional issue of stock of any class or of securities convertible into stock.

FUNDED DEBT

$285,000 Mortgages on real estate.

POLICY REGARDING RENEWALS AND REPLACEMENTS

The subsidiary companies of The West Penn Electric Company, except The Monongahela West Penn Public Service Company and The Potomac Edison Company, set aside monthly out of operating revenues an amount for renewals and replacements of property which is credited to reserve for renewals and replacements and against which the original cost of superseded property is charged as replaced or discarded. The amounts set aside are percentages of the estimated value of such property, such percentages being determined in some cases according to special rulings of regulatory commissions and in others by specific mortgage requirements.

The Monongahela West Penn Public Service Company, in addition to the reserve for renewals and replacements, sets aside monthly a depletion reserve in amount not less than 3 cents per 1,000 cubic feet of natural gas sold, the sum so set aside to be expended by the Company in the construction or acquisition of permanent improvements, extensions or additions to its property. Expenditures for maintenance are charged directly to operating expenses.

The Potomac Edison Company and its subsidiaries set aside monthly out of operating revenues an amount for renewals and replacements of property equal to approximately one twelfth of two per cent of the cost of buildings and one-twelfth of from five per cent to ten per cent of the cost of equipment, which amount is credited to reserve for renewals and replacements and against which reserve the original cost of superseded property is charged as replaced or discarded. Expenditures for maintenance are charged directly to operating expenses.

MONONGAHELA WEST PENN PUBLIC SERVICE COMPANY

(Controlled by The West Penn Electric Company)

History—Incorporated May 17, 1912, in West Virginia as the Monongahela Valley Traction Co.; name changed to Monongahela Power & Railway Co. on May 11, 1921 and to Monongahela West Penn Public Service Co. Feb. 28, 1923. Company is a consolidation of Fairmont & Clarksburg Traction Co. (see Manual for 1912, page 1719; or apply to our Information Department) Fairmont & Northern Traction Co. (see Manual for 1912, page 1720), and the Clarksburg & Weston Electric Ry. Co.

During 1927 Company purchased the properties of the West Virginia Utilities Co. (see 1927 Manual, page

2330), supplying electrical energy and gas to Morgantown, W. Va., and vicinity, and also the properties of the Randall Gas Co., supplying natural gas to commercial and domestic users in the northwestern part of West Virginia and southern Pennsylvania. Also purchased in 1927 the electric light and power properties at Salem and West Union, W. Va., from the Mountain States Utilities Corp.

The Company owns all the outstanding capital stock of Kanawha Traction & Electric Co., The West Maryland Power Co., Monongahela Securities Co., Spencer Water & Ice Co., and State Line Natural Gas Co., and controls indirectly through subsidiary companies Marietta & Parkersburg Bridge Co., and Monongahela Transport Co.

The physical property of Monongahela West Penn Public Service Co. and subsidiary companies as of Dec. 31, 1927, includes 185.38 miles of track (single track mileage, 4 ft. 8½ in. gauge), 111 motor passenger cars, 28 express and freight cars, 3 electric locomotives, 20 other cars and 50 buses operating over 143 miles of route. There are also 10 electric generating stations having an installed generating capacity of 57,190 k.w., 183 substations having a transformer capacity of 121,691 k.w., of which 94 substations with a capacity of 76,165 k.w., are owned by these companies, 603.99 pole miles of high tension transmission lines (184.98 miles of 66,000 volt construction, 3.31 miles of 33,000 volt construction and 415.70 miles of 25,000 volt construction) exclusive of low tension distribution lines in cities and towns. The principal stations owned are Rivesville, 40,000 k.w., and Parkersburg, 10,000 k.w.

The Company also owns or controls by lease 17,851 acres of natural gas properties, of which it is operating in 12,201.5 acres, 235 producing gas wells being owned and leased. The gathering and distribution system comprises 455 miles of pipe lines. The Company also owns an absorption gasoline plant having a daily capacity of 3,000 gallons.

$14,171,000 MONONGAHELA WEST PENN PUBLIC SERVICE CO. FIRST LIEN & REFUNDING GOLD 5½s, SERIES "B"; DUE FEBRUARY 1, 1953

Dated February 1, 1923.

Interest Payable February and August 1, at American Water Works & Electric Co., Inc., New York, and Illinois Merchants Trust Co., Chicago.

Denominations—Coupon (principal may be registered), $100, $500 and $1,000; exchangeable for fully registered bonds of $1,000 and authorized mutiples thereof.

Trustee and Registrar—The Equitable Trust Co. of New York.

Provisions of Issue—Authorized amount is unlimited, except as restricted by provisions of Trust Deed. Outstanding $14,171,000 Series "B" 5½s. Part of the proceeds from the sale of this issue was used to retire $6,542,000 Series "A" 6% bonds at 102, called for redemption August 1, 1925; the remainder to reimburse Company for expenditures made in recent acquisition of properties, for extensions and enlargements of its facilities and for other corporate purposes.

Additional bonds in series, bearing such rates of interest and maturing at such times as the Board of Directors may determine, may be issued par for par for refunding purposes, and for 80% of the cost, or fair value, whichever is less, of permanent improvements, additions or betterments, and then only provided that net earnings as defined in the Trust Deed, for twelve consecutive months within the preceding fifteen months, have been at least twice the annual interest requirement on divisional and subsidiary bonds outstanding in the hands of the public, and on First (and Refunding) bonds, and on First Lien and Refunding bonds outstanding, including bonds proposed to be issued.

Callability—Subject to call in whole or in part on four weeks' notice at the following prices, plus accrued interest: At 105 to and including Feb. 1, 1943, less ½% for each year thereafter to and including Feb. 1, 1952, and thereafter at 100.

Maintenance Fund—The mortgage provides that the company shall at all times maintain the mortgaged properties in thorough operating condition and that it shall expend annually for this purpose an amount equal to not less than the sum of 20% of the gross operating revenues of the railway department; plus 15% of the operating revenues of the electric light and power department; plus 10% of the operating revenues of the gas department. Provided, however, the company may, in any calendar year be credited with any amounts expended by it, in any calendar year of the next preceding five calendar years, in excess of the sum hereby covenanted to be expended by it and not previously credited.

The company covenants that it will invest any unexpended balance, of the amount so covenanted to be expended for maintenance and repairs, in the construction or acquisition of permanent improvement, extensions or additions to the mortgaged property, against which no bonds shall be authenticated or issued.

Depletion Reserve Fund—The mortgage further provides, that beginning with the calendar year 1923, and so long as any of the bonds hereby secured shall remain outstanding, the company shall credit to a depletion reserve account an amount which shall not be less than 3 cents per 1,000 feet of all gas sold by the company in such year, derived from the mortgaged properties. The sums so credited shall be expended by the company in the construction or acquisition of permanent improvements, extensions or improvements to the mortgaged properties, against which no bonds shall be authenticated or issued.

Security—Secured by a mortgage on the entire property of the company, subject to the underlying liens; also secured by pledge of (a) $6,478,500 Monongahela Valley Traction Co. First (and Refunding) Mortgage Bonds due 1942, which bonds rank ratably with $3,747,000 bonds now outstanding with the public and (b) $673,000 First & Refunding Series "B" 7s and the entire Pfd. and Common stocks of the Kanawha Traction & Electric Co.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Company agrees to reimburse resident holders of Series "B" bonds if requested within sixty days after payment, for the Pennsylvania and Connecticut Personal Property taxes not exceeding 4 mills per dollar per annum; Maryland Security Tax not exceeding 4½ mills and Massachusetts income tax on the interest not exceeding 6% per annum.

Original Offering—First publicly offered ($13,200,000 Series "B" 5½s) in Aug., 1925, at 98 and interest, yielding about 5.65%, by Halsey, Stuart & Co., Inc., E. H. Rollins & Sons, W. A. Harriman & Co., Inc., Hambleton & Co., and Dominick & Dominick, New York, etc.

WEST PENN POWER COMPANY

(Controlled by West Penn Electric Company)

History—Incorporated March 1, 1916, under laws of Pennsylvania, as a merger of 53 electric light and power companies. The Company was organized for the purpose of consolidating under single fee ownership the principal electric light and power properties within the State of Pennsylvania formerly owned by the West Penn Traction Co.—now West Penn Rys. Company.

On July 1, 1927, Company acquired all the physical property, rights and franchises of the following companies: Keystone Power Corp. (see 1927 Public Utility Manual, page 1617), operating in Cameron, Centre, Clinton, Elk, McKean and Potter Counties; Allegheny Valley Light Co. (see 1927 Public Utility Manual, page 1632), supplying a large industrial district in Allegheny and Westmoreland Counties adjacent to the City of Pittsburgh, and Home Electric Co., serving the Borough of Coudersport in Potter County. At the time of purchase, these companies were serving a total of 21,463 consumers of electric light and power, including a number of large industrial plants. To finance these acquisitions West Penn Power Co. issued $9,150,000 Common stock, applying $7,122,115 thereof to the retirement of bonds, debentures and Pfd. stocks of the merged companies outstanding in the hands of the public. West Penn Power Co. also issued in 1927 $345,000 6% cumulative Pfd. stock, being the remainder of an issue of $1,000,000 sold in the latter part of 1926.

In the enlarged territory now served by Company, 12,961 new consumers were connected during 1927 making a total at Dec. 31, 1927, of 141,533. A total generating capacity of 375,885 kilowatts is installed on the system to serve these consumers.

Subsidiaries—West Penn Power Co. owns all outstanding capital stock of Allegheny Pittsburgh Coal Co., Ohio County Fuel Co., West Penn Appliance Co. and West Virginia Power and Transmission Co., and controls, through the latter Company, West Penn West Virginia Power Co. The Company, jointly with The Ohio Power Co., owns all of the outstanding capital stock of Beech Bottom Power Co., Inc., and Windsor Power House Coal Co., which latter company owns all the capital stock of Windsor Coal Co.

Business—West Penn Power Co. conducts a light, heat and power business in its chartered territory in western and north-central Pennsylvania, which exceeds 7,800 square miles. Company serves approximately 555 cities, towns and communities, having a population estimated to exceed 765,000. The franchises under which the Company operates, with the exception of those in a few small towns from which the Company derives less than 3% of its gross earnings, are unlimited as to duration.

Property—The physical property as of Dec. 31, 1927, includes 11 electric generating stations with an aggregate installed capacity of 375,735 k.w.; 295 substations having a transformer capacity of 432,567 k.w., of which 242 substations with transformer capacity of 320,302 k.w. are owned by the Company; also 7 substations with transformer capacity of 185,000 k.w., feeding the 25,000 and 44,000 volt systems and 1,283.27 pole miles of high tension transmission lines (225.06 miles 132,000 volt construction and 1,058.21 miles 25,000, 33,000 and 44,000 volt construction), exclusive of low tension distribution lines in cities and towns. The principal stations owned are Springdale, 160,000 k.w., Connellsville, 55,500 k.w., Lake Lynn, 50,000 k.w., Ridgway, 15,000 k.w., and Windsor, 90,000 k.w. The latter contains six 30,000 k.w. units, three of which are the property of West Penn Power Co. and three the property of The Ohio Power Co., the entire plant being operated as a unit by Beech Bottom Power Co., Inc.

Holders of the Class "A" stock have had the option of applying their quarterly dividends of 50 cents in cash toward the purchase of additional Class "A" stock at rate of 1/50th of a share for each share held, this being at the rate of $25 per share for additional stock purchased.

FUNDED DEBT

$12,500,000 CONVERTIBLE 5½% GOLD DEBENTURES; DUE JULY 1, 1957

Dated July 1, 1927.

Interest Payable January and July 1 in New York City.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—Central Union Trust Co. of New York.

Provisions of Issue—Authorized amount unlimited; outstanding, $12,500,000. Indenture provides that no additional debentures may be issued, except for refunding purposes, unless the net income of the Corporation, as defined in the Indenture for twelve consecutive calendar months within the preceding fifteen calendar months shall have been at least 2½ times the annual interest charges upon all outstanding funded indebtedness of the Corporation, including the debentures then proposed to be issued.

Purpose of Issue—Proceeds were used for the retirement of the Corporation's 6% Convertible Debentures, Series "A," due Sept. 1, 1996; for the acquisition of certain properties and for other corporate purposes.

Callability—Subject to call on any interest date upon 40 days' notice to and including July 1, 1937, at 105 and interest; thereafter, to and including July 1, 1956, at 103 and interest; thereafter at par and interest.

Sinking Fund—None provided.

Convertibility—Debentures are convertible, at face value, on or before Jan. 1, 1937, into Class "A" stock of the Corporation, as constituted at the time of conversion, with adjustment in cash to be made of accrued interest, dividends and fractional part of a share, at the following prices: To and including Jan. 1, 1929, at $39.50 per share; thereafter, to and including Jan. 1, 1931, at $42.50 per share; thereafter, to and including Jan. 1, 1933, at $47 per share; thereafter, to and including Jan. 1, 1935, at $55 per share; thereafter, to and including Jan. 1, 1937, at $60 per share. Debentures which may be called for redemption will be convertible, as aforesaid, to and including the tenth day prior to the date of redemption. The indenture contains provision safeguarding the rights of holders of debentures in event of payment by the Corporation of any dividends in Class "A" stock.

Security—Debentures are the direct obligation of the Corporation which covenants that it will not issue any secured funded debt, as defined in the Indenture, unless all debentures issued under the Indenture are secured ratably therewith.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Certain Pennsylvania, Connecticut, Kansas, California and Minnesota taxes not to exceed 4 mills, Maryland tax not to exceed 4½ mills, Kentucky, West Virginia and District of Columbia taxes not to exceed 5 mills, Michigan exemption tax not to exceed 5 mills, Virginia tax not to exceed 5½ mills and Massachusetts income tax not to exceed 6% refunded to resident holders upon application within 60 days after payment.

Legal Opinion—White & Case, New York.

I., and through its subsidiarie[illegible] in Haverstraw, Seneca Falls, Waterloo, Clyde, No[illegible] wich, part of the City of Rochester and adjacent subu[illegible] ban districts and numerous communities suburban t[illegible] Syracuse. White Plains and North White Plains ar[illegible] served at wholesale. Population served, in excess o[illegible] 575,000.

The Flatbush, Woodhaven, Huntington, Glen Cov[illegible] and White Plains water supplies are derived from sy[illegible] tems of driven wells. Corporation owns over ninety[illegible] four acres of land in New York City for the protec[illegible] tion of its present and future water supplies. Have[illegible] straw, Stony Point and Grassy Point obtain wate[illegible] from mountain streams. The water supply for Senec[illegible] Falls is taken from Cayuga Lake, having a drainag[illegible] basin of over 800 square miles. The districts of No[illegible] wich and Syracuse are served by gravity system[illegible] Water for the territory served in and near the city o[illegible] Rochester is derived from Lake Ontario.

The distribution lines consist of 576 miles of main[illegible] afford fire protection with 5,412 hydrants and serve[illegible] total of 106,429 consumers.

Authorized, $3,000,000 Common and $6,000,000 6% cumulative Pfd.; outstanding $2,245,000 Common an[illegible] $4,046,000 Pfd.; par, $100. The entire Common stoc[illegible] is owned by the Federal Water Service Corporatio[illegible]

Capital Stock Changes—In Dec., 1926, authorize[illegible] capital stock was increased from $400,000 to $7,500,00[illegible] ($1,500,000 Common and $6,000,000 Pfd.); in June[illegible] 1927 to $8,000,000 ($2,000,000 Common and $6,000,00[illegible] Pfd.); in Jan., 1928 to $9,000,000 ($3,000,000 Commo[illegible] and $6,000,000 Pfd.)

Preferred Stock Provisions—Pfd. stock is preferre[illegible] over the Common, both as to assets and dividends. I[illegible] is entitled to cumulative dividends at the rate of 6% per annum. Pfd. stock is redeemable in whole or i[illegible] part, at the option of the corporation, on any dividen[illegible] payment date, upon at least 30 days' notice at $105 pe[illegible] share and accrued dividends. Upon any dissolution o[illegible] liquidation of the Corporation, the holders of the Pfd stock are entitled to $100 per share and accrued divi[illegible] dends, plus a premium of $5 per share, if such dissolu[illegible]

tion or liquidation is voluntary, before any distribution is made to the Common stock. Additional Pfd. stock cannot be issued unless the net consolidated income of the Corporation and its subsidiaries for 12 consecutive calendar months within the 15 calendar months immediately preceding the date of such issue, after deducting all interest charges on the indebtedness of the Corporation, is at least twice the annual dividend requirements on all Pfd. stock outstanding, including any additional shares to be issued. The Corporation may not issue stock having priority over the Pfd. stock as to dividends or assets, amend the provisions of the Pfd. stock so as to affect adversely the rights of the holders, or increase the number of shares of Pfd. stock authorized to be issued, without the consent of at least two-thirds of the Pfd. stock. In the event the dividends of the Pfd. stock are in arrears and unpaid for four quarterly periods, whether consecutive or not, the Pfd. stockholders have equal voting power with the Common, so long as such default may continue.

FUNDED DEBT

$9,969,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A": DUE NOVEMBER 1, 1951

Dated November 1, 1926.

Interest Payable May and November 1, at The New York Trust Co., New York.

Denominations—Coupon, $500 and $1,000 (interchangeable); principal may be registered.

Trustee—The New York Trust Company, New York.

Provisions of Issue—Authorized amount unlimited; issued, Series "A", $9,969,000. Additional bonds may be issued for not in excess of 80% of the cost or fair value, whichever is lower, of the permanent improvements, extensions or additions to the properties, provided the System's net earnings, as defined in the Mortgage, for 12 consecutive calendar months within 15 calendar months immediately prior to the issuance of such additional bonds, have been at least 1¾ times the interest charges on all bonds outstanding under the mortgage, prior lien bonds in the hands of the public, and those proposed to be issued. In the computation of net earnings at least 5% of gross earnings must be charged to maintenance.

Purpose of Issue—Proceeds were used to retire funded indebtedness outstanding in the hands of the public against the properties, to acquire certain properties, and to partially reimburse the Corporation for necessary improvements, betterments and extensions to the properties and for other corporate purposes.

Callability—Subject to call on any interest date on 60 days' notice, to and including Nov. 1, 1929, at 105 and interest; thereafter, to and including Nov. 1, 1934, at 103 and interest; thereafter to and including Nov. 1, 1942 at 102 and interest; thereafter, to and including Nov. 1, 1950, at 101 and interest; thereafter, at par and interest.

In event that any municipal corporation or other governmental subdivision shall acquire all or the major portion in value of any separate system of water works properties of the Corporation, and shall assume payment of principal and interest of all bonds issued under this mortgage against or in respect of such separate system, all liability of the Corporation upon such bonds shall forthwith cease, and in event that payment of principal and interest of such bonds shall not be so assumed, then bonds in principal amount not exceeding the price paid for the property so acquired, may be declared due and payable at 100 and interest, or the funds payable upon such acquisition may be used for the purchase of additional properties as provided in the Indenture.

Maintenance and Improvement Fund—Corporation covenants to establish a maintenance and improvement fund equal to 9% of the annual gross earnings of the System derived from the mortgaged properties. This fund may be expended for improvements, additions and extensions to and maintenance of the properties, but no bonds may be issued against such improvements, additions and extensions.

Security—Secured by a direct first mortgage on all physical properties of the Corporation, and in addition a direct mortgage on the properties of the system, subject to the prior lien of $1,915,000 Rochester & Lake Ontario Water Co. First Mortgage 5% Gold bonds, due March 1, 1933. In addition $585,000 of the latter bonds are pledged under this mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Minnesota, Pennsylvania, Connecticut, Kansas and California taxes, not to exceed 4 mills, Maryland tax not to exceed 4½ mills, Kentucky, West Virginia, Michigan and District of Columbia taxes not to exceed 5 mills. Virginia taxes not to exceed 5½ mills and Massachusetts income tax not to exceed 6% refundable.

Legal Opinion—White & Case, New York.

Original Offering—First publicly offered ($7,000,000) in Dec., 1926, at 94½ and interest to yield about 5.40% by G. L. Ohrstrom & Co., Inc., New York, and Coffin & Burr, Inc., Pearson, Erhart & Co., and Hale, Waters & Co., Boston. $1,500,000 additional offered in July, 1927, by G. L. Ohrstrom & Co., Inc., New York (price not stated). An additional $1,000,000 offered in Jan., 1928, at par and interest by the same banker.

PENNSYLVANIA WATER SERVICE COMPANY

(Controlled by Federal Water Service Corporation)

History—Incorporated September 7, 1927 in Pennsylvania with a perpetual charter. Subsequent to organization company acquired the capital stocks of Spring Brook Water Supply Co. (including The North Mountain Water Supply Co.), Jersey Shore Water Co., Punxsutawney Water Service Co., Clear Springs Water Co., New Chester Water Co., Ohio Valley Water Co., Citizens Water Service Co. of Philipsburg and Clymer Water Co. In Feb., 1928, the corporate structure of the Pennsylvania Water Service Co. was changed and the properties of the Spring Brook Water Supply Co. and The North Mountain Water Supply Co. were transferred to the Scranton-Spring Brook Water Service Co., which acquired the properties of the Scranton Gas & Water Co. and subsidiaries. The Jersey Shore Water Co., Punxsutawney Water Service Co., Clear Springs Water Co., New Chester Water Co., Ohio Valley Water Co., Citizens Water Service Co. of Philipsburg and Clymer Water Service Co. are or have been financed as independent operating companies under the control of the Federal Water Service Corp. The Scranton-Spring Brook Water Service Co. assumed the First Mortgage and Refunding bonds of the Pennsylvania Water Service Co. and adopted the mortgage as its own.

The Pennsylvania Water Service Co. now owns all the outstanding 100,000 Common shares and 60,000 $6 Dividend Series Pfd. shares of the Scranton-Spring Brook Water Service Co. It is intended that later an opportunity will be given to holders of the $6 Pfd. stock of Pennsylvania Water Service Co. to exchange share for share for $6 Pfd. stock of Scranton-Spring Brook Water Service Co., owned by the Pennsylvania Water Service Co.

CAPITAL STOCK

Authorized, 200,000 shares Common and 250,000 shares $6 cumulative Pfd., both of no par value; outstanding, 100,000 shares Common and 60,000 shares Pfd. All the Common stock is owned by Federal Water Service Corp.

Preferred Stock Provisions—Has preference for assets and dividends; is subject to call, as a whole or in part, on 30 days' notice, at $105 per share and accrued dividends, and upon dissolution or liquidation, is entitled to $100 per share and accrued dividends, plus a premium of $5 per share, if such dissolution or liquidation be voluntary, before any distribution may be made to Common.

No additional Pfd. stock shall be issued unless net earnings of the Company, available for dividends for a period of any 12 consecutive calendar months within the 15 calendar months immediately preceding the authorization of such issue, after deducting all interest charges on funded indebtedness of the Company and its subsidiaries, shall have been equal to at least twice the annual dividend requirements on all Pfd. outstanding, including that to be issued.

After 70,000 shares of Pfd. shall have been issued, no further shares of Pfd. shall be issued unless the amount which is computed by multiplying the number of shares of the Pfd. stock which is proposed to be issued by $100 shall not exceed 50% of the amount by which the cost of any new properties and/or of additions, extensions and betterments to the fixed properties of the company and its subsidiaries subsequent to July 31, 1927, or the fair value thereof, whichever shall be less, shall exceed the total outstanding funded indebtedness of the Company and its subsidiaries as shown

by a consolidated balance sheet of the Company and its subsidiaries. Funded indebtedness shall be deemed to be any debt which matures later than one year from its date of issue, and subsidiaries shall be deemed to mean all those companies owning and operating a public utility plant and system at least 75% of the outstanding capital stock of which, having full voting rights, shall have been acquired by the Company and which are subsidiary companies at the date of the consolidated balance sheet.

Without the consent of holders of at least two-thirds of the Pfd. stock, the Company shall not: (a) Authorize or issue any stock or class of stock having priority or preference over the Pfd. stock as to dividends or as to distribution of assets upon dissolution or liquidation; or, (b) amend the provisions of the Pfd. stock so as to affect adversely any of the preferences or other rights given to the holders of the Pfd. stock.

Holders of Pfd. stock are entitled to vote equally, share and share alike, with holders of the Common stock, if at any time dividends shall be in arrears and unpaid on the Pfd. stock for four quarterly periods, so long as such non-payment shall continue.

Transfer Agent (Preferred)—Central Union Trust Co. of New York and Fidelity-Philadelphia Trust Co., Philadelphia.

Registrars (Preferred)—The Equitable Trust Co. of New York and Philadelphia National Bank, Philadelphia.

Legal Opinion—White & Case, New York City, and Hause, Evans & Baker, Harrisburg, Pa.

SCRANTON-SPRING BROOK WATER SERVICE COMPANY

(Controlled by Federal Water Service Corp. through the Pennsylvania Water Service Co.)

History—Incorporated April 5, 1867, in Pennsylvania as the Dunmore Gas & Water Co.; name changed to present title Jan. 25, 1928. In February, 1928, acquired the properties formerly owned by The Spring Brook Water Supply Co. (see 1927 Manual, page 2314), the Scranton Gas & Water Co. (see 1927 Manual, page 61), Consolidated Water Supply Co. see 1927 Manual, page 1304), Olyphant Water Co., Susquehanna Water Co. and subsidiaries. Prior to its acquisition by the Scranton-Spring Brook Water Service Co., the Scranton Gas & Water Co. acquired the properties of the Hyde Park Gas Co. (see 1927 Manual, page 2430). The subsidiaries of the Olyphant Water Co. acquired were Archbald Water Co., Blakely Water Co., Capouse Water Co., Dickson City Water Co. and Moosic Mountain Water Co. The subsidiaries of Consolidated Water Supply Co. acquired were Carbondale Water Co., Crystal Lake Water Co., Clinton Water Co., Fell Water Co., Fallbrook & Newton Water Co., Jermyn & Rushbrook Water Co., Lackawanna Valley Water Supply Co., Mayfield Water Co., Panther Creek Water Co., Oak Ridge Water Co., Reynshanhurst Water Co., Rock Cliff Water Co., Uniondale Water Co. and Vandling Water Co. All the outstanding obligations of these companies were assumed at the time of acquisition by the Scranton-Spring Brook Water Service Co., which also assumed the $9,200,000 First Mortgage & Refunding 5% Gold bonds, Series "A," due Aug. 1, 1967, issued by the Pennsylvania Water Service Co., and these latter bonds will hereafter be known under the name of the Scranton-Spring Brook Water Service Company.

Business—The properties acquired supply various cities and communities in Pennsylvania with water service and/or manufactured gas service for domestic and industrial purposes, serving an estimated population of about 640,000. The territory comprises a unified district of 64 communities which are practically contiguous and includes the cities of Scranton, Wilkes-Barre, Pittston, Nanticoke, Dunmore, Plymouth and other communities located in the thickly settled and

substantial Lackawanna and Wyoming Valley districts in Pennsylvania.

Property—The combined water property will constitute one of the most important gravity systems in the United States. Water is collected from over 300 square miles of well-timbered drainage basins in the hills overlooking the districts served. The mountain streams yield an average of about 200,000,000 gallons a day, which compares with an average daily consumption of about 99,000,000 gallons. The storage and distribution reservoirs have a capacity sufficient to meet over half a year's consumption requirements.

The water collection, transmission and distribution facilities include over 1,230 miles of mains, nearly all of which are of cast iron pipe. As of Dec. 31, 1927, the properties were supplying 116,022 water service connections and affording fire protection with 3,498 hydrants.

The gas property includes over 232 miles of distribution mains through which 31,138 metered gas connections are supplied. The generating plants have an installed daily capacity of 5,400,000 cu. ft., which compares with an average daily gas production of about 2,800,000 cu. ft. The six gas holders have an aggregate reserve capacity of 2,240,000 cu. ft.

CAPITAL STOCK

Authorized, 250,000 shares Common and 300,000 shares $5 and $6 Dividend Series cumulative Pfd., both of no par value; outstanding 100,000 shares Common, 57,925 shares $6 Dividend Series Pfd. and 12,075 shares $5 Dividend Series Pfd. An additional 65,375 shares of Pfd. stock may be issued against property values as of March 31, 1928 under an earnings restriction incorporated in the proceedings authorizing the Pfd. stock. Proceeds from such additional stock shall first be applied toward the retirement of the $5,000,000 4½% Serial Gold notes, described below. All the Common and all the $6 Dividend Series Pfd. are owned by Pennsylvania Water Service Co. It is intended that later an opportunity will be given to holders of the outstanding $6 Pfd. stock of Pennsylvania Water Service Co. to exchange share for share for the Pfd. stock of Scranton-Spring Brook Water Service Co., owned by Pennsylvania Water Service Co.

CHESTER WATER SERVICE COMPANY

(Controlled by Federal Water Service Corporation)

History—Incorporated April 6, 1885, in Pennsylvania. Company is the successor to The New Chester Water Co. (see 1927 Manual, page 205). Owns the entire capital stock of Delaware Water Supply Co. Supplies water to Chester, Upper Chichester, Lower Chichester, Marcus Hook, Upland, Trainer and Parkside, and other communities suburban to Philadelphia, Pa., serving a population in excess of 95,000.

The water is taken from the Delaware River, and after settling, chlorinating and aerating, is delivered to consumers at the average rate of 6,000,000 gallons daily by electric and steam driven pumps having an effective daily capacity of 20,000,000 gallons. The total reservoir capacity is 16,000,000 gallons. The distribution and transmission systems total 138.2 miles of mains, through which 89,800 consumers and 547 fire hydrants are supplied. Over 90% of the mains are cast iron pipe.

CAPITAL STOCK

Authorized, 50,000 shares Common of no par value and $2,000,000 6% cumulative Pfd., par $100; outstanding, 50,000 shares Common and $750,000 Pfd. In Sept., 1927, Company was authorized by the Illinois Commerce Commission to convert 7,500 shares of its Common stock, par $100, into 7,500 shares of Pfd. stock, par $100, and to convert 10,000 shares of its Common stock, par $100, into 50,000 shares of its Common stock of no par value. Subsequent to this approval the authorized Pfd. stock was increased as above.

Preferred Stock Provisions—Has preference for assets and dividends over Common and upon any dissolution or liquidation is entitled to $100 per share and accrued dividends, plus a premium of $5 per share if such dissolution or liquidation be voluntary, before any distribution may be made to the Common. Pfd. stock is subject to call, as a whole or in part, on 30 days' notice, at $105 and accrued dividends. No additional Pfd. stock may be issued unless consolidated net earnings for any twelve consecutive calendar months within the fifteen calendar months next preceding are at least two times the annual dividend requirements on all Pfd. stock outstanding, including any additional shares then to be issued. Holders of Pfd. stock are entitled to vote equally with the Common, share and share alike.

Transfer Agent—Lawyers Trust Company, New York.

Legal Opinion—White & Case (for the Bankers) and Ryan, Condon & Livingston (for the Company).

Tax Provisions—Free from present Normal Federal Income tax and from personal property taxes in Illinois. Corporation agrees to refund out of surplus the Pennsylvania 4 mills tax (not exceeding 40c. per share) and the Massachusetts income tax not exceeding 6% per annum of the dividends paid upon the Pfd. stock, upon written application within 60 days after payment.

Original Offering—First publicly offered ($750,000 Pfd.) in Sept., 1927, at 94 and dividend to yield 6.35% by G. L. Ohrstrom & Co., Inc., New York, etc. and Curtis, Stephenson & Co., Inc., Boston.

Dividends—Pfd. dividends payable quarterly, M, J, S & D 1.

FUNDED DEBT

$2,500,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE JANUARY 1, 1952

Dated January 1, 1927.

Interest Payable January and July 1, at The New York Trust Co., New York.

Denominations—Coupon, $500 and $1,000 (interchangeable); principal may be registered.

Trustee—The New York Trust Co., New York.

Provisions of Issue—Authorized amount unlimited, except by indenture restrictions. Issued and outstanding, $2,500,000 Series "A" 5s. The proceeds of these bonds were used to retire the funded indebtedness of the merged companies (see below) and for other corporate purposes.

Additional bonds may be issued for not in excess of 80% of the cost or fair value, whichever is lower, of the permanent improvements, extensions or additions to the properties, provided the net earnings of the company as defined in the indenture, for 12 consecutive calendar months within 15 calendar months immediately prior to the issuance of such new bonds, have been at least 1¾ times the annual interest charges on all bonds outstanding including those proposed to be issued.

Callability—Subject to call as a whole or in part, on any interest date upon 60 days' notice to and including Jan. 1, 1930 at 105; thereafter, to and including Jan. 1, 1935 at 103; thereafter, to and including Jan. 1, 1941 at 102; thereafter, to and including Jan. 1, 1951 at 101: and thereafter at par; together with accrued interest in each case.

In event that any municipal corporation or other governmental subdivision shall acquire all or the major portion in value of any separate system of water works properties of the Company, and shall assume payment of principal and interest of these bonds, all liability and obligation of the Company upon such bonds shall forthwith cease, and in event that payment of principal and interest of such bonds shall not be so assumed, then bonds in principal amount not exceeding the price paid for the property so acquired, may be declared due and payable at 100 and interest, or the funds payable upon such acquisition may be used for the purchase of additional properties as provided in the Indenture.

Maintenance and Improvement Fund—Company covenants to establish a maintenance and improvement fund equal to 9% of the gross earnings derived from the mortgaged properties, which fund may be expended for maintenance of and improvements, additions, and extensions to the properties, although no bonds may be issued against such improvements, additions, or extensions.

Security—These bonds constitute the only funded indebtedness of the Company and are secured by a direct first mortgage on all physical properties of the Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. The Minnesota 4 mills tax and the Michigan 5 mills tax refunded.

Original Offering—First publicly offered ($1,700,000 Series "A," 5s) in Jan., 1927 at 95 and interest to yield over 5.35%, by G. L. Ohrstrom & Co., Inc., New York. $560,000 of bonds were offered and privately sold in July, 1927, by the same bankers.

Price Range—1927: High bid, 94¾; low bid, 91½.

BONDS REDEEMED OR PROVIDED FOR

All the outstanding Sterling Water Company First Mortgage 6% Gold bonds, due July 1, 1945, were called for payment on July 1, 1927 at 102 and interest at Boston Safe Deposit & Trust Co., Boston, Trustee. The Streator Aqueduct Co. First Mortgage 6s, due June 1, 1939, were called for redemption on June 1, 1927 at 105 and interest at Continental Trust & Savings Bank, Chicago, Trustee. The Champaign and Urbana Water Co. First Mortgage 5s, due July 1, 1932 (described on page 536 of the 1926 Public Utility Manual) are not subject to call, but funds equal to the principal amount and interest to date of maturity have been deposited with the Atlantic National Bank, Boston, Trustee, for their payment.

CAPITAL STOCK

Authorized, 12,000 shares Common and 30,000 shares $6 cumulative Pfd., both of no par value; outstanding, April, 1928, 12,000 shares Common and 11,500 shares Pfd. All the Common stock is owned by the Federal Water Service Corp.

Stock Increases—In March, 1927, authorized Pfd. stock was increased from 15,000 to 30,000 shares and changed from 6%-$100 par value to no par value with dividend rate of $6 per annum. On April 16, 1927, authorized Common stock was increased from 10,000 to 12,000 shares of no par value.

Preferred Stock Provisions—Has Preference as to assets and dividends, being entitled to cumulative dividends at the rate of $6 per share per annum; is subject to call in whole or in part at the option of the Company upon at least 30 days' notice at 105 and accrued dividend; and upon dissolution or liquidation is entitled to receive up to $100 per share and accrued dividends, plus a premium of $5 per share if such dissolution or liquidation is voluntary, before any distribution is made to holders of Common stock.

Additional Pfd. stock cannot be issued unless the net consolidated income of Company for 12 consecutive calendar months within the 15 calendar months immediately preceding the date of issue, is equal to at least twice the annual dividend requirements on all Pfd. stock outstanding, including any additional shares to be issued. The Company may not issue stock having priority over the Pfd. stock as to dividends or assets, amend the provisions of the Pfd. stock so as to affect adversely the rights of the holders, or increase the number of shares of Pfd. stock authorized to be issued, without the consent of at least two-thirds of the Pfd. stock.

In the event the dividends on the Pfd. stock are in arrears and unpaid for eight quarterly periods, the Pfd. stockholders have equal voting power with the Common stock, and in addition have the right to elect a majority of the Board of Directors, as long as any such default may continue.

Transfer Agents—Bankers Trust Co., New York and Kanawha Banking & Trust Co., Charleston, W. Va.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania and Connecticut 4 mills taxes and Massachusetts Income Tax not to exceed 6%, refunded.

Annual Meeting—Second Wednesday in June.

Dividends—Pfd. dividends are payable quarterly J, A, J & O 1.

FUNDED DEBT

$3,300,000 FIRST MORTGAGE 5% GOLD BONDS, SERIES "A"; DUE AUGUST 1, 1951

Dated August 1, 1926.

Interest Payable February and August 1, at The Equitable Trust Co. of New York City.

Denominations—Coupon, $500 and $1,000 (interchangeable denominations); principal may be registered.

Trustee—The Equitable Trust Co. of New York.

Provisions of Issue—Open mortgage. Outstanding April, 1928, $3,300,000 Series "A" 5s.

Mortgage provides that additional bonds may be issued thereunder for not in excess of 80% of the cost or fair value, whichever is lower, of permanent improvements, extensions or additions to properties provided net earnings of Company, as defined in mortgage, for 12 consecutive calendar months within 15 calendar months immediately prior to issuance of such new bonds, have been at least 1¾ times interest charges on all bonds outstanding and those proposed to be issued.

Purpose of Issue—Proceeds of sale of these bonds were used to retire all funded indebtedness against properties outstanding in hands of public and to reimburse Company in part for necessary improvements betterments and extensions to properties and for other corporate purposes.

Callability—Subject to call in whole or in part, on any interest payment date, upon 60 days' notice, to and including Aug. 1, 1929, at 105; thereafter, to and including Aug. 1, 1934 at 103; thereafter to and including Aug. 1, 1940, at 102; thereafter, to and including Aug. 1, 1950, at 101; thereafter, at par; plus accrued interest in each case.

In event that any municipal corporation or other governmental subdivision shall acquire all or the major portion in value of any separate system of water works properties of the Company, and shall assume payment of principal and interest of these bonds, all liability and obligation of the Company upon such bonds shall forthwith cease, and in event that payment of principal and interest of such bonds shall not be so assumed, then bonds in principal amount not exceeding the price paid for the property so acquired, may be declared due and payable at 100 and interest, or the funds payable upon such acquisition may be used for the purchase of additional properties as provided in the Indenture.

Maintenance and Improvement Fund—The Company covenants, commencing with year 1927, to establish a maintenance and improvement fund equal to 9% of annual gross earnings of Company derived from mortgaged properties. This fund may be expended for improvements, additions and extensions to and maintenance of properties, but no bonds may be issued against such improvements, additions and extensions.

Security—These bonds constitute the only funded indebtedness of the Company and are secured by a direct first mortgage on all physical properties of the Company.

Tax Provisions—Company pays Normal Federal Income tax up to 2% and refunds upon proper application Pennsylvania, Connecticut, Minnesota, Kansas and California taxes, not to exceed 4 mills, Maryland tax not to exceed 4½ mills, Kentucky, West Virginia, Michigan and District of Columbia taxes not to exceed 5 mills, Virginia tax not to exceed 5½ mills, and Massachusetts Income Tax not to exceed 6%.

Legal Opinion—White & Case, New York.

Original Offering—First publicly offered ($2,250,000, Series "A") in October, 1926, at 92 and interest to yield over 5.60%, by G. L. Ohrstrom & Co., New York. $350,000 additional Series "A" 5s sold privately by the same bankers in March, 1927.

CALIFORNIA WATER SERVICE COMPANY

(Controlled by Federal Water Service Corporation)

History and Property—Incorporated Dec. 20, 1926, in Cal. Since organization, Company has acquired and merged the Bakersfield Water Co., Visalia City Water Co. (see 1926 Manual, page 596), Hermosa-Redondo Water Co. (see 1926 Manual, page 563), Fresno City Water Corp. (see 1926 Manual, page 921), Port Costa Water Co. (see 1926 Manual, page 630), Petaluma Water & Power Co., Tuxedo Water Co. of Stockton, Belvedere Water Corp. (see 1927 Manual, page 434) and plants supplying water service to other towns.

Company owns and operates properties supplying water service without competition, for domestic, commercial and industrial purposes in numerous cities and communities in California. The aggregate population of the territory served is estimated at over 300,000. The major part of the population served is located in the central section of California which comprises the Sacramento and San Joaquin River Valleys, and includes the following cities and communities: Fresno, Stockton, Visalia, Bakersfield, Oroville, Chico, Redding, Petaluma, Willows, Dixon, Martinez, Port Costa, Crockett, Concord, Livermore, Belvedere, Redondo Beach and Hermosa Beach. The water supplies are derived principally from systems of driven wells. The total installed pumping capacity is approximately 150,000,000 gallons per day, which compares with an average daily consumption of about 55,000,000 gallons. The total storage capacity is about 105,000,000 gallons, which is maintained for reserve and pressure equalizing purposes. The distribution and transmission systems as of Jan. 1, 1928, consisted of over 980 miles of mains with 74,193 service connections, and afford fire protection with 3,552 hydrants.

Denominations—Coupon, $500 and $1,000 (interchangeable); principal may be registered.

Trustee—Bankers Trust Co., New York, N. Y.

Provisions of Issue—Authorized amount, unlimited. Issued, $1,000,000 5s, Series of 1942. Additional bonds may be issued in amount not exceeding 80% of the amount of additional bonds pledged under this Indenture. Such pledged bonds shall be secured by a direct mortgage on the properties of water producing and/or water distributing companies in the United States, whose net earnings, as defined in the Indenture, are at least 1¾ times interest charges on the outstanding bonds of the issue so pledged and of all issues senior thereto, if any. No additional bonds may be issued under this Indenture against a pledge of any bonds secured by a closed mortgage, unless the appraised value of the physical property of such company is at least equal to 125% of the principal amount of all bonds of the issue so pledged and of all issues senior thereto, if any. Nor may any bonds secured by other than a closed mortgage be so pledged unless such mortgage restricts the issue of additional bonds to 80% of the cash cost or fair value of additions, extensions and/or improvements.

Provision is made for the substitution of collateral of an equal principal amount, provided the substituted collateral complies with the above requirements. This Indenture also permits the substitution of cash and/or United States governmental obligations. It further provides that if the net earnings (as defined in the Indenture) of any company whose bonds are pledged as collateral shall at any time become less than one and one-half times the interest charges on all bonds of the issue so pledged, and of issues senior thereto, if any, then other collateral complying with the above requirements shall be substituted.

The Indenture also provides that the funded debt of Water Service Companies, Inc., may at no time exceed five times the amount of its unimpaired paid in capital stock and/or surplus.

Callability—Subject to call on any interest date upon 40 days' notice, to and including Sept. 1, 1932, at 103 and interest; thereafter, to and including Sept. 1, 1937, at 102 and interest; thereafter, to and including March 1, 1942, at 101 and interest; thereafter, at 100 and interest.

Security—A direct obligation of Water Service Companies, Inc., secured by pledge with the Trustee of $1,-250,000 principal amount of mortgage bonds of companies which supply water for domestic and industrial purposes, such mortgage bonds being secured by a direct mortgage on properties located in the United States.

Guaranty—Guaranteed unconditionally, principal and interest, by Federal Water Service Corp.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Certain Pennsylvania, Connecticut, Kansas, California and Minnesota taxes not to exceed 4 mills, Maryland tax not to exceed 4½ mills, Kentucky, Virginia and District of Columbia taxes not to exceed 5 mills, Michigan exemption tax not to exceed 5 mills, and Massachusetts income tax not to exceed 6%, refunded to resident holders upon due application within 60 days after payment.

Legal Opinion—White & Case, New York.

Original Offering—First offered privately ($1,000,000) about Oct. 1, 1927, at 96½ and interest, to yield approximately 5.35%, by G. L. Ohrstrom & Co., Inc., New York.

SOUTHWEST GAS UTILITIES CORPORATION

History—Incorporated April 11, 1928 in Delaware; a consolidation of 15 natural gas companies, operating 32 distributing and pipe line systems serving 32 communities in the States of Oklahoma, Texas and Louisiana. Principal among its subsidiaries are the Southwest Gas Company, Northwest Louisiana Gas Company, Inc. and Peoples Gas & Fuel Company. The consolidated properties including those of subsidiaries constitute one of the larger natural gas systems of the country.

In Oklahoma, the cities of Ada, Seminole, Earlsboro and others are served. The Corporation has a large number of industrial consumers. The Louisiana system serves practically all the communities of any size in the northern part of the State. A substantial part of the gas requirements of Shreveport is served through a contract with the Palmer Corporation. Other cities served include Ruston, Homer, Haynesville, Farmerville, Choudrant, Athens, Arcadia and Gibsland. The system supplies gas in wholesale quantities and in part through contracts to industrial consumers. In Texas a large number of communities are served including Dublin, Stephenville, Comanche, DeLeon, Rising Star, Cross Plains, Pioneer, Cuero, Yoakum and Gonzales.

The properties of the subsidiaries of Corporation include leaseholds and gas purchase contracts covering more than 50,000 acres of land of which more than 20,000 acres are directly owned by such subsidiaries. There are over 1,000 miles of transmission and distribution lines. It is estimated that the natural gas resources available from the Oklahoma properties and from the development of resources in other territories tributary to the present pipe lines, will in the opinion of geologists, meet the requirements of the present markets in the Oklahoma territory for at least 15 years. The gas resources of the Louisiana and Texas properties have been investigated by independent engineers and in their opinion are more than adequate to meet the requirements of these properties during the life of Company bonds which mature in 1943.

The gas sales of the system in 1927 amounted to over 14,000,000,000 cubic feet.

CAPITAL STOCK

Authorized, 1,000,000 shares Common and 150,000 shares cumulative Preferred, both of no par value; outstanding, 100,000 shares Common and 17,500 shares $6.50 Series cumulative Preferred. Of the outstanding Common shares, 75,000 are deposited in a voting trust. Of the authorized, but unissued shares of Common stock, sufficient shares are reserved for delivery upon conversion of the Three-Year Convertible 6% Gold notes of Corporation and of minority interests in subsidiaries, for exercise of stock purchase privileges by holders of bonds of the Corporation and for exercise of existing purchase options. Additional shares of the $6.50 Series Preferred stock are reserved for delivery upon conversion of the Three-Year Convertible 6% Gold notes of Corporation.

FUNDED DEBT

(1)

$1,750,000 FIRST LIEN AND SECURED SINKING FUND GOLD BONDS, 6½% SERIES; DUE MAY 1, 1943.

Dated May 1, 1928.

Interest Payable May and November 1, in New York City.

Common Stock Purchase Privilege—The holder of each $1,000 Bond is entitled, subject to prior redemption of bond, to purchase 10 shares of no par value Common stock of the Corporation at the following prices: To and including May 1, 1929, $20 per share; thereafter, to and including May 1, 1931, $25 per share; thereafter, to and including May 1, 1933, $30 per share; thereafter, to and including May 1, 1935 $35 per share; thereafter, to and including May 1 1937, $45 per share; thereafter, to and including May 1, 1938, $50 per share.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered.

Trustee—Chatham Phenix National Bank & Trust Co., New York.

Provisions of Issue—Authorized issue unlimited; issued, $1,750,000 6½% Series due 1943. The Indenture provides that additional bonds may be issued for a principal amount not in excess of the cash cost or fair value, whichever is lower, of additional securities of subsidiaries and other corporations, acquired by the Corporation, provided that the consolidated net earnings of the Corporation and of its subsidiaries, as defined in the indenture, for 12 consecutive calendar months within the 15 calendar months immediately preceding the date of application for such additional bonds, shall have been at least 2½ times the annual interest charges upon all bonds outstanding under the Indenture, including the bonds then proposed to be issued.

Purpose of Issue—Proceeds of these bonds were to be used to retire bonds of subsidaries, to provide part of the funds with which to make payment for the securities acquired, and for other corporate purposes.

Callability—Subject to call as a whole or in part on any interest date at 105 and interest during the first five years, at 104 and interest during the next five years, at 103 and interest during the next two years, and at 101 and interest thereafter and prior to maturity.

Sinking Fund—The Indenture provides for a sinking fund for these bonds to be paid by the Corporation to the Trustee semi-annually on each May and November 1, beginning Nov. 1, 1928, and ending Nov. 1, 1942, in cash or in such bonds at par, in an amount equal to 1¾% of the greatest aggregate amount of such bonds theretofore issued, whether or not then outstanding; provided, however, that any such sinking fund payment may be reduced by an amount, not exceeding ½% of the greatest aggregate amount of the bonds of this issue theretofore issued whether or not then outstanding; equal to the cash cost or fair value, whichever is lower, of additional securities of subsidiaries and other corporations, acquired by the Corporation. The sinking fund, unless reduced as aforesaid, is calculated to retire over 80% of the bonds of this issue by maturity.

Security—These bonds are the direct obligation of Corporation and will constitute its only funded debt outstanding upon completion of this financing except for $750,000 Three-Year notes. These bonds are secured by pledge of bonds and other obligations and Preferred and Common stocks of subsidiaries whose properties, mortgaged to secure the pledged bonds and other obligations, have a value considerably in excess of the face amount of this financing.

Legal Opinion—Larkin, Rathbone & Perry, New York, in association with Rainey, Flynn, Green & Anderson, Oklahoma City, Okla., as to matters of title in Oklahoma, Texas and Louisiana.

Tax Provisions—Corporation pays Normal Federal Income tax up to 2% and agrees to refund to resident holders, upon proper application, present personal

operty and securities taxes of any State of the United States or of the District of Columbia not to exceed in any case ½%, and Massachusetts income tax not to exceed 6%.

Original Offering—First publicly offered ($1,750,000) in April, 1928, at 99½ and interest to yield 6.55% with common stock purchase privilege, by Edmund Seymour & Co., Inc., Charles D. Robbins & Co., Porter & Co., and Glidden, Morris & Co., New York.

NORTHWEST LOUISIANA GAS COMPANY, INCORPORATED

(Controlled by Southwest Gas Utilities Corp.)

History and Property—Incorporated in 1926, in Delaware, as a consolidation of the business of the Oil Fields Gas Company, Homer Natural Gas Company and other existing properties which have been operated for some years. Company is engaged in the production, transportation, purchase and distribution, both wholesale and retail, of natural gas for public utility and industrial purposes. Controls the Peoples Gas & Fuel Co., Inc. (see statement appended), through ownership of entire capital stock, except directors' qualifying shares, and guarantees the bonds of that Company, both principal and interest.

Company's property includes more than 130 miles of pipe lines in Webster, Bossier and Claiborne Parishes, controlling an area of 2,000 square miles. It controls through fee ownership or lease, the gas rights in more than 5,500 acres of proven and producing gas lands. The main trunk lines tap the Webster Gas Fields, the Bossier Gas Fields and the newly opened Cotton Valley field. In addition the Company owns leases in the Sligo and Waskom fields east and west of Shreveport.

The proven gas area adjacent to the Company's pipe lines, any part of which can be reached by feeder lines of less than 12 miles, is considered one of the largest gas areas in the Southwest, and is estimated to contain a supply of gas sufficient to meet requirements for at least twenty years.

The Company has a daily open flow of about 278,000,000 cubic feet of which it is using only approximately 8%. The future reserves of the Company are estimated to be 72,000,000,000 cubic feet.

Through a contract with the Palmer Corporation, the Company will supply a minimum of 4,000,000,000 cubic feet annually for 5 years, 1928 to 1932, to Shreveport, a city with 72,000 population. In order to obtain this gas supply, the Palmer Corporation invested approximately $600,000 in a pipe line from Shreveport to the Company's gas fields, a distance of 65 miles. Under the terms of the contract with the Palmer Corporation, the Company has acquired 160 acres and drilled a well in the Cotton Valley field in which a wet gas containing a considerable proportion of gasoline has been found. The Palmer Corporation has erected, at its own expense, a casing head gasoline plant for the purpose of stripping the gas which is then available for ordinary commercial use at contract prices. The plant was in operation as of May, 1928. The Northwest Louisiana Gas Company will receive as a royalty 20% to 25% of all gasoline thus extracted. The Company also has a contract through a 50% interest in an associate company to sell gas to the Arkansas Natural Gas Company which distributes to Little Rock, Arkansas, and 13 other communities along its lines. Through its own pipe lines and distribution system, gas is supplied without competition to several towns in Louisiana, East and Northeast of Shreveport, including Minden, Homer, Haynesville, Spring Hill, etc. The Company supplies gas in wholesale quantities, and in part through exclusive contracts, to the Standard Oil Company of Louisiana, the Gulf Refining Company, the Humble Oil and Refining Company, the Atlantic Oil Producing Company, the Phillips Petroleum Company and others. These companies use natural gas to generate power for drilling and pumping oil wells.

The population served by the controlled companies s in excess of 1,900,000, and the number of cities, owns and communities is over 880. The electric roperties include generating plants with an installed apacity of 337,398 k.w., about one-eighth hydro-electric and seven-eighths steam; 2,207 miles of high tension transmission lines, 3,952 miles of distribution ines, and the sales for 1927 were 731,347,110 k.w.h. The gas properties have a twenty-four hour generating apacity of 9,335,000 cubic feet, and sales for 1927 were ,028,110,000 cubic feet. The gas properties have 312 niles of mains and the electric railway properties have 31 miles of track.

The number of customers served at Dec. 31, 1927, vas 224,208 subdivided as follows: Electric, 191,339 as, 28,655; miscellaneous, 4,214—total 224,208.

Of the operating income of the subsidiary companies or 1927, 85% was derived from the sale of electricity or power and light; 9% from gas and miscellaneous ervices and 6% from street railway and bus operations.

The four distinct power systems into which the ubsidiaries of General Gas & Electric Corp. are livided may be briefly described as follows:

The Pennsylvania-New Jersey Power System, comrising Metropolitan Edison Co. (including the former Pennsylvania Edison Co.), New Jersey Power & Light Co. and their associated companies, extends more than 250 miles from the northern boundary of New Jersey near Sussex to within 30 miles of New York City, westward from Dover through the cities of Easton and Reading in the heart of Pennsylvania's rich industrial centre to York and York Haven beyond the Susquehanna River, northwardly to Harrisburg, and southwardly to Gettysburg, Hanover and into Maryland.

The New York-Pennsylvania Power System, consists of the Binghamton Light, Heat & Power Co., and Northern Pennsylvania Power Co., supplying Binghamton, Johnson City, Endicott, Waverly, Chenango, Marathon and Owego together with 52 other communities in the south central portion of New York State and Sayre, Towanda, Montrose, Susquehanna, Galeton, Mansfield and Blossburg and 57 other communities in northern Pennsylvania.

The Broad River Power Co. Power System serves Columbia, the capital of South Carolina, and an extensive surrounding territory.

The Florida Public Service Co. Power System extends 180 miles from Seville on the north to Lake Placid on the south, through the rich trucking and citrus fruit growing belt of Central Florida, serving DeLand, Eustis, Lake Wales, Avon Park and 62 other communities.

These systems have important interconnections with other large power companies.

The following important additions to electric generating capacity were started or completed during 1927:

The Lexington Water Power Co. about Sept. 1, 1927 started construction of a 200,000 h. p. hydro-electric development on the Saluda River, ten miles west of Columbia, S. C. This project, which is expected to take about three years to complete, involves the construction of a dam about a mile and a half long and 208 feet high to create the largest artificial lake in the United States. The lake will be 33 miles long and have a maximum width of 14 miles and a surface area of 76 square miles. An investigation covering a period of several months was made by hydro-electric engineers and, upon receipt of favorable reports, long term contracts for the sale a total of 300,000,000 k. w. h. annually were made by Lexington Water Power Co. with Carolina Power and Light Co, Southern Power Co. (now Duke Power Co.) and Broad River Power Co. General Gas & Electric Corp. has acquired a 70% stock interest in Lexington Water Power Co. A contract was executed for financing the development through the sale of $12,000,000 of First Mortgage 5% bonds and $5,000,000 of 5½% debentures convertible into Pfd. stock. General Gas & Electric Corp. has guaranteed the completion of the initial 130,000 k. w. installation.

A 30,000 k. w. unit increasing the capacity of the main generating station of the Binghamton Light, Heat & Power Co. at Johnson City to 53,000 k. w. was installed.

The initial installation of 15,000 k. w. in the new steam electric generating station of Florida Public Service Co. on Lake Letola, near Avon Park, was practically completed. This station is connected by high tension transmission lines with the Benson Springs station of 12,500 k. w. capacity which was placed in operation during 1926.

On July 29, 1927 General Gas & Electric Corp. sold all of the securities of North Carolina Public Service Co. and the South Carolina Gas & Electric Co., owned by it, to Duke Power Co. and on the same date Broad River Power Co. sold to Wateree Power Co. (the nominee of Duke Power Co.), all property acquired by Broad River Power Co. from Blue Ridge Power Co. and Manufacturers' Power Co. in 1926, and certain other property owned by Broad River Power Co. centering in and about Spartanburg, S. C. Simultaneously with these transactions, Southern Power Co., controlled by Duke Power Co., entered into contracts for the purchase of a portion of the output of the Parr Shoals steam plant of Broad River Power Co.; the purchase of power from Lexington Water Power Co. and the purchase, subject to recapture provisions, of power which Broad River Power Co. had contracted to purchase from Lexington Water Power Co.

METROPOLITAN EDISON COMPANY

(Controlled by General Gas & Electric Corporation)

History—Metropolitan Edison Company was formed under the laws of the Commonwealth of Pennsylvania July 24, 1922, succeeding the company of the same name which was formed Aug. 30, 1917 by a consolidation of the Metropolitan Electric Co. (which had been operating in Reading and vicinity since 1894) The Edison Electric Illuminating Co. of Lebanon, Pa., and The Lebanon Valley Electric Light Co.

During 1926 the Metropolitan Edison Co. merged the following companies, all former subsidiaries: Cumberland Valley Light & Power Co., Gettysburg Electric Co. and Hanover Power Co. in March; York Haven Water & Power Co. in November; and in Feb 1927, the Metropolitan Power Co. was merged. For latest published statements of these companies, see 1926 Public Utility Manual, or apply to our Information Department. On March 1, 1928, Metropolitan Edison Co. acquired all of the property and franchises of its former subsidiary, Pennsylvania Edison Co. (see 1927 Manual, page 2025), which in 1927 acquired the property of Saylorsburg Light and Power Co. (see 1927 Manual, page 2031).

Company supplies electric light and power service in the industrial cities of Reading, Easton, Strouds-

The Metropolitan Edison Co. owns all the Pfd. and ommon stock of Easton Gas Works, which supplies is service in Easton and Phillipsburg, N. J., and the ommon stock of Interurban Gas Co., serving Nazath, Pa.

In April, 1928, Metropolitan Edison Co. acquired ie Common stocks of the Hamburg Gas and Electric o., Topton Electric Light and Power Co., Weisenerg Township Electric Light and Power Co. Birdsboro Electric Co., Ortanna Electric Light and Power o., The French Creek Electric Co., The Boyertown lectric Co., Annville and Palmyra Electric Light Co., ernville Light, Heat & Power Co., Berks-Lehigh lectric Co., and Blue Mountain Electric Co., which e operated as part of its system, being connected to by transmission lines.

The Metropolitan Edison Co. also owns the Comion stocks of Hanover & McSherrystown Street Ry. o., supplying street railway service in those towns; nd the Maryland Public Service Co., supplying elecic power service in northern Maryland.

The Metropolitan Edison Co. also owns $750,000 ar value of Class "B" Pfd. stock of the Reading ransit Co., an affiliated company.

The properties of The Neversink Light, Heat & ower Co. and the Reading Electric Light and Power o. are operated under lease.

All electric properties owned and operated by the Metropolitan Edison Co. are inter-connected by high ension transmission lines. This system has 1,785 iles of transmission and distribution lines, installed enerating capacity of 186,413 k.w., and serves a total stimated population of 800,000.

The systems of Metropolitan Edison Co. and the lew Jersey Power & Light Co., an affiliated comany, are connected by high tension lines, forming he Pennsylvania-New Jersey Power System of the General Gas & Electric Corp. This super-power sysem extends continuously about 250 miles, from northrn Maryland through Pennsylvania and New Jersey o within thirty miles of New York City and to the orthern New Jersey boundary line. The system proides a power reservoir which enables all connected ompanies to supply continuous and practically unimited service, and to operate with maximum efciency and economy.

The Metropolitan Edison Co. has arrangements for nterchanging power with various companies operating in Norristown, Pottstown, Pottsville and Pine Grove, Pa., and supplying such industrial centers as Phoenixville, Coatesville, Schuylkill Haven and Tamaqua, Pa., and also has line connections with the Pennsylvania Power & Light Co., operating in Allentown, Bethlehem and surrounding territory.

The territory directly served by Metropolitan Edison Co., centering in Reading, Easton, Stroudsburg, Lebanon and York, comprises 248 communities, besides 124 large boroughs and towns where power is wholesaled to local distributing companies. Noted chiefly for iron, steel and textile products, the industry of this region is extensive, diversified and long-established, including cement, slate, silk and paper products. The company also supplies practically all power used by the Reading Transit Co.

The company's main power stations are located on the Schuylkill River at West Reading and at Middletown on the Susquehanna River near Harrisburg. These two stations provide 134,000 of company's total generating capacity of 186,413 k.w. All power stations are interconnected, thus making the output of the company's generating plants available for distribution through its entire system. The station at Middletown has a generating capacity of 65,000 k.w. and is designed for an ultimate capacity of 200,000 k.w. The expansion of this station will provide for increases in demands for service in territory served by the Company.

NEW JERSEY POWER & LIGHT COMPANY

(Controlled by General Gas & Electric Corp.)

History and Property—Incorporated Dec. 14, 1915, in New Jersey. Company owns and operates the electric light and power system in the Dover, Bernardsville, Flemington, Lambertville, Newton, Hackettstown, Washington, Phillipsburg, Netcong, Stanhope, Hamburg and Sussex sections of New Jersey. During 1925, the properties formerly operated by the Eastern Pennsylvania Power Company (see 1925 Manual, page 1680), The Blair Electric Company, Raritan Valley Hydro-Electric Company, Warren Wood Working Company, and the electric distribution system of Frenchtown were acquired and consolidated with New Jersey Power & Light Co. The Newton Gas Co. (see 1926 Public Utility Manual, page 1870) and the Washington Gas Co. (see 1925 Public Utility Manual, page 857) were merged in Nov., 1926.

The company supplies electricity for light and power in 212 communities within a radius of 75 miles of Dover, including Dover, Sussex, Newton, Hackettstown, Washington, Phillipsburg, Bernardsville, Flemington, Lambertville, and other important towns. Company also supplies gas in Washington and Newton.

High tension transmission lines radiate from a large substation at West Wharton, N. J., to the various sections and line connections of the system.

High tension transmission lines connect the Dover plant with the power system of the Metropolitan Edison Co. A high tension transmission line connects the lines of the Central Hudson Gas & Electric Co. at the New York State line with which company power is interchanged. A high tension line is being constructed to tie in with Public Service Electric and Gas Company of New Jersey at its substation at Livingston, N. J. The company owns 301 miles of high tension transmission lines and 647 miles of distribution lines.

The population of the territory served is 165,975.

Operating Managers—W. S. Barstow & Company, Incorporated, 50 Pine Street, New York City.

CAPITAL STOCK

Authorized, 150,000 shares Common of no par value and 100,000 shares of cumulative Pfd. of no par value; outstanding Dec. 31, 1927, 75,000 shares Common and 32,584 shares of $6 dividend Pfd. In addition 11 shares of $6 dividend Pfd. were reserved for the previously outstanding shares of 7% Pfd. not exchanged. All the Common shares are owned by General Gas & Electric Corp.

Capital Stock Exchanges—Stockholders at special meeting Nov. 4, 1926 voted to increase the authorized capital stock from 10,000 shares Common and 10,000 shares 7% cumulative Participating Pfd., both of $100 par value, to 150,000 shares Common and 100,000 shares of cumulative Pfd., both of no par value. Holders of the old 7% Pfd. had the choice of taking for each share of their stock one share of the new $6 dividend Pfd. and $16 in cash, or $110 in cash and accrued dividends to date of payment. Holders of old Common stock received 7.188 shares of no par value for each share of $100 par value.

Preferred Stock Provisions—Has preference for assets and dividends over Common and may be issued in one or more series and to bear dividends at such rates not to exceed $8 per share per annum and to be redeemable at such prices that shall be fixed by directors when such series of stock shall be created. The $6 dividend Pfd. stock is entitled to receive cumulative dividends at the rate of $6 per share per annum before dividends shall be declared or paid upon the Common stock. It is subject to call as a whole or in part on any dividend date on 30 days' notice, at $110 per share and accrued dividend, and upon dissolution or liquidation is entitled to receive an amount equal to $100 per share and all accumulated dividends before any payment shall be made to Common stock. Whenever four quarterly dividends on $6 dividend Pfd. shall be in default, holders shall have the exclusive right to vote for such number of directors of Company as shall constitute a majority of the authorized number of directors. This voting right shall cease when all unpaid dividends shall have been paid in full.

Transfer Agent—The Seaboard National Bank of the City of New York.

Registrar—Guaranty Trust Co., of New York, N. Y.

Legal Opinion ($6 Dividend Pfd.)—Pendleton, Anderson, Iselin & Riggs, New York, (for the Company) and, Davisson & Manice, New York, (for the Bankers).

Original Offering—Pynchon & Co., New York, in Dec., 1926, offered the unsubscribed portion of 25,000 shares of $6 dividend Pfd. stock at $94 per share and accrued dividend to yield about 6.38%.

Annual Meeting—First Tuesday in February, at Dover, N. J.

READING TRANSIT COMPANY

(Controlled by General Gas & Electric Corporation)

History—The Reading Transit Company was incorporated as the Reading Transit & Light Company by merger under the laws of Pennsylvania in August, 1917; name changed to present title in 1924. It owns the entire capital stock of the Oley Valley Railway Company and operates this property in conjunction with its own system in and about the city of Reading. It also owns all the capital stock of the Reading Transit Bus Company, operating in and near Reading, and of the Neversink Mountain Railway Company.

The Reading Transit Company also operates under favorable long term leases with options to purchase seventeen other companies hereinafter described. Among these are the Northeastern Street Railway Company of Reading, which three-mile line, financed entirely by residents of territory served, extends service into a populous and growing residential section and forms an important addition to the system.

Electric power for operation of the lines is furnished by the Metropolitan Edison Company.

The system comprises about 189 miles of electric railways in the cities of Reading, Lebanon, Pottstown, Norristown and suburbs of Philadelphia, and their surrounding territories in Berks, Lebanon, Montgomery and Philadelphia Counties, Pa. The system connects at Chestnut Hill with the Philadelphia street railway system and has connections at other points with the Lancaster, Harrisburg and Allentown transit systems. The connecting lines, besides bringing about an interchange of passenger traffic, make it possible for the company to carry on an electric express business throughout this section of Eastern Pennsylvania.

The population of the territory served, including 83 communities, is estimated at 425,000, not including Philadelphia. Reading is the center of the system and has a population, with its suburbs, of 135,000.

Operating Managers—W. S. Barstow & Company, Incorporated, 50 Pine St., New York City.

NORTHERN PENNSYLVANIA POWER COMPANY

(Controlled by General Gas & Electric Corporation)

History—Incorporated as The Towanda Gas & Electric Company by merger under the laws of Pennsylvania in Jan., 1921; name changed to present title in 1925. The Susquehana County Light & Power Co., the Sayre Electric Co. and the North Penn Power Co. were merged with Northern Pennsylvania Power Co. in 1926. For latest published statements of these companies see 1926 Public Utility Manual, pages 1877, etc.

The Nicholson Light, Heat & Power Company was merged with Northern Pennsylvania Power Company in 1927 (see 1927 Public Utility Manual, page 2044). The electric property of the Ralston Water and Water Power Co., at Ralston, Pa., was acquired in 1927, expanding the territory in Lycoming County to within a few miles of Williamsport.

Supplies electric light and power service in Bradford, Tioga and Susquehanna Counties and a portion of Potter County, Pa., serving the towns of Towanda, Monroe, Susquehanna, Blossburg, Covington, Mansfield, Tioga, Lawrenceville, Troy, Canton, Knoxville, Westfield, Galeton, Oakland, Lanesboro, Great Bend, Halstead, New Milford, Montrose, South Montrose, Liberty, Brooklyn, Sayre, Athens, and South Waverly, Pa., and in Waverly N. Y. through the **Waverly Electric Light and Power Company.** Service is also extended into Ridgebury Athens, Litchfield, Windham, Warren, Smithfield, Ulster and Sheshequin townships and franchises are held by the Company to extend service into twelve additional townships in Bradford County. The towns served form a group which is the business center for the surrounding territory. Important railroad shops are located at Susquehanna and Sayre. Silk mills, creameries and condensaries, foundries, sand and gravel quarries, coal mines and lumber and wood working industries are served.

The company furnishes gas service in Towanda, and sells coke and coal tar as by-products of gas manufacture. Capacity of the gas plant is 50,000 cu. ft. daily. It has 7 miles of mains. Exhaust steam from the electric generating station is utilized to provide steam heating service in Towanda.

A high tension transmission line connection with the Binghamton Light, Heat & Power Co. furnishes the company with an ample supply of power. In addition the company operates several small steam and hydro-electric generating stations with total generating capacity of 3,480 k.w.

The electric system of the company includes 2 miles of high tension transmission lines and 351 mil of distribution lines.

The population of the territory served is estimat at 78,685.

LEXINGTON WATER POWER COMPANY

(Controlled by General Gas & Electric Corporation)

History—Incorporated in July, 1903, under the laws of South Carolina to develop and operate hydro-electric power plants.

The Company started construction in 1927 of a hydro-electric power development on the Saluda River, ten miles west of Columbia, S. C., the capital of the state, which upon completion will be one of the largest in this country. It is expected to be completed about September 1, 1930. This project involves the construction of a dam by the semi-hydraulic fill method impounding the waters of the Saluda River. The dam will have the largest cubical content of any dam in the country and the lake will be the largest created artificially in the United States.

The dam will be about a mile and a half long with a maximum height of 208 feet and a maximum width at the base of approximately a quarter of a mile. It will require 11,000,000 cubic yards of earth fill for construction.

The lake will be 33 miles long and will have a maximum width of 14 miles. The available storage capacity thus created will be sufficient to supply 2 mills with 500 k.w. each operating 24 hours a day, 6 days a week, over a period of six months of complete drought.

Conduits will extend through the base of the dam to a power house which, from the standpoint of average firm kilowatt hour output, will be exceeded by no hydro-electric generating station in America, except that of the Niagara Falls Power Company at Niagara Falls. The original installation will consist of four units of 32,500 k.w. maximum rating each and provision will be made for future installation of units which will bring the ultimate aggregate capacity of the development to 200,000 k.w.

The output of the Company will be distributed principally in South Carolina and North Carolina through the extensive transmission and distribution systems of the companies which have contracted for the purchase of the power. Long term power contracts have been consummated with the Carolina Power & Light Company, Southern Power Company (now Duke Power Company) and Broad River Power Company under which these companies will purchase annually a minimum of 300,000,000 k.w.h. The remaining output, if any, will be taken by Broad River Power Company.

Management—W. S. Barstow & Company, Incorporated, has contracted for the construction and financing and will supervise the operation of this hydro-electric development.

FLORIDA PUBLIC SERVICE COMPANY

(Controlled by General Gas & Electric Corp.)

History—Incorporated May 20, 1908, in Florida, as the De Land Electric, Power & Ice Co., and in Feb. 1924, acquired the properties of The Eustis Light & Water Co. (see 1923 Public Utility Manual, page 2682), The Orlando Public Service Co., Orlando Gas Co. (see 1923 Public Utility Manual, page 141), and The Florida Ice & Power Co. In 1927 the municipal electric distribution and water works system of Winter Park and an ice manufacturing plant at Winter Garden were acquired.

The Florida Public Service Company supplies electric light and power service to a section of Florida extending 180 miles from Seville on the north to Lake Placid on the south, and including DeLand, Eustis, Lake Wales, Avon Park and their suburbs. It serves also at Winter Park, Haines City, Tavares, Orange City, Babson Park, Davenport, Frostproof, Tangerine, Ocoee, Oakland, Clermont, Groveland, Umatilla, Bowling Green, Mount Dora, and many other important towns.

The company supplies gas service in Orlando and Winter Park, and furnishes water service at Avon Park, Lake Wales, Eustis, Tavares, Winter Park, Zolfo Springs and Apopka, and ice service is supplied in Orlando, DeLand, Haines City, Lake Wales, Avon Park, Winter Garden, Winter Park, and surrounding towns.

The total population of the territory supplied with electric service is estimated at 88,700, with gas service at 30,000, with water service at 15,000 and with ice service at 50,000.

The entire territory is in the most important fruit and truck growing and industrial section of Florida. Its packing houses, phosphate mines, saw mills, fertilizer plants, railroad repair shops, woodworking plants, foundries and canning factories are large power consumers. The demand for lighting service is greatly increased during the tourist season.

Plants—Electric power is generated by steam plants. Ice plants and pumps for water service are electrically operated in connection with the power stations.

To provide additional power required by development of the territory served, the Company completed early in 1928 a new 15,000 k.w. steam power station in the southern part of the territory, near Avon Park. The St. Johns River station on Lake Monroe, opposite Sanford, with 12,500 k.w. capacity, was built the previous year. These stations are advantageously located with respect to fuel and water supply and are each designed for an ultimate capacity of 100,000 k.w.

In addition to these modern power stations the Company has several smaller generating plants. It has high tension transmission line interconnection with the Tampa Electric Company and the Florida Power Corp.

The gas plant at Orlando has a daily generating capacity of 3,800,000 cu. ft., having been more than doubled in 1926. Four gas holders give the company 400,000 cu. ft. low pressure and 100,000 cu. ft. high

essure storage capacity and it has 89 miles of gas ins.

The water tower at Lake Wales has a capacity of ,000 gallons; Avon Park, 50,000 gallons; Eustis, 50,- gallons. Apopka, 67,000 gallons; Winter Park, 0,000 gallons; Zolfo Springs, 5,000 gallons, and Ta- res, 50,000 gallons.

The ice plants, located at Orlando, Haines City, inter Garden Winter Park, Lake Wales, Avon Park d DeLand, have a total daily capacity of 365 tons.

Lines—The company has 374 miles of high tension nsmission lines and 706 miles of distribution lines. igh tension lines connect the entire system with the John's River power station and the Avon Park ation.

THE LORAIN STREET RAILROAD COMPANY

(Controlled by Lake Shore Electric Ry. Co.)

History—Incorporated Aug. 3, 1906, in Ohio, and purchased the property and assets of the Lorain Street Ry. Co. and the Avon Beach & Southern RR. Co. In 1923, Company purchased what was known as The Oberlin Ave. Belt Line in the City of Lorain. Owns and operates about 20 miles of street railway track in Lorain and interurban line between Lorain and Elyria, forming a division of the Lake Shore Electric Railway System, by which the Company is controlled through stock ownership. Gauge, 4 ft. 8½ in. Equipment owned consists of 25 passenger cars and 2 work cars. Franchise in Lorain was renewed in 1918 for a period of 25 years.

Operating Statistics, year ended Dec. 31, 1927—Car miles, 983,668; income per car mile, 34.55 cents; operating expenses and taxes per car mile, 30.27 cents; net earnings per car mile, 4.28 cents. Passengers carried in years: 1924, 3,773,619; 1925, 4,234,165; 1926, 4,952,470.

Jitney Bus Competition Eliminated—Ordinances passed in 1923 by the City of Lorain, which prohibited the operation of jitney buses on certain streets on which street railway service was being rendered were held valid by the Supreme Court of the State and the buses were ordered off the streets on July 6, 1925. Subsequently The Lorain Motor Coach Co. was organized and initiated a ten-year motor bus ordinance giving the Company the right to operate bus lines, paralleling the operations of The Lorain Street Railway Co. This ordinance was placed before the voters of the city at the Nov., 1925, election, and defeated. The elimination of jitney bus competition has materially increased the earnings of the Company.

Sinking Fund—A sinking fund is established providing for payments upon amount of Series "A" bonds at the time outstanding as follows: 1% per annum for the years 1927 to 1930, incl.; 1½% per annum for the years 1931 to 1935, incl., and 2% per annum for the years 1936 to 1945, incl., such amounts to be used for the retirement of bonds issued.

The Company will be entitled to a credit against the foregoing amounts for (a) 80% of any sums expended by any subsidiary, all of whose voting stock, except directors' qualifying shares, is deposited, for additions, extensions, betterments, improvements or acquisitions on account of which the subsidiary company would be entitled to the authentication of bonds but against which no bonds shall be issued; (b) any moneys except moneys realized from the release of property applied by any subsidiary to the redemption of bonds or secured obligations outstanding with the public and against which no securities unless pledged under the lien of the Trust Indenture are issued. In the case of a subsidiary only a part of whose voting stock is owned and pledged under the Trust Indenture the amount of the credit hereunder shall be 80% of that proportion which the stock owned and pledged bears to the whole of the outstanding stock; (c) any moneys received by the Trustee through the operation of any sinking fund in connection with any securities pledged under the Trust Indenture.

All sums received by the Trustee through the redemption of any securities deposited under the Trust Indenture shall be applied by the Trustee to the redemption of bonds issued thereunder. No funds received by the Trustee through the redemption of bonds under any maintenance or depreciation reserve account of any subsidiary company shall be included in the credit to the sinking fund but such sums shall be applied by the Trustee to the redemption of bonds issued under the Trust Indenture.

Security—These bonds are secured by deposit and pledge with the Trustee of all of the outstanding First Mortgage bonds (aggregating in excess of $3,128,500 in principal amount and constituting the sole funded debt of the issuing companies) and all of the capital stock except directors' qualifying shares now issued of seven subsidiary companies, the Louisiana Public Utilities Co., Inc., the Arkansas General Utilities Co., the Missouri General Utilities Co., the Texas General Utilities Co., the Kentucky Service Co., the Panhandle Public Service Co. and The Tucumcari Light & Power Co.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania Personal Property Tax not exceeding four mills refunded. In addition certain taxes in Maine, Massachusetts, Connecticut Maryland and District of Columbia, will be refunded.

Legal Opinion—Rawle & Henderson, and Townsend, Elliott & Munson, Philadelphia.

History and Properties—Incorporated Oct. 10, 1905, California, to acquire the capital stocks of the San ncisco Gas & Electric Co. and the California Gas lectric Corporation. Subsequently, the entire $45,-,000 capital stock of the latter company, having n acquired, its properties were merged into the ific Gas & Electric Co. (which is essentially an op- ting company). With the exception of properties ed from the Sierra & San Francisco Power Co. Yuba River Power Co. and of the properties of Mt. Shasta Power Corp. and California Telephone ight Co., all of whose capital stock is owned by pany, the Pacific Gas & Electric Co. now owns, bsolute fee, all the properties which it operates, uding the properties formerly owned by the Fresno & Electric Co., the Vallejo Gas Co., the Califor- Central Gas & Electric Co., the South Yuba Water Central California Electric Co., Surburban Light ower Co., Los Gatos Ice, Gas & Electric Co., th San Francisco Light & Power Co., Livermore ter & Power Co., United Water & Power Co., tra Costa Electric Light & Power Co., Live Oak ncinal Light & Power Co., Sebastopol Light & ver Co., and the distributing system of E. D. N. e, D. C. Gillen, Redwood Manufacturing Co., nard Pryor and West Sacramento Electric Co. Nov. 27, 1911, acquired all of the properties and ts of San Francisco Gas & Electric Co. (see Man- for 1911, page 2195), and in March, 1917, all of public utility properties of The Oro Electric Cor- ation (see Manual for 1916, page 4469).

Dec., 1911, the Pacific Gas & Electric Co. ac- ed control of the Metropolitan Gas Corp. of San Francisco, which was successor, by change of name, to the San Francisco Coke & Gas Co.

In April, 1917, acquired stock of Mt. Shasta Power Co., in July, 1919, purchased properties of Durham Light & Power Co., in Oct., 1919, the capital stock and properties of the Northern California Power Co., Consolidated and in 1920 the properties of California Power & Manufacturing Co.

As of March 1, 1922, the Great Western Power Co. purchased the properties of Universal Electric & Gas Co. operating in San Francisco, the Pacific Gas & Electric Co. later acquiring a one-half interest in the properties. The earnings of these Universal properties, subsequent to their acquisition are merged in those of the purchasers (for latest published statement see 1923 Public Utility Manual, page 2279).

In April, 1923, acquired ownership of the California Telephone & Light Co. and now owns all of its outstanding capital stocks.

In Feb., 1924, purchased the entire properties of Amador Electric Light & Power Co. (see 1923 Public Utility Manual, page 786), the Sutter & Amador Water Co. and Ione Water Co.

As of March 12, 1926, acquired Sacramento Gas Co. (see 1926 Public Utility Manual, pages 1266 and 2393), furnishing gas in Sacramento and Lodi, Cal., and the properties have since been merged with those of the parent company. The outstanding funded debt was called for payment on Oct. 1, 1926.

In 1926 Company also purchased the electric distribution systems of the following companies: Middle Yuba Electric Power Co., as of Feb. 10, 1926; Peters Brothers and Towle Brothers Co., April 1, 1926; Bell

Electric Co., August 3, 1926 and Lake County Water & Power Co., Nov. 19, 1926. Also purchased the municipal gas system of the town of Santa Clara, Cal., as of Dec. 27, 1926.

On May 1, 1927 acquired from the Standard Gas & Electric Company its holdings of the entire outstanding stock of the Sierra & San Francisco Power Company (see appended statement) and Del Monte Light & Power Co.; and a controlling stock interest in the Western States Gas & Electric Co. of Delaware, Western States Gas & Electric Company (of California) and Coast Valleys Gas & Electric Co. (see appended statements). The stock interest acquired from the Standard Company in each instance was as follows: Sierra & San Francisco Power Company, entire outstanding issue of $20,000,000 capital stock; Western States Gas & Electric Co. of California, $751,500 Common stock; Western States Gas & Electric Co. of Delaware, $3,253,200 Common stock; Coast Valleys Gas & Electric Co., entire outstanding issue of $3,000,000 Common stock; Del Monte Light & Power Co., entire outstanding issue of $25,000 capital stock. In addition, the Pacific Company also acquired certain power projects on the Feather River, California, capable of developing approximately 350,000 horsepower hydro-electric energy, upon which approximately $500,000 had been expended.

The consideration for the stocks and properties above enumerated was the issuance to the Standard Gas & Electric Company of $6,500,000 of the Pacific Company's Common stock and a cash payment of $2,085,000.

Company plans, in addition to the physical merger of the properties of the Western States and Coast Valleys Companies, the ultimate liquidation and dissolution of these companies, and has called for redemption the entire outstanding bonded debt of these companies. As of April 1, 1928 the Pacific Company owned or controlled, either directly or through its holdings of 95% of the capital stock of the Western States Gas & Electric Co. of Delaware, more than 96% of the outstanding stock of the Western States Gas & Electric Co. of California, and 92% of that of the Coast Valleys Gas & Electric Co.

On October 1, 1927 the entire outstanding capital stock of the Vacaville Water & Power Company was acquired through issuance in exchange therefor of $175,000 Pacific Gas & Electric Co. 6% Pfd. stock.

In April, 1928, purchased the electric properties of the Tuolumne County Electric Power & Light Co.

Sale of Telephone and Water Properties—Company on February 1, 1927 sold to the Sacramento Valley Telephone Co. the telephone system acquired in connection with the purchase of California Telephone & Light Co.; and on April 25, 1927 sold to C. B. Jackson its water distribution systems in Stockton, Redding, Willows, Livermore, Dixon and Oroville. The combined revenues of these properties was equivalent to about 1% of Company's gross income.

The Pacific Gas & Electric Co. leases and operates the hydro-electric property of The Yuba River Power Co. (see statement appended).

Melones Dam Hydro-Electric Power Development—For the use of hydro-electric facilities created by the Melones Dam, the Pacific Gas & Electric Company and the Sierra & San Francisco Power Co., agreed, upon completion of the dam, to pay to the Oakdale Irrigation District and the South San Joaquin Irrigation District in equal proportions, the sum of $5,175,000, at rate of $129,375 per year, in semi-annual installments. This dam has been completed and was dedicated Nov. 11, 1926. The power companies agreed to erect a power plant, to be called the Melones plant, to cost $2,500,000 and to be capable of generating 40,000 h. p. electric energy, at a point about a mile down stream from the dam and to be operated by water diverted thereat. The estimated output of electric energy from the Melones plant is placed at 100,000,000 k.w.h. per annum. The plant was put in service Jul 1, 1927. For further details see description of Melon Dam Hydro-Electric Power Development at end this Company's statement.

The California Gas & Electric Corporation was o ganized in 1901 and acquired control of Bay Counti Power Co., the Valley Counties Power Co., the Oa land Gas Light & Heat Co., the Sacramento Ele tric Gas & Ry. Co., the Standard Electric Co. of Ca the United Gas & Electric Co., the Blue Lakes Wat Co., the Stockton Water Co., the San Mateo Power C and the Berkeley Electric Lighting Co. Value of Property—The appraised value of Co pany's tangible properties as of November 30, 1927, cluding the properties of companies acquired dur 1927 from Standard Gas & Electric Co., was appro mately $317,000,000 or substantially in excess of total amount of bonds and stock outstanding on t date. This appraisal is based on average prices material and labor for the five-year period ended D 31, 1919, applied to the properties existing on t date, plus the actual cost of subsequent additions betterments. It includes nothing for recognized ments of value such as water rights, going value, tents, etc.

Value of San Francisco Property—A valuation $40,000,000 was placed upon the properties of C pany which are connected with the Hetch Het power project in San Francisco, Jan. 25, 1927 by A Dow, President of the Detroit Edison Co. Valua proceedings have been pending for months and sought as a means of guidance in a prospective p chase of that part of Company's holdings which h

ty of San Francisco wishes to acquire to obtain full ntrol of the Hetch Hetchy water system. The ure represents value in 1924.

San Francisco properties of Company are worth 2,929,431 including the permanent loss and damage mpany would suffer should the city take over such operties under a municipal ownership plan. This as the estimate made Jan. 28, 1927 by William J. agenah of Chicago, a public utility analyst called Company at the resumption before California RR. mm. of a hearing to determine a just compensation r Company's San Francisco properties under con- mnation proceedings. Including all elements of dam- e the figure becomes $61,857,758.

Franchises—Rights and franchises are without nitation in point of time in the cities or else, with one minor exception, extend from ten to fifteen years beyond the life of the Company's bonds. The majority of rights of way for transmission lines are owned outright.

$20,000,000 PACIFIC GAS AND ELECTRIC COMPANY FIRST & REFUNDING MORTGAGE 6% GOLD BONDS, SERIES "B"; DUE DECEMBER 1, 1941

Dated December 1, 1921.

Interest Payable June and December 1, at The National City Bank, New York, and American Trust Co., San Francisco.

Denominations—Coupon, $500 and $1,000; principal may be registered; interchangeable with fully registered bonds of $1,000, $5,000 and $10,000 each.

Trustees—American Trust Co., San Francisco and The National City Bank of New York.

Provisions of Issue—Authorized under First and Refunding Mortgage unlimited, outstanding, at Dec. 31, 1927, $20,000,000 6s, Series "B," $45,000,000 5½s, Series "C," $20,000,000 5s, Series "D" and $15,000,000 4½s, Series "E." In addition $20,000,000 4½s Series "E" have been issued since Dec. 31, 1927; reserved against underlying issues, $70,462,700.

The First and Refunding Mortgage permits the issue of bonds as the stockholders of the Company may authorize, in series of the same or different date, maturity, interest rate and redemption provisions as may be determined by the Board of Directors of the Company at the time of the original issuance of bonds of each series, subject, however, with respect to all bonds issued thereunder, to the restrictive provisions of the mortgage. Bonds of any series may be issued from time to time in the future in principal amounts equal to and for (1) the acquisition or retirement of underlying bonds; (2) the redemption or retirement of bonds of another series under the mortgage; and (3) 75% of actual and reasonable expenditures for permanent extensions, enlargements and additions to the plant and the properties, provided that the consolidated net earnings for twelve consecutive calendar months, ending not more than sixty days prior to the application for the issuance of bonds, shall have been not less than 1¾ times the annual interest charges on all underlying bonds outstanding in the hands of the public and all First and Refunding Mortgage bonds outstanding and for the issuance of which application is then made.

Callability—Series "B" bonds are not callable.

Sinking Fund—The First and Refunding Mortgage requires the Company to deposit semi-annually on Feb. and Aug. 1, with one of the Trustees, as a sinking fund, an amount in cash equal in each case to the excess, if any, of ½% of the aggregate principal amount of all underlying bonds outstanding in the hands of the public, and First and Refunding Mortgage bonds issued and outstanding after deduction of sinking fund payments made as required by underlying mortgages. The moneys thus paid into the sinking fund of the First and Refunding Mortgage may only be utilized in the acquisition or redemption and retirement of bonds issued thereunder.

General Reserve Fund—The First and Refunding Mortgage also requires the Company, annually, either to expend or in lieu thereof to deposit cash with one of the Trustees in the aggregate not less than 4% of the total amount of underlying bonds outstanding in the hands of the public and First and Refunding Mortgage bonds issued and outstanding at June 30 of each year. This amount may only be expended for maintenance, repairs, replacements and renewals, for the purchase of underlying bonds or First and Refunding Mortgage bonds or for extensions, enlargements and additions, or retained in the business as additional working capital, but on account of which in any case no bonds shall have been or may be issued.

Security—The First and Refunding Mortgage constitutes a direct first mortgage on the entire properties (including the new Pit River power plants and high tension transmission line) of the Mount Shasta Power Corp., the entire capital stock of which is owned by the Pacific Gas & Eletcric Co. and which joined with the latter in execution of the mortgage, and a direct mortgage on the entire properties of the Pacific Gas & Electric Co. now owned and hereafter acquired, subject to the prior liens of underlying mortgages. As additional security, the Company has agreed that its General & Refunding Mortgage will be closed as to the issuance of additional bonds to the public, but kept open to the extent that bonds shall be issued under it and pledged with the Trustees of this First & Refunding issue.

At Dec. 31, 1927, $37,673,497 had been expended on the Pit River developments, on which the First and Refunding issue is a first mortgage, and on the same date $59,598,000 of General and Refunding mortgage bonds had been deposited as additional collateral behind the issue.

Upon merger of the Western States Gas and Electric Co. and the Coast Valleys Gas and Electric Company, the properties of these companies will be subjected to the lien of the First and Refunding Mortgage, subject to prior mortgages of the Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Exempt from Personal Property taxes in California.

SIERRA & SAN FRANCISCO POWER CO.

(Operated Under Lease and Controlled by Pacific Gas & Electric Co.)

History and Property—Incorporated May 29, 1909, in Cal. On Sept. 21, 1909, took over (under Plan of Reorganization shown in the Manual for 1909, page 2083) the properties of the Stanislaus Electric Power Co. and the Tuolumne Water Power Co. Purchased North Beach power plant of the United Railroads of San Francisco, and has contract with that Company (now Market Street Ry. Co.), extending to 1954, to supply power for its operation. In July, 1917, purchased the La Grange Division properties of the Yosemite Power Co. Charter extends to May 29, 1959.

Lease—The operative properties of the Company have been leased to the Pacific Gas & Electric Co. for a term of fifteen years from Jan. 1, 1920. During this period, the Pacific Gas & Electric Co. agrees to properly maintain and operate the properties and pay the cost of such maintenance and operation; pay all taxes and governmental charges; pay annually $30,000 into a fund to amortize bond discount and expense, this amount to be increased if additional bonds are issued by the Sierra & San Francisco Power Co. for stated purposes; pay into a special depreciation fund an amount equal to 2% of the gross revenues obtained by the Pacific Gas & Electric Co. from the leased properties, or such other amount as may be fixed by the Railroad Commission; pay bond interest and pay as rental $50,000 during the first year of the lease, $50,000 during the second, $100,000 during the third and $150,000 annually during the remaining life of the lease.

Properties consist of hydro-electric and steam-electric generating plants, transmission and distributing lines, with accompanying substations and equipment together with water storage facilities and water rights with Government permits for the use thereof, and large amounts of real estate, including valuable timber tracts, all the foregoing being located in the State of California, extending from the site of its storage reservoirs and hydro-electric power plants on the Stanislaus River, in Tuolumne County, a distance of 140 miles, to San Francisco.

The principal hydro-electric generating plant at Stanislaus has a developed generating capacity of 36,448 h.p. and in addition to this plant the Company has a hydro-electric plant at Phoenix of 2,010 h.p. capacity, another at Spring Gap of 8,040 h.p. generating capacity. The main transmission line of the Company consists of two circuits carried on steel towers from the Stanislaus plant to the San Francisco City line, a distance of 140 miles. The capacity of these two circuits at 104,000 volts is approximately 40,000 k.w. A branch transmission line extends from Port Marion to Salinas, a distance of 73 miles, the capacity of which is about 6,000 k.w.

The Company owns a steam generating plant on the north water front of San Francisco Bay with a turbine rated capacity of 28,944 h.p. In San Francisco the Company owns and leases an overhead pole line distributing system and also has 26,300 h.p. rated

capacity of motor generator sets located in four sub-stations belonging to the Market Street Ry. Co.

Under its water rights the Company collects in storage reservoirs the rain fall and melted snow from water sheds in its territory which has an area of about 405 sq. miles. The total storage capacity of the reservoirs now constructed amounts to 1,605,451,600 cu. ft. Aside from power house and sub-station sites, the Company owns 2,106 acres of timber land in which 440 acres contain approximately 6,827,000 board ft. and in addition owns 1,680 acres of gold bearing gravel deposits in Calaveras County.

Melones Dam Hydro-Electric Power Development—For the use of the hydro-electric facilities created by the Melones Dam, the Pacific Gas & Electric Company and the Sierra & San Francisco Power Co., agreed, upon completion of the dam, to pay to the Oakdale Irrigation District and the South San Joaquin Irrigation District in equal proportions, the sum of $5,175,000, at rate of $129,375 per year, in semi-annual installments. This dam has been completed and was dedicated Nov. 11, 1926. The power companies agreed to erect a power plant, to be called the Melones plant, to cost $2,500,000 and to be capable of generating 40,000 h.p. electric energy, at a point about 1 mile down stream from the dam and to be operated by water diverted thereat. The estimated output of electric energy from the Melones plant is placed at 100,000,000 k.w.h. per annum. This plant was completed June 1, 1927. For further details see description of Melones Dam Hydro-Electric Power Development (see General Index).

Change in Control—As of May 1, 1927 Pacific Gas & Electric Co. acquired from Standard Gas & Electric Co. all of the $20,000,000 capital stock of Sierra & San Francisco Power Co. The lease of the properties details of which are given above, is still in effect.

MELONES DAM HYDRO-ELECTRIC POWER DEVELOPMENT

(Properties Leased Jointly to The Pacific Gas & Electric Co. and the Sierra & San Francisco Power Co.)

The Pacific Gas & Electric Co. and the Sierra & San Francisco Power Co., entered into an agreement on January 2, 1925, with the Oakdale and South San Joaquin Districts which has as its object the joint utilization and control of the Stanislaus River for both hydro-electric and irrigation purposes. Under the terms of this contract, the Districts agreed to construct a concrete arch dam on the Stanislaus River at Melones. This dam has been completed and was dedicated Nov. 11, 1926.

For the use of the hydro-electric facilities that will be created by the Melones Dam, the Pacific Gas & Electric Co. and the Sierra & San Francisco Power Co. have agreed, upon completion of the dam, to pay to the Oakdale and the South San Joaquin Districts, in equal proportions, the sum of $5,175,000. This sum will be paid to the districts at the rate of $129,375 each year, in semi-annual installments. These payments will constitute an operating charge of the power companies, extend beyond the life of the bonds of the Districts and will be in excess of the maximum requirements for principal and interest.

The water impounded behind Melones Dam will be used by the power companies to generate hydro-electric power by means of a 30,000 k.w. plant which they will erect at their own expense on a site to be provided by the districts. This plant which is located within 100 miles of San Francisco, Oakland and Berkeley, will have an annual output estimated at over 100,000,000 k.w.h. Construction was completed June 1, 1927.

WESTERN STATES GAS AND ELECTRIC COMPANY OF CALIFORNIA

(Controlled by Western States Gas & Electric Co. of Del.)

History and Properties—Incorporated Nov. 30, 1910, in Cal., as a consolidation of Humboldt Gas & Electric Co., Stockton Gas & Electric Corp., Richmond Light & Power Co., The American River Electric Co., Arcata Light & Power Co., Fortuna Lighting Co. and Ferndale Electric Light Co.

Owns and operates electric, gas and hydro-electric properties in California, serving thirty-nine communities in 8 counties, viz., Amador, Calaveras, Contra Costa, El Dorado, Humboldt, Sacramento, San Joaquin and Trinity. The principal cities served are Stockton, Richmond and Eureka. The territory served has a population estimated at more than 129,000, and includes both manufacturing and distributing centres of importance and some of the richest agricultural sections of the United States.

The company owns three hydro-electric power plants, with an aggregate normal generating capacity of 44,337 h.p. Also owns two steam turbine plants in Eureka and Stockton, with a normal capacity of 2,064 h.p. and 2,011 h.p. respectively.

Gas service is supplied in Stockton and Eureka, the combined daily manufacturing capacity being 6,512,702 cu. ft. Holder capacity, 3,170,000 cu. ft. The gas supply at Stockton is augmented with natural gas obtained from a number of wells within the city limits. North of Stockton a large area is supplied by electric power for irrigation pumping.

In Feb., 1924, the California R. R. Commission, authorized the Company to purchase the plant, property and distribution system of the Central Natural Gas Co. of Stockton, Cal.

Franchises—The Company operates under favorable franchises. The principal franchise rights were obtained under the Constitution of California as it existed prior to 1911 and are unlimited as to time. The other franchises are of long duration.

Proposed Merger—As of May 1, 1927 Pacific Gas & Electric Company acquired from Standard Gas & Electric Company controlling interest in Western States Gas & Electric Co. of Del., which in turn owns controlling interest in Western States Gas & Electric Co. of California. Pacific Gas & Electric Company plans physical merger of the properties and liquidation of this company.

THE YUBA RIVER POWER COMPANY

(Operated under Lease by Pacific Gas & Electric Co.)

History and Property—Incorporated June 30, 1895, in Cal., as the Marysville & Nevada Power & Water Co.; name changed to Yuba Development Co. later and to present title July 23, 1923. The Company plans the development of the North Fork of the Yuba River and of the main Yuba River at the Narrows for power, irrigation and mining in several units. The first unit developed, known as the Bullard's Bar Project, an electric power plant and full equipment (already completed and now in operation by the Pacific Gas & Electric Co.) is located on the North Yuba River, having an installed capacity of 6,500 k. w. A 60,000 volt transmission line, approximately 33,000 ft. in length, connects this plant with the Colgate Power House of the Pacific Gas & Electric Co. where that company receives the power generated by the Bullard's Bar Project.

Lease Agreement—The company has entered into a Original Lease Agreement with the Pacific Gas Electric Co., extending beyond the life of the bonds described below, whereby the latter company has assumed the complete operation and maintenance

ASSOCIATED PUBLIC UTILITIES CORPORATION

History—Incorporated in 1925, in Delaware, and through its operating companies furnishes water supply for domestic and industrial purposes to 14 communities of New Jersey, West Virginia, Ohio, Indiana, California and Oklahoma. Controls Benwood & McMechen Water Company, Bartlesville Water Company, The Delaware River Water Company, The Jackson Mutual Water Company, The Frankfort Water Works Company and Pacific Water Company supplying Benwood, McMechen and Boggs Run, W. Va., Bartlesville, Okla., Riverside, Beverly, Edgewater Park, Beverly Township and Delran Township, all suburban to the city of Camden, N. J., Jackson, Ohio, Frankfort, Ind., South San Francisco, San Mateo and Los Altos, Cal. Population of the territory served is about 100,000.

Since Jan. 1, 1928 the Corporation has purchased all the stock of another small company operating near the plants of Pacific Water Company and has three California and one Indiana property under contract. It also has several other properties under investigation.

CAPITAL STOCK

Authorized, 20,000 Common shares, 50,000 Pfd. shares and 50,000 Special shares, all without par value; outstanding, 20,000 Common shares and 10,000 $7 Series Pfd. shares. The shares of the 7% Pfd. stock previously authorized and outstanding were authorized by shareholders on Dec. 15, 1927 to be converted into shares of new $7 Series Pfd. stock.

Preferred Stock Provisions—Of the 50,000 Pfd. shares authorized, 10,000 shares are outstanding, 10,000 shares are to be of the same series as those now outtanding and the remaining 30,000 shares may be classified differently in respect of the rate of dividends and other provisions. All preferred shares are, however, to rank as one class in respect of the priority and preferences over the Common shares and the Special shares.

Callability—The $7 Series Pfd. shares are redeemable in whole or in part at $110 and accrued dividends on any dividend date.

Transfer Agent (Both Classes)—Empire Trust Co., New York.

Registrar (Both Classes)—Guaranty Trust Co. of New York.

Legal Opinion—Jenkins, Carpenter & Day.

Original Offering—A block of 7% Pfd. stock was publicly offered in Sept., 1926, at 94½ and accrued dividend, each share of Pfd. carrying with it one-half share of Common stock, by G. V. Grace & Co., New York.

Dividends—Pfd. dividends payable quarterly, J, A, J & O 1.

FUNDED DEBT

$2,870,000 FIRST LIEN TWENTY-YEAR 5% GOLD BONDS, SERIES "A"; DUE JULY 1, 1947

Dated July 1, 1927.

Interest Payable January and July 1, at The Bank of America, New York.

Denominations—Coupon, $500 and $1,000; principal may be registered.

Trustee—The Bank of America, New York.

Provisions of Issue—Authorized amount, not limited. Outstanding, May 1, 1928, $2,870,000 Series "A" 5s. Additional bonds may be issued under the Trust Indenture in series on the following basis, provided that net consolidated earnings as defined in the Trust Indenture, for twelve consecutive calendar months within fifteen calendar months immediately prior to the application for such additional bonds, shall have been not less than 10% of the principal amount of all bonds then outstanding under the Trust Indenture and on all additional bonds then proposed to be issued, and then only under further restrictions of the Trust In-

denture, some of which are that they may be issued (a) in an amount not exceeding 80% of the cost or fair value, whichever is lower, of betterments, improvements, extensions, additions or enlargements to or of the existing properties of the operating companies or of subsequently acquired properties which shall be represented by capital stock or other securities, all of which shall be pledged under the Trust Indenture; (b) in an amount not exceeding 80% of the cost or fair value, whichever is lower, of the capital stocks of public utility companies, provided the Corporation or its subsidiaries own or are concurrently acquiring not less than 90% of the voting stock of such companies; (c) in an amount sufficient to retire a like principal amount of bonds previously issued under the Trust Indenture.

Purpose of Issue—Proceeds were used to acquire the stocks of certain of the operating companies, to retire all funded indebtedness against the properties outstanding in the hands of the public, to complete certain improvements then in progress, and for other corporate purposes.

Callability—Subject to call as a whole or in part on any date on 30 days' notice at 100, plus a premium of ¼ of 1% for each full year or portion thereof of unexpired life, not exceeding 3%.

Sinking Fund—None provided.

Maintenance and Improvement Fund—Associated Public Utilities Corporation has covenanted to cause each subsidiary to create a maintenance and improvement fund equal to 9% of its gross revenue derived from the operations of its properties, which may be expended only for purposes and under restrictions provided in the Trust Indenture, but no bonds may be issued under the Trust Indenture against maintenance, betterments, improvements, extensions, additions or enlargements to or of the existing properties provided through such fund. This is estimated to establish ample depreciation charges and adequate provisions for the proper maintenance of the operating properties.

Security—Secured by a direct first lien, through pledge with the Trustee of all outstanding stock (except directors' and officers' qualifying shares) and all bonds (or cash sufficient for the redemption thereof) of all the companies acquired in connection with the issue of bonds.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Connecticut, Pennsylvania and California personal property taxes not exceeding 4 mills, Maryland tax not exceeding 4½ mills per annum, District of Columbia tax not exceeding 5 mills and Massachusetts income tax not exceeding 6% on the interest, refunded to resident holders upon application within 60 days after payment.

Original Offering—First publicly offered ($2,800,000) in Aug., 1927, at 91 and interest to yield about 5¾% by E. H. Rollins & Sons, Bond & Goodwin, Inc. and G. V. Grace & Co., Inc., New York.

The electric generating properties, all of which are owned by Stettin Power Corporation, consist of two power stations with a combined present installed capacity of 48,800 k.w. The company is installing an additional 25,600 k.w. unit, which, upon completion in the latter part of 1926, will give it a total installed generating capacity of 74,000 k.w. During the year 1925 this company sold over 82,000,000 k.w.h. of electricity at wholesale. The two electric distributing subsidiaries purchase their entire electrical requirements from Stettin Power Corp. and distribute electricity throughout the City of Stettin to over 54,000 customers. For the year 1925 their combined sales amounted to over 4,000,000 k.w.h. The Stettin Tramway Corp., with 14 miles of track, does the entire electric railway business of Stettin and certain adjacent suburban communities. A new gas generating plant was completed in the Fall of 1926 with a capacity of 2,100,000 cubic feet per day of coal gas. There are over 40,500 gas customers, including those served in several adjacent communities. The water customers number 6,235.

FUNDED DEBT

$2,925,000 FIRST (CLOSED) MORTGAGE SINKING FUND 7% GOLD BONDS; DUE APRIL 1, 1946

Dated April 1, 1926.

Interest Payable April and October 1 at Harris, Forbes & Co., New York, or Harris Trust & Savings Bank, Chicago, in U. S. gold coin.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—Deutsche Treuhand Gesellschaft, Berlin, Trustee; Harris Trust & Savings Bank, Chicago, Co-Trustee.

Provisions of Issue—Authorized and issued, $3,000,000 of which $75,000 retired through sinking fund. Proceeds were used to reimburse Company and its subsidiaries for expenditures made and to be made on account of additions to the properties, particularly to the electric and gas generating facilities.

Callability—Bonds may be redeemed through operation of the sinking fund at 100 and interest on any interest date and are subject to call as a whole or in part by lot on any interest date on 6 weeks' notice to and including April 1, 1931 at 102½ and interest and thereafter at 100 and interest.

Sinking Fund—The indenture provides for sinking fund payments to Harris, Forbes & Co. as Sinking Fund Agent, commencing Jan. 15, 1927, sufficient to retire 2½% of the entire amount of this issue annually. These payments are calculated to retire 50% of this issue of bonds by maturity. The Company may in any year, at its option, increase the annual sinking fund payments to an amount sufficient to retire not to exceed 5% of the entire amount of this issue. All sinking fund payments are to be applied to the purchase or redemption of these bonds at not exceeding par and interest.

Security—These bonds are the direct obligations of Company and are secured by a direct first (closed) mortgage or deed of trust on substantially all the fixed properties of the operating subsidiaries of the Company now owned or hereafter acquired subject with respect to one of the subsidiary properties to prior charges under the Dawes Plan estimated as not exceeding $250,000 principal amount. The aggregate maximum annual charges under the Dawes Plan and the German Laws enacted to carry the Dawes Plan into effect, for all the operating subsidiaries are estimated as not exceeding $54,100. Upon completion of this financing, none of the subsidiary operating companies will have any funded debt.

Valuation—Present reproduction value of the properties, based on estimates of an independent American engineer, amounts after liberal depreciation to over 4½ times this issue of $3,000,000 bonds.

Legal Opinion—Sullivan & Cromwell, New York City; Dr. Heinrich F. Albert and G. A. Westrick, Berlin, Germany.

Original Offering—First publicly offered ($3,000,000) in June, 1926 at 94½ and interest to yield about 7.55%, by Harris, Forbes & Co., New York; Harris, Forbes & Co., Inc., Boston; Harris, Forbes & Co., Ltd., Montreal; and Harris Trust & Savings Bank, Chicago.

Listed—Boston Stock Exchange.

GEORGIA SECURITIES COMPANY

History—Incorporated in January, 1926, under the laws of Maine as a holding company for the purpose of effecting the acquisition of Georgia Railway & Power Co. by the Southeastern Power & Light Co. through exchange of securities.

The holders of a large percentage of shares of the Common stock or voting trust certificates therefor of Georgia Railway & Power Co., including shares issued originally as Second Pfd. stock, but which became Common stock on Jan. 1, 1926, agreed to exchange their shares for shares of Georgia Securities Co. on the basis of one share of Georgia Railway Common stock for one share of Pfd. and one share of Common stock

Georgia Securities Co. The Southeastern Power & Light Co. offered to accept the Common stock of Georgia Railway & Power Co., held by the Securities Co. and issue in exchange therefor shares of the Southeastern Co. on such a basis that for each share of the Pfd. stock issued by the Securities Co. it would receive one share of Common and 1.633 shares of cumulative participating Pfd. stock of the Southeastern Co. This went into effect in February, 1926, and resulted in the control of Georgia Railway & Power Co. by Southeastern Power & Light Co. through ownership of practically all the Common stock. In effect Common stockholders of the former company are entitled to receive for each share held one share of Common and 1.633 shares of Participating Pfd. stock of the Southeastern Co.

The Irving Bank-Columbia Trust Co. (now American Exchange Irving Trust Co.), New York, was appointed depositary for Common, Voting Trust Common and Voting Trust Second Pfd. stock of Georgia Railway & Power Co., exchanged for securities of Southeastern Power & Light Co.

The Georgia Securities Co. owns approximately 3,348 shares of no par value Common and about 8,128.136 shares of no par value cumulative Participating Pfd. stock of the Southeastern Power & Light Co., constituting its only assets.

CAPITAL STOCK

Authorized, 250,000 shares Common, par $1, and 250,000 shares Pfd. of no par value; outstanding, 23,342 shares Common and 23,342 shares Pfd.

Preferred Stock Provisions—Pfd. holders have the right at their option, at any time to exchange their stock for that of the Southeastern Power & Light Co., on the basis of one share of Pfd. (together with one share of Common) for one share of Common and 1.633 shares of Participating Pfd. stock of the Southeastern Co., and until the Pfd. stock of Company is so exchanged the holders thereof will be entitled to receive from time to time dividends of the same amount as the dividends paid by Southeastern Power & Light Co. on each share of its Common and on 1.633 shares of its Participating Pfd. stock. After Dec. 31, 1928, the expenses of the Georgia Securities Co. may be deducted from the dividends received by it. Upon liquidation, Pfd. stock is entitled to receive, in preference to Common stock, one share of Common and 1.633 shares of Participating Pfd. stock of Southeastern Power & Light Co., or the proceeds thereof. To facilitate such exchange Pfd. stock certificates of company also represent an equal number of shares of its Common stock.

Fractional scrip certificates will not be issued, for fractions of shares of the Southeastern Power & Light Co. Participating Pfd. stock, but arrangements have been made such that each stockholder of Georgia Securities Co. may, after consolidating all fractions of Participating Pfd. stock of the Southeastern Co. to which he may be entitled into integral shares, either sell any remaining fraction or buy an additional fraction large enough with such remaining fraction to make an integral share. The price on either such purchase or sale will be at the rate of $80 per integral share of Participating Pfd. stock.

Transfer Agent (Both Classes)—American Exchange Irving Trust Co., New York.

Annual Meeting—Second Wednesday in July at Portland, Me.

Dividends—Pfd. dividends were paid on July 1, 1926, and Oct. 1, 1926, at the rate of $1.633 per share each.

EAST COAST UTILITIES COMPANY

History—Incorporated in April, 1926, in Delaware, and owns all the capital stock of the Virginia East Coast Utilities, Inc., and the Maryland East Coast Utilities, Inc., except directors' qualifying shares, and all the capital stock of Hermitage Ice & Storage, Inc., of Richmond, Va. At the time of its organization, Company, through its subsidiaries, owned and operated a total of seven plants. Since the date of its incorporation it has, through various subsidiaries, from time to time, added additional properties and has developed its holdings to the point where it now owns and operates 24 electric light and power plants and distribution systems and three ice plants, all located in Virginia, and two electric light and power plants and two ice plants in Maryland. It also owns an ice and cold storage plant in the city of Richmond, known as the Hermitage Ice & Storage, Inc.

Company operates in the so-called Tidewater section of Virginia and Maryland and serves a population, exclusive of the city of Richmond, estimated at more than 50,000.

Virginia East Coast Utilities, Inc.—This subsidiary of the East Coast Utilities Co. owns and operates the following properties which, before consolidation, were known as: Chincoteague Light Co., Chincoteague Ice Manufacturing Co., Peoples Light, Heat & Power Corporation, Communities Light & Power Corporation, Urbana Light and Water Company and Irvington Light & Ice Company.

The Chincoteague Light Co. provides electric light and power service to the city of Chincoteague and in addition by means of a distribution system serves the following municipalities with electric light and power: Saxis Island, Sanford, Makemie Park, Temperanceville, Atlantic, Wattsville, Lekato, Hursley, Oak Hall, Horntown, and New Church. This high tension line also serves as a connecting link between the Chincoteague light plant and the Pocomoke City light plant.

The Chincoteague Ice Mfg. Co. provides ice to the city of Chincoteague, at wholesale only, operating the plant twelve months a year.

The Peoples Light, Heat & Power Corp. serves the city of West Point and Fort Richmond.

The Communities Light & Power Corp. does the entire electric light and power business in the cities of Waverly, Dendron, Surry, Claremont, Ivor and Zuni. Through a contract completed in May, 1927, for the purchase of power for wholesale for this division, it is expected that the operating expenses will be reduced by at least 33 1/3%. This available and un-

limited amount of power is obtained at a price that warrants the addition of substantial power business not now connected.

Urbana Light & Water Co. serves the cities of Urbana, Saluda and Remlik with electric light and power and Urbana with water.

Irvington Light & Ice Co. serves the cities of Irvington, Kilmarnock, Weems and White Stone with electric light and power and also operates an ice plant at Irvington, which distributes ice at wholesale only. There is now constructed one alternating current plant, which is of sufficient size to take care of this immediate territory and eliminates the operating expenses of two of the three present plants. The Electric Installation Corp. was organized in order to contract for house wiring and work of similar character.

Maryland East Coast Utilities, Inc.—This subsidiary of East Coast Utilities Co. owns and operates: (1) The Deal Island Electric Co., which supplies all the electric light and power for the city of Deal Island and a considerable amount of surrounding territory, having approximately 25 miles of high tension line, and (2) The Electric & Ice Manufacturing Co., which does the entire electric light business and the ice business (at wholesale only) in Pocomoke City and a considerable part of surrounding territory. By means of a high tension line this latter property is now being connected with the Chincoteague plant. With the acquisition of the Electric & Ice Mfg. Co., the company installed an additional 360 h.p. crude oil engine with generating capacity of approximately 300 k.w. giving a capacity to the plant of 675 k.w. In addition, the installation of another 10-ton ice plant being made, the output of which is practically entirely contracted for.

Hermitage Ice & Storage, Inc.—This subsidiary was organized to acquire the former Hermitage Building Corporation, owning a cold storage plant of approximately 800,000 cu. ft. capacity, and an ice manufacturing plant with a capacity, after giving effect to the new equipment now installed, of 100 tons per day. The property is located on the main line of the Seaboard Air Line Railway and the Richmond, Fredericksburg & Potomac Railroad, and negotiations have been closed in respect to the icing of refrigerator cars used by these railroads in this territory to the full capacity of the plant.

Acquisition, New Company—During April 1928, announcement was made that Company had purchased the properties of Burnsville Light, Heat & Power Co., which serve the towns of Burnsville, Bakersville, Toe Cane and Micaville, North Carolina. Northwest Carolina Utilities, Inc., has been organized to handle the business.

Franchises—The franchises under which the various subsidiaries operate are, in the opinion of Company's counsel, entirely satisfactory and carry no burdensome restrictions. For the major part they all have a maturity of at least ten years from May, 1927 and arrangements have been completed and agreed to in respect to securing new franchises covering the one or two minor franchises which expire within the next five years ending 1932.

CAPITAL STOCK

Trustee—The Seaboard National Bank of New York.

Provisions of Issue—Authorized amount, not limited; issued, Series A, $2,500,000. Additional bonds may be issued in one or more series with interest rates, maturity dates, redemption and sinking and improvement fund provisions and other terms and conditions to be determined as new series are created. Additional bonds may be issued under the terms of the indenture for other than refunding purposes only when First Mortgage bonds of a subsidiary (namely, a company of which at least 75% of the outstanding voting stock is owned by The Suburban Light & Power Company and pledged under the Trust Indenture) secured by a first mortgage on all its permanent utility property, and/or cash, have been deposited in like principal amount and only when the aggregate principal amount of bonds so deposited does not exceed 75% of the cost or fair value, whichever is less, of new or additional properties or additions, extensions and improvements to the property, of such subsidiary company acquired or constructed subsequent to March 31, 1927 and made the basis for the issuance of additional bonds, or when the aggregate principal amount of bonds so deposited (together with other bonds of the same issue, if any, outstanding) does not exceed 75% of the net depreciated value of all permanent utility property subject to the lien of such mortgage, or when the bonds so deposited are issued to refund outstanding obligations of such subsidiary company. The Trust Indenture provides, that except for refunding purposes, additional bonds can only be issued when the consolidated net earnings available for interest shall not be less than twice the annual interest charges on bonds issued and to be issued.

Purpose of Issue—Proceeds together with the proceeds from the sale of 5,000 shares of First Pfd. stock, were used for the retirement of $1,000,000 First Mortgage Bond Secured 6% Gold Notes, due Dec. 1, 1928, for the acquisition of new properties, for additional property improvements and for other corporate purposes.

Callability—Subject to call as a whole or in part after 30 days' notice at 105 through May 1, 1932 and thereafter decreasing 1% for each five year period, plus accrued interest in each case.

Maintenance, Improvement and Depreciation Reserve—Company covenants to cause each subsidiary, whose stock is pledged hereunder, to create a maintenance, improvement and depreciation reserve, and either to expend for maintenance, improvements and additions (against which no bonds may be issued) or to credit yearly to such fund at least 12½% of the gross revenues from the sale of electricity for light and power of such subsidiary company.

Security—Secured by deposit and pledge with the Trustee of First Mortgage Bonds of the Suburban Power Co. which will constitute the total funded debt of that company and/or cash, in an aggregate principal amount equal to at least 100% of the total amount of First Mortgage Collateral Gold Bonds to be outstanding. Under the terms of the Indenture, additional bonds can only be issued when there shall have been pledged an equal principal amount of First Mortgage bonds of a subsidiary and/or cash that this ratio must always be maintained. Bonds will be further secured by deposit and pledge with the Trustee of the entire outstanding voting stocks (except directors' qualifying shares) of The Suburban Power Co. and The General Light & Power Co. the latter company having no funded debt, and it cannot issue any without immediately pledging same under this indenture. The Company covenants that it will not sanction or permit during the continuance of the pledge under the Trust Indenture of the stock or bonds of any subsidiary (a) the issue of additional shares of voting stock of such subsidiary, unless such additional shares be forthwith pledged and deposited with the Trustee; or (b) the creation of any lien, encumbrance or charge on any of the property or assets of such subsidiary, except taxes for the then current year or not yet due, and liens existing on property at the date of acquisition thereof by such subsidiary, or the increase in the indebtedness secured by any encumbrance now existing on the property or assets of such subsidiary or existing thereon at the date of becoming such subsidiary, unless all obligations to be so secured and all obligations representing such increase of indebtedness be, when issued, forthwith pledged and deposited with the Trustee; or (c) the issue or creation by such subsidiary of any debt, unless such debt when issued or created be forthwith pledged and deposited with the Trustee, providing, however, that nothing shall prevent any subsidiary company from creating in the ordinary and current conduct of its business, debts maturing not later than one year from the date thereof.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Company will refund upon proper and timely application the Pennsylvania and Connecticut 4 mills tax, Maryland 4½ mills tax, District of Columbia and Kentucky 5 mills tax, California taxes not exceeding in the aggregate 5 mills, Michigan 5 mill exemption tax, and the Massachusetts Income tax not exceeding 6% per annum.

Legal Opinion—Miller, Thompson & Dunbar, Columbus, Ohio, (for the Company) and Masten & Nichols, New York, (for the Bankers).

Original Offering—First publicly offered ($2,500,000) in May, 1927, at 96 and interest to yield over 5.80% by Love, Macomber & Co., New York.

SWISS-AMERICAN ELECTRIC COMPANY

History—Incorporated under the laws of Switzerland on April 4, 1928 for the purpose of acquiring substantial interests mainly in the securities of selected electric power and light corporations primarily in South America. The charter under which the Company is organized empowers it to acquire and operate public utility properties throughout the world and to purchase, hold and deal in their securities. The Company was formed by two Swiss companies, Motor-Columbus Corporation for Electrical Enterprises and South American Electric Company. These two companies have taken a prominent part in the development of public utilities in South America and have organized this Company to facilitate their operations there and to enable them to take fuller advantage of the many opportunities for further expansion which the steadily growing demand for electric power and light gives them. Swiss-American Electric Company will acquire principally holdings in companies which are under the management or control of "Motor-Columbus" or South American Electric Company.

"Motor-Columbus" was organized in Switzerland in November, 1923, by merger of two companies which had been established and began business respectively in 1895 and 1913. It is one of the most important European companies engaged in the financing, construction and development of electric power and light enterprises and in their management and operation. The Company has large, and in many cases controlling interests in public utility properties in Europe and South America. It controls the Usines Electriques Olten-Aarbourg, S. A., at Olten, Switzerland, the Officine Elettriche Ticinesi, S. A., at Bodio, Switzerland, the Italo-Argentine Electric Company at Buenos Aires, Argentine, and various other companies: the combined capacity of the plants of the companies controlled being 345,000 h.p., while the current generated during 1927 aggregated 800,000,000 k.w.h.

In addition, the Company has important interests in various other companies including the Societa Generale Italiana Edison di Elettricita at Milan and Societa Meridionale di Elettricita at Naples. The capacity of the plants of the companies in which "Motor-Columbus" has an important interest and is represented on the Board aggregates 1,767,000 h.p. and the current generated during 1927 by these plants aggregated over 4,500,000,000 k.w.h. It has outstanding a capital stock of 75,000,000 Swiss Francs divided into 150,000 shares of a par value of 500 Frs. each. This stock is paying dividends at the rate of 10% per annum.

South American Electric Company was organized in 1926 with a capital of 30,000,000 Swiss Francs (about $5,791,000) and has acquired important holdings in various South American power and light companies.

Assets—Swiss-American Electric Company will acquire from "Motor-Columbus" and South American Electric Company the following securities: 100,000 shares Capital stock Italo-Argentine Electric Company; 40,000 shares Capital stock Bahia Blanca Electric Company; 18,000 shares Capital stock Compania Americana de Luz y Traccion.

The two organizing companies and the Swiss-American Electric Company will own a substantial majority of the outstanding Capital stocks of each of the above companies.

The value of the above securities (on the basis of current quotations for the shares of Italo-Argentine Electric Company and par value for those of the two other companies) is in excess of $13,500,000, in addition to which the Company, upon completion of its financing, will have cash in its Treasury aggregating $13,000,000 giving it total net assets of over $26,500,000 or $265 per share of Preferred stock issued.

The stocks of the Italo-Argentine Electric Company and Compania Americana de Luz y Traccion are paying regular annual dividends of 10% and 7% respectively, and it is anticipated that the earnings of Bahia Blanca Electric Company for the current year will warrant the payment of a dividend of 7% on its capital stock.

Italo-Argentine Electric Company (Compania Italo-Argentina de Electricidad)—This Company was organized under the laws of Argentine in October, 1911, and does a large part of the electric light and power business in the City of Buenos Aires, the capital of Argentine, and the largest and most important city in South America. Buenos Aires has a population of over 2,000,000 and is one of the world's principal seaports.

Company owns and operates oil burning steam turbine plants aggregating 100,000 k.v.a. capacity and a distributing system comprising about 1,375 miles of transmission lines. The concession under which it operates covers the entire city of Buenos Aires and extends to Dec. 31, 1962, at which period the constructions made in the first three years of the company's existence (aggregating $7,640,000) will revert without payment to the city, while for constructions and installations made in following years, the city will reimburse the Company on the basis of cost of construction less an amortization charge of 2% per annum. As an alternative, however, the city has the right to extend the concession twenty-five years, in which case it will be entitled to a 15% interest in the annual net profits of the Company, and at the end of the extended concession all the plants, equipment, transmission system and all installations covered by the concession will revert to the city without payment.

The Company has no funded debt, its entire capitalization consisting of 500,000 shares of 100 Pesos each or 50,000,000 Pesos ($21,220,000).

The development of the business and earning power of the Company is indicated by the following table. The net earnings as given below are after all operating expenses, taxes and other charges, as certified by Deloitte, Plender, Griffiths & Co., Public Accountants:

Years ended Dec. 31	Current Generated in K.W.H.
1923	89,000,000
1924	97,000,000
1925	100,000,000
1926	108,000,000
1927	115,000,000

	*Gross Revenues	*Net Earnings before Amortization	*Amortization of Fixed Assets	*Net Earnings after deducting Amortization
1923	$3,862,786	$1,363,166	$575,828	$787,338
1924	4,288,971	1,835,605	599,688	1,235,917
1925	5,274,369	2,368,195	723,949	1,644,246
1926	5,671,291	2,649,492	811,808	1,837,684
1927	6,432,562	3,157,992	932,563	2,225,429

*Converted at average telegraphic rate of exchange for each year.

The Company has paid dividends on its Capital stock since 1917. At present the stock is receiving dividends at the rate of 10% per annum, equal to $4.24 per share, which rate has been maintained since 1922.

Swiss-American Electric Company and "Motor-Columbus" together hold 61% of the outstanding Capital stock of the Company assuring a continuation of the present control and management.

Bahia Blanca Electric Company (Empresas Electricas de Bahia Blanca)—This Company was organized in Buenos Aires in October, 1927 by South American Electric Company to take over the electric light, power and street railway properties of Bahia Blanca, owned by the Buenos Aires-Great Southern Railway Company. Operations were begun on Dec. 1, 1927.

The City of Bahia Blanca is one of the most important cities in Argentine, its population, which has more than doubled

during the last twenty years, at present aggregates about 90,000 inhabitants.

Company owns a modern steam electric plant with a capacity of 6,000 k.v.a., a gas plant with a capacity of 6,000 cubic meters per day and a street railway system of approximately 16 miles of track. Sales of electrical energy of the properties totaled 11,900,000 k.w.h. in 1927 as against 6,900,000 k.w.h. in 1922. Gas sales for 1927 aggregated 800,000 cubic meters and during the year 2,200,000 passengers were transported by the street railway. The concession under which the Company operates extends to 1947, at which time the city has the privilege of purchasing the entire plants and properties of the Company or to purchase only the installations and equipment used for public lighting.

The Company has no funded debt, its entire capitalization consisting of 10,000,000 pesos divided into 100,000 shares of a par value of 100 Pesos each. The Company has but recently taken over the operation of these properties, but on the basis of the results of recent months it is estimated that the earnings of the Company for the year 1928, after liberal allowance for depreciation, will warrant the payment of a dividend of 7% on its Capital stock. The Company is controlled by South American Electric Company which, together with Swiss-American Electric Company, will hold 80% of its Capital stock, the balance being held by the Buenos Aires-Great Southern Railway Company.

Compania Americana De Luz Y Traccion—This Company was organized in Buenos Aires in 1918 under the laws of Argentine and does the entire electric light, power and street railway business in the City of Asuncion, the capital of Paraguay. Capacity of the power plant aggregates 4,300 k.v.a. and the energy generated during 1927 totalled about 5,658,000 k.w.h. against 4,634,860 k.w.h. in 1926 and 3,686,780 k.w.h. in 1925. The street railway system comprises twenty miles of track and in 1927 transported 5,200,000 passengers against 4,636,418 in 1926 and 3,970,862 in 1925.

Asuncion has a population of approximately 100,000 and is developing steadily and requiring a constantly increasing amount of electrical energy. The concession under which the Company operates extends to August, 1971, at which time the city has the right to purchase all or part of the properties covered by this concession, the purchase price being based on the earnings of the property.

The Company also operates under lease extending to 1936 the electric light, power and water service systems in the City of 25 de Mayo, Argentine.

The capitalization of the Company consists of 1,231,000 Pesos 7% Debentures due 1940 and 50,000 shares of capital stock of 100 Pesos each or 5,000,000 Pesos, the Capital stock having been recently increased to this amount from 1,876,076 Pesos. Dividends at the rate of 7% per annum have been paid on the Capital stock in 1926 and 1927 and it is expected that a dividend of 7% will also be declared in 1928 on the increased amount of Capital stock outstanding. The Company is under the management of South American Electric Company which together with Swiss-American Electric Company own 72% of its Capital stock.

CAPITAL STOCK

Authorized, 200,000 shares Class "A" Common stock (par value 200 Swiss Francs), 525,000 shares Class "B" Common stock (nominal value 1 Swiss Franc), and $10,000,000 $6 cumulative Pfd. stock ($100 par value); outstanding, 200,000 shares Class "A" Common, 400,000 shares Class "B" Common and $10,000,000 $6 Pfd. There are also outstanding options to purchase 125,000 shares of Class "B" Common stock on or before May 31, 1934. Over 90% of the Class "B" Common stock is owned by "Motor-Columbus" and South American Electric Company.

Stock Provisions—The Pfd. stock is fully paid and non-assessable. It is entitled to cumulative preferential dividends at the rate of $6 per share per annum, payable semi-annually through A. Iselin & Co., New York, Fiscal Agents, on the first days of May and November before any dividends are paid on or set aside for the Class "A" Common stock or Class "B" Common stock. It is preferred as to assets and in case of liquidation, whether voluntary or involuntary, and entitled to a payment of $110 per share, together with all accumulated and unpaid dividends before any distribution is made on the Class "A" Common stock or Class "B" Common stock.

Dividend payments and payments on redemption or liquidation are payable through A. Iselin & Co., New York, Fiscal Agents for the Company, in United States gold coin of the present standard of weight and fineness without deduction for any present or future Swiss taxes. All classes of stocks will have equal voting rights, each share being entitled to one vote.

In case any change is made in the articles of incorporation of the Company affecting the rights and privileges of the Pfd. stock, the approval of a special meeting of the Pfd. stockholders given pursuant to the provisions of the articles of incorporation governing such meetings shall be required. Without similar approval of a Pfd. stockholders' special meeting the Company shall not—

(a) Issue any additional Pfd. stock unless upon completion of such issuance the net assets of the Company are at least twice the amount paid in for the Pfd. stock then outstanding, including the new issue, and unless income available for Pfd. stock dividends for the preceding fiscal year (including income from assets to be acquired through issuance of such additional stock) is at least twice the amount of annual dividend requirements of the Pfd. stock, including the new issue.

(b) Issue any bonds, debentures or other funded obligations unless the net income (before deduction of interest requirements for all outstanding bonds or other obligations) of the Company for the preceding fiscal year (including income from assets to be acquired through issuance of these bonds of other funded obligations) shall have been equal to at least one and one-half times the sum of the annual dividend requirements on the Pfd. stock and the annual interest requirements on the outstanding bonds, debentures and other funded obligations of the Company, including interest on the bonds then to be issued.

(c) Issue any bonds, debentures or other funded obligations unless upon the completion of such issuance the outstanding bonds or other funded obligations of the Company are less than one and one-half times the amount paid in for the Capital stock outstanding plus the capital surplus and reserves as shown in the Company's published balance sheet.

Out of the net income remaining after payment or provision for payment of the Pfd. dividends, the Class "A" Common stock will be entitled to a non-cumulative dividend of 6% per annum before any payment is made on the Class "B" Common stock. Out of the remaining net earnings in any fiscal year (which ends April 30) dividends of 5 Swiss Francs per share may be paid on the Class "B" Common stock. The remainder of any net profits, after providing for directors dividends, may be applied to the payment of further dividends equally per share upon the Class "A" and Class "B" Common stocks.

Callability—Pfd. stock is subject to redemption in whole or in part at $110 per share and accumulated and unpaid dividends at any time at the option of the Company on two months' notice.

Transfer Agent—Central Union Trust Co. of New York.

Registrar—The Farmers' Loan & Trust Co., New York.

Dividends—Pfd. dividends payable semi-annually May and November 1, through A. Iselin & Co., New York.

Legal Opinion (Pfd. stock)—Curtis, Mallet-Prevost Colt & Mosle, New York, and Dr. Arthur Curti Zurich, Switzerland.

Stock Purchase Warrants—Each certificate representing a share or shares of the present issue of Pfd stock was accompanied by a warrant entitling the holder thereof to purchase on or before April 30, 193 a number of shares of Class "B" Common stock o Swiss-American Electric Company equal to the number of shares of Pfd. stock represented by the certificate to which such warrant shall originally be attached at the following prices plus interest at the rate of 4% per annum on such prices calculated from the preceding Aug. 1: $30 per share on or before April 30, 1930 thereafter, $33 per share up to and including April 30 1932; thereafter $36 per share up to and including April 30, 1934. Unless the Pfd. stock should be called for redemption or unless previously exercised, war-

rants will be non-detachable prior to April 30, 1931 except at the option of the Company. Provision will be made for safeguarding the interests of the warrant holders in case of additional issues of Class "B" Common stock at prices, less than the purchase price for Class "B" Common stock stated in the warrants.

Original Offering—First publicly offered (100,000 shares $6 Pfd. stock) in April, 1928 at $98.50 per share with warrant (see previous paragraph) yielding about 6.10%, by A. Iselin & Co., 36 Wall St., New York.

ELECTRIC POWER & LIGHT CORPORATION

(Supervised by Electric Bond and Share Company)

History—Incorporated March 11, 1925, in Maine, as a holding company. The Corporation was formed to take over certain stock and other securities of public utility companies owned by Electric Bond and Share Company and to take over under a plan of reorganization of Utah Securities Corporation all the physical assets of Utah Securities Corporation subject to all its liabilities. Under the provisions of the plan, Utah Securities Corporation distributed to the holder of each share of its capital stock $10 in cash, plus four shares of Common stock of the Electric Power & Light Corporation.

The Corporation, in accordance with the terms of its certificate of organization, may purchase or otherwise acquire, real and personal property of every sort and description and wheresoever situated, including stocks, bonds and other evidences of indebtedness of any corporation and may issue in exchange or in payment therefor, its stocks, bonds or other securities or evidences of indebtedness.

The Corporation's principal business and objects are directly and through subsidiaries, the development and operation of public utility properties.

Subsidiary Companies—Corporation owned on Dec. 31, 1927, all Common stock, except directors' shares of Arkansas Power & Light Company, Gas and By-Products Company, Inter-City Terminal Railway Company, The Mississippi Power and Light Company (which owns all outstanding Common stock of The Mississippi Central Power Company), The Louisiana Power & Light Company, Texas Interurban Railway and Utah Power & Light Company (which owns all issued securities of The Western Colorado Power Company and all capital stock, except directors' shares, of Utah Light and Traction Company). It also owned substantially all and in no case less than 90% of the Common stock of New Orleans Public Service Inc., and Dallas Railway & Terminal Company, and a substantial majority of the Common stock of Dallas Power & Light Company and Power Securities Corporation, the latter owning all Common stock, except directors' shares, of Idaho Power Company. In addition to its Common stock holdings, Electric Power & Light Corporation also owned in some cases varying amounts of Preferred and Second Preferred stocks, as well as certain indebtedness of subsidiaries. (For details regarding to acquisition of subsidiaries see 1926 Public Utility Volume, pages 1745 and 1946).

Properties and Service of Operating Subsidiaries, as of Dec. 31, 1927—The operating subsidiaries of the Electric Power & Light Corporation on Dec. 31, 1927, served approximately 625 communities in the ten states of Arkansas, Colorado, Idaho, Louisiana, Mississippi, Nevada, Oregon, Texas, Utah and Wyoming. The aggregate population served was estimated to be in excess of 2,263,000.

Arkansas Power & Light Company owns and/or operates installed electric generating capacity of 51,551 kilowatts, 1,690 miles of transmission lines (not including 247 miles of additional transmission lines under construction), 1,285 miles of distribution system, 55 miles of electric railway track and 212 miles of water mains. It supplies electric power and light service in 135 communities in Arkansas, including the cities of Little Rock, North Little Rock (wholesale), Pine Bluff, El Dorado, Russellville, Stuttgart, Newport and Malvern and supplies electric railway service in Little Rock and Pine Bluff and water service in Pine Bluff, El Dorado and 17 other communities, and does some ice and miscellaneous business. Total population of the territory served is estimated at 290,000.

Inter-City Terminal Railway Company owns and operates an electric railway system in North Little Rock, Ark., with 7 miles of track and supplies certain local motor coach service in connection therewith. It purchases all electric energy from Arkansas Power & Light Co. Total population of territory served is estimated at 16,000.

The Mississippi Power and Light Company and its subsidiary, The Mississippi Central Power Company own and/or operate electric, gas, railway and water properties. Properties owned, together with those leased from an associated company, include 16,340 kilowatts installed electric generating capacity and 1,450 miles of electric transmission and distribution lines. The companies supply electric power and light service in 100 communities in Mississippi, including Jackson, Vicksburg and Greenville. In the three communities mentioned The Mississippi Power and Light Company also supplies electric railway service, and in addition supplies manufactured gas in Jackson. Water service is supplied in four communities and an ice business is done in six communities. Total population of the territory served is estimated at 179,000.

The Louisiana Power & Light Co. owns 31,157 kilowatts installed electric generating capacity (not including 60,000 kilowatts under construction) and 811 miles of transmision and distribution lines. The principal electric generating station owned is at Sterlington in the heart of the Monroe gas field and uses natural gas as fuel. It has an initial installed capacity of 25,000 kilowatts and is so located as to serve the Arkansas, Mississippi and Louisiana associated properties through high voltage transmission lines. These companies supply with electric power and light service 65 communities in the northeastern portion of Louisiana and supply also water service in four communities, natural gas service in one community and do an ice business in two communities. Total population of the territory served is estimated at 108,000.

Gas and By-Products Company owns all Common capital stock and all funded debt of Natural Gas Producing Company of Louisiana, Panola Oil and Gas Company, Excelsior Pipeline Company, Morehouse Natural Gas Company, Inc., and United States Carbon Company. These subsidiaries lease and operate extensive natural gas producing properties (including a substantial acreage in proven territory) located in the Monroe gas field, situated in northern Louisiana, extending northwestward toward the El Dorado oil fields of Arkansas, and also properties located in the Bethany

gas field in Panola County, Texas, and own pipe lines and properties producing by-products of natural gas. The subsidiaries are engaged in the production, transportation and/or distribution and sale of natural gas and/or in the refining of natural gas and the manufacture and sale of the by-products thereof.

New Orleans Public Service Inc., owns installed electric generating capacity of 114,200 kilowatts, 753 miles of transmission and distribution lines, gas works capacity of 28,124,000 cubic feet per day, 582 miles of gas mains and 207 miles of electric railway track. It supplies the entire electric power and light, gas and electric railway service in New Orleans, La., except in a small portion of the city supplied with electric power and light and electric railway service by other subsidiaries of Electric Power & Light Corporation. Total population of the territory served is estimated at approximately 445,000.

Dallas Power & Light Company owns installed electric generating capacity of 57,500 kilowatts, 62 miles of transmission lines and 633 miles of electric distribution system. Supplies electric power and light service in Dallas. Total population of the territory served by Company and the Dallas Railway & Terminal Co. is estimated to exceed 275,000.

Dallas Railway & Terminal Company owns a combined office and terminal building in Dallas and leases terminal facilities to all interurban lines entering the city. Also owns about 86 miles of electric railway track and leases 29 miles of additional track. Supplies electric railway service in Dallas.

Texas Interurban Railway owns important interurban railway properties with 65 miles of track interconnecting Dallas and Denton and Dallas and Terrell, supplying high speed electric railway service for both freight and passengers.

Utah Power & Light Company, together with its subsidiary, The Western Colorado Power Company, owns 2,059 miles of transmission lines, 2,956 miles of electric distribution system. The total installed generating capacity of the plants owned and leased (including the Cutler plant and 28,300 kilowatts capacity leased from Utah Light & Traction Company) is 236,917 kilowatts, of which 198,627 kilowatts (or approximately 84% of the total) is hydro-electric and 38,290 kilowatts is steam. Utah Power & Light Company and its subsidiary, The Western Colorado Power Company supply electric power and light service in 252 communities in Utah, southwestern Wyoming and southeastern Idaho and in a section of southwestern Colorado; also gas service in Ogden, Utah. The company's subsidiary, Utah Light and Traction Company, in addition to owning certain electric and gas properties leased to Utah Power & Light Company, also owns and operates an electric railway system with 135 miles of track, supplying the entire street railway service in Salt Lake City and vicinity. Total population of the territory served is estimated at 42,500.

Idaho Power Company (operating subsidiary of Power Securities Corporation) owns installed hydro-electric generating capacity of 71,500 kilowatts, 1,623 miles of transmission lines and 895 miles of electric distribution system. Company supplies the entire electric power and light service in a wide territory in southern and central Idaho and eastern Oregon, including the cities of Boise, Twin Falls, Pocatello, Caldwell and Nampa, and, through its subsidiary, Nevada Power Company, in the mining district adjacent to Jarbridge, Nevada. Total population of the territory served is estimated at 150,000.

Supervision—Electric Bond and Share Company is identified in a supervisory capacity (under the direction and control of the Boards of Directors of the respective companies) with the operations of Electric Power & Light Corporation and its subsidiary companies.

Statistical Data—The growth of the business and property of the subsidiaries is indicated in the following tabulation:

ARKANSAS POWER & LIGHT COMPANY

(Controlled by Electric Power & Light Corporation)
(Supervised by Electric Bond and Share Company)

History—The Arkansas Power & Light Company, organized under the laws of Arkansas, came into existence November 24, 1926 as the result of a consolidation and merger of Arkansas Light and Power Company, Arkansas Central Power Company, The Pine Bluff Company (for last published statements see 1926 Public Utility Manual, pages 1948 to 1953 inclusive), East Arkansas Power & Light Company and Arkansas Power & Light Company (old company). In connection with the merger, the retirement of all outstanding issues of bonds of the constituent companies was effected, except for two underlying issues of the Arkansas Central Power Company which mature in 1933 and 1938, respectively, and the Preferred stocks of Arkansas Light and Power Company, The Pine Bluff Company and Arkansas Central Power Company were exchanged for Preferred stock of Arkansas Power & Light Company.

The Company supplies electric power and light service to 135 communities in the prosperous agricultural, industrial and mining regions in the State of Arkansas, including such cities as Little Rock, North Little Rock (wholesale), Pine Bluff, El Dorado, Camden, Newport, Russellville, Stuttgart, Morrillton, Malvern, Arkadelphia, Bauxite, Clarendon, Fordyce, Smackover, Wynne and McGehee. Company also owns and operates the street railway systems in Little Rock and Pine Bluff; supplies steam heat service in the business district of Little Rock, and water service in Pine Bluff, El Dorado and 17 other communities; and does an ice business in 9 communities. In all the Company serves 135 communities with a population estimated at 290,000.

Physical property owned and operated includes electric generating stations having a present installed generating capacity of 51,551 kilowatts, including 19,9 kilowatts in the Little Rock steam electric generatir station, 11,450 kilowatts in the Pine Bluff steam ele tric generating station, and 9,000 kilowatts in th Remmel hydro-electric plant; also 1,690 miles of hig voltage transmission lines and 1,285 miles of electr distribution system. Company's power supply supplemented by electrical energy, delivered by mea of a 110,000-volt line, from the new Sterlington stea electric generating station of The Louisiana Pow Company located in the Monroe natural gas field. Th latter station has a present installed capacity of 25,0 kilowatts and is designed for an ultimate capacity 135,000 kilowatts.

The Remmel Dam hydro-electric plant, placed operation in January, 1925, and the first major ge erating plant to be constructed on the Ouachita Rive has an initial installed generating capacity of 9,000 k.v The contemplated development of other sites on th river will provide upon completion a total installe generating capacity of approximately 95,000 kilowatt

The transmission system of the Company, upon con pletion of the 244 miles of additional lines now und construction, will interconnect all communities serve with the exception of a few isolated communities which properties were recently acquired. Importa transmission lines owned include 110,000-volt lines t ing together the Remmel hydro-electric generatir plant and the Little Rock and Pine Bluff steam ele tric generating stations, a 110,000-volt line extendir from North Little Rock northeast to Walnut Ridge v

ewport, a 110,000-volt line extending southeast from ewport to West Memphis, a 110,000-volt line extend- g northeast from Crossett to the Mississippi state ie at Greenville, Mississippi, and a 110,000-volt line :tending from Pine Bluff to the Louisiana state line id effecting an interconnection with the Sterlington ation. The principal lines under construction include 0,000-volt lines from Pine Bluff to Camden, a dis- nce of 78 miles; Pine Bluff to Dixie substation (near orth Little Rock), 48 miles; Newport to Batesville, ; miles; and a line from Camden to the Louisiana ate line, 47 miles in length, which will form a part of line approximately 76 miles long and which will fect a second interconnection between the Company's stem and the Sterlington station.

The Company's electric properties are interconnected high voltage transmission lines with those of the ouisiana Power & Light Company and the Mississippi Power & Light Company, both of which com- anies, as well as the Arkansas Power & Light Com- any, are subsidiaries of the Electric Power & Light orporation. The Company's transmission system is so interconnected at the Arkansas-Tennessee state ne near West Memphis, Arkansas, with the lines of ie Memphis Power & Light Company, with which ompany power is interchanged, and with those of the itizens Electric Company at Hot Springs, Arkansas, s well as with those of the Arkansas-Missouri Power ompany, at Walnut Ridge, Arkansas, to both of hich companies electrical energy is sold at wholesale. hrough these various interconnections the electric stem of the Company forms an important part of an tensive interconnected system serving a large part of rkansas and wide areas in the three adjoining states Louisiana, Mississippi and Tennessee.

Franchises—The franchises under which the Com- any operates in the various municipalities are gener- ly satisfactory from a business standpoint and con- in no burdensome restrictions. The majority of the ompany's electric franchises were granted for periods hich extend to 1956 or beyond. The street railway anchises in Little Rock and Pine Bluff expire in 951.

Control and Supervision—All the Common stock except directors' shares) of Company is owned by ie Electric Power & Light Corporation. Electric ond and Share Company supervises (under the di- ection and control of the Boards of Directors of the espective companies) the operations of the Electric ower & Light Corporation and the Arkansas Power Light Company.

DALLAS POWER & LIGHT COMPANY

(Controlled by Electric Power & Light Corp.)

(Electric Bond and Share Co. is identified with Dallas Power & Light Co. in a supervisory capacity)

History—Incorporated under the laws of Texas, Sept. 22, 1917. It acquired by purchase on Sept. 29, 1917, all the properties of the Dallas Electric Light & Power Co., which had been conducting an electric power and light business in Dallas, Tex., for 16 years. Also at the same time acquired from the City of Dallas a satisfactory new franchise, under which it operates. The Company does the entire electric power and light business in Dallas, Texas, serving a population estimated at about 275,000.

The Company's main power plant, situated within the City of Dallas, is well located on the main line of the Missouri, Kansas & Texas Ry. and adjacent to the tracks of the St. Louis Southwestern Ry. The plant has a total installed generating capacity of 57,500 k.w., consisting of five Curtis steam turbine units. Oil and gas are used as fuel, but the plant is also arranged and completely equipped for burning coal and gas.

A power contract has been closed, under which connection has been made with the transmission lines of the Texas Power & Light Co. at Norwood and through these lines with that Company's 12,000 k. w. power station at Waco and the Fort Worth Power & Light Company's 44,000 k. w. power station at Fort Worth. This permits interchange of power between the stations and gives the benefits of additional reserve capacity.

Franchise—The new franchise under which the Company operates was approved by popular vote of the city on April 3, 1917. It is believed to be equitable both to the City and the Company. The following are some of its important features:

1. It fixes a definite Property Value upon which a return of 9% per annum is now permitted. The total net earnings of the Company are first available for the payment of this return. This authorized rate of return is increased automatically by specified percentages if and when the maximum rate for lighting is reduced. The principle of permitting a reasonable return upon the Property Value is thus recognized, together with an increasing profit to the Company with each reduction in rates.

2. The rates for service are under the jurisdiction of the city authorities, but the maximum rate cannot be reduced below six cents per kilowatt hour (the present rate) unless the Company has earned an amount sufficient and available for payment of the authorized return on the then Property Value and in addition has accumulated out of earnings the following Reserves:

A Surplus Reserve of not less than 12% of the Property Value; an Accident Reserve of not less than 2½% of the gross receipts during the preceding twelve months; a Maintenance and Depreciation Reserve of not less than 6% of the Property Value.

3. The duration of the franchise is indeterminate, except that at any time after ten years from April 3, 1917, the City or its licensee may purchase the property, in which event the franchise provides that the City shall pay the Company at least 105%, or the City's licensee shall pay at least 110%, of the then Property Value.

4. Reasonable provisions are made for the arbitration of any disputed matters between the City and the Company.

The total number of consumers served by the Company and its physical properties as of Dec. 31, 1927, and the output for the twelve months ended Dec. 31, 1927, compared with the two previous years follow:

	1927	1926	1925

DALLAS RAILWAY & TERMINAL COMPANY

(Controlled by Electric Power & Light Corp.)

History and Property—Incorporated Sept. 22, 1917, in Texas as the Dallas Railway Company, the name having been changed to the present one on Aug. 2, 1926. In 1923, purchased the property and franchise of Dallas Standard Traction Co. (see 1923 Public Utility Manual, page 1120). Owns and operates the street railway property formerly owned by the Dallas Electric Light & Power Co. and supplies the entire street railway service in the cities of Dallas and Highland Park, Texas, and vicinity. The Company leases, with the right to purchase for $2,000,000 the street railway lines in a portion of Dallas known as Oak Cliff. Property consists of 89 miles of electric railway owned and 29 miles controlled under lease. Company also owns a modern office and terminal building located near business center of Dallas. Energy purchased from Dallas Power & Light Co. The estimated population served by Dallas Railway & Terminal Company as of Dec. 31, 1927, the miles of track then in use, and the total number of passengers carried and certain other traffic data for the twelve months ended Dec. 31, 1927, compared with the two previous years, follow:

	1927	1926	1925
Population served	235,000	235,000	230,000
Passengers carried during twelve months	58,604,913	62,962,307	64,242,643
Car miles	9,875,016	9,872,698	9,433,677
Car hours	1,032,110	1,058,884	1,005,138
Average number of cars operated	127	134	124
Miles of electric railway (single track equivalent)	118	115	114

Franchise—Co. operates under franchise granted April 3, 1917, and approved by vote of majority of the people of Dallas. Franchise runs to April 3, 1927, and thereafter until property purchased by City at 105% of the then property value or by licensee of City at 110%.

Control and Supervision—Electric Power & Light Corp. owns over 90% of the Common stock and a substantial amount of the Pfd. stock. The Electric Bond and Share Company is identified in a supervisory capacity (under the direction and control of the Board of Directors of the Company) with the operations of the Company.

CAPITAL STOCK

Authorized and outstanding, $3,250,000 Common and $1,500,000 Pfd. Electric Power & Light Corp. owns over 90% of the Common stock and a substantial amount of the Pfd. The Pfd. stock was entitled to 7% non-cumulative dividends up to Sept. 30, 1920, and since that date is entitled to 7% cumulative dividends. It is redeemable on 60 days' written notice at 110% and accrued dividends.

Annual Meeting—Second Tuesday in March.

Dividends—Company has paid dividends on Pfd. stock for the period since Oct. 1, 1920, at the rate of 7% per annum; payments quarterly, F, M, A & N 1.

FUNDED DEBT

$5,000,000 FIRST MORTGAGE GOLD BONDS, 6% SERIES; DUE JULY 1, 1951

Dated July 1, 1926.

Interest Payable January and July 1, at office or agency of Company in New York and Boston.

Denominations—Coupon, $100, $500 and $1,000; principal may be registered.

Trustee—Old Colony Trust Co., Boston.

Provisions of Issue—Issued $5,000,000 6% Series due 1951. Mortgage provides for issuance of bonds thereunder in series bearing same or different rates of interest, dates, maturities, redemption provisions and such other distinguishing features and provisions as may be determined by directors, subject, however, to restrictive provisions of mortgage. Mortgage also provides that additional bonds of 6% Series due 1951 or other series, may be issued thereunder (a) for acquisition or retirement of bonds of any series or prior lien bonds on properties hereafter acquired; (b) for cash deposited with Trustee under provisions of Mortgage; (c) for not exceeding 65% of cost or fair value of property additions made or acquired on or subsequent to June 1, 1926, less principal amount of prior liens outstanding thereon; (d) against property as it existed on May 31, 1926, to a total of not exceeding $500,000 of bonds. Additional bonds may not be issued except for refunding purposes unless net earnings of Company of twelve consecutive months within fifteen calendar months immediately preceding shall have been at least equal to two and one-quarter times annual interest requirements on all prior liens with public and on all bonds issued and outstanding under Mortgage, including those to be issued. Mortgage contains certain provisions permitting modification or alteration thereof or of any supplemental indenture or of bonds in any particular, with assent of holders of 85% in aggregate principal amount of outstanding bonds, not including any bonds owned by Company; provided that nothing shall permit extension of maturity of any bonds or reduction in rate of interest thereon, or any other modification in terms of payment of such interest, without consent of holder thereof.

Purpose of Issue—The proceeds of these bonds, together with issuance of $1,000,000 of Preferred stock and $1,000,000 of Common stock were used to retire outstanding mortgage notes and other debt of Company and for other corporate purposes.

Callability—Subject to call in whole or in part at any time on 30 days' notice before July 1, 1930, at 106 and interest, and at a premium decreasing 1% each four-year period thereafter, the bonds being redeemable at 100% on and after July 1, 1950.

Maintenance and Renewal Fund—Mortgage provides for a maintenance and renewal fund under which Company will pay to Trustee for purposes of such fund on April 1 of each year, beginning with 1927, an amount of money equivalent to 15% of gross operating revenues of Company for calendar year next preceding, less an amount of actual expenditures during any such year for maintenance, repairs, renewals and replacements or for permanent additions to property. This fund may be withdrawn to reimburse Company for expenditures made for further maintenance, repairs, renewals and replacements or permanent additions against which no bonds may thereafter be issued under mortgage. Any unused balance may be used for retirement of bonds issued under Mortgage and any such balance amounting to $50,000 or over remaining after thirty-six months shall be so used.

Security—Secured by a direct first mortgage on all Company's property and equipment, including terminal building, now owned or hereafter acquired subject to prior lien bonds, if any, on hereafter acquired property. The principal amount of these $5,000,000 bonds was less than 60% of value of Company's wholly owned

property as of May 31, 1926, as established under the franchise for rate-making purposes.

Tax Provisions—Company pays Normal Federal Income tax up to 2%. Pennsylvania 4 mills tax refundable.

Legal Opinion—Simpson, Thacher & Bartlett, New York.

Original Offering—First publicly offered ($5,000,000) in July, 1926, at 96½ and interest, to yield over 6.25%, by Tucker, Anthony & Co., Halsey, Stuart & Co., Inc., Old Colony Corp. and W. C. Langley & Co., New York, etc.

Listed—Boston Stock Exchange.

LOUISIANA POWER & LIGHT COMPANY

(Controlled by Electric Power & Light Corporation)

History and Property—Incorporated June 25, 1927, to acquire by purchase electric power and light and other properties in Louisiana previously owned and operated by The Louisiana Power and Light Company (old company), The Central Louisiana Power Company, The Louisiana Power Company, South New Orleans Light & Traction Company, West New Orleans Light & Traction Company and Gretna Light & Power Co., Inc. (see 1927 Public Utility Manual) and, in addition, certain other properties. The Company supplies electric power and light and other public utility service to 66 communities, including Algiers, Metairie (manufactured gas only), Gretna, Hammond, Bastrop, Haynesville, Ponchatoula, West Monroe, Amite, Kentwood, Westwego, Independence and Winnsboro. One of the principal sources of earnings is from the sale of power at wholesale to associated electric power and light companies. Company owns and operates electric railway systems in Algiers, Gretna and two other communities; supplies manufactured gas in Gretna and two other communities, natural gas service in Bastrop and two other communities and water service in Bastrop and three other communities and owns ice manufacturing plants in Haynesville and Amite. The total population served is estimated at 108,000.

Properties—The principal electric generating station owned by Company is the Sterlington station located in the Monroe natural gas field in northeastern Louisiana. This station was built to utilize natural gas as fuel. It is designed and has been partially built for an ultimate generating capacity of 150,000 kilowatts. The initial installation consisted of two 12,500-kilowatt turbo-generators, which were placed in operation in November, 1925. Early in 1927, construction was begun on two more units, each of 30,000 kilowatts, one of which it is expected will be in operation in May, 1928, and the other in July, 1928. This additional installation will give the station an installed generating capacity of 85,000 kilowatts. Other physical property includes steam electric generating capacity aggregating 6,396 kilowatts, 811 miles of electric transmission and distribution lines, 41 miles of gas mains, 20 miles of water mains and 9 miles of electric railway track. Electrical energy distributed over the Company's lines in the vicinity of New Orleans, is purchased from New Orleans Public Service Inc. (an associated company). The electric system of the Company will be increased by 35 miles of transmission lines now under construction, including a 110,000 volt line about 28 miles in length extending from the Sterlington generating station to the Arkansas state line to effect a second interconnection with the transmission system of the Arkansas Power & Light Company. The transmission system of the Company is interconnected with the lines of other subsidiaries of the Electric Power & Light Corporation, thus assuring consumers of an uninterrupted supply of electrical energy and, in addition, provides the means for the advantageous distribution and sale of the large amount of energy generated at the Sterlington station.

The franchises under which the Company operates are, generally, satisfactory from a business standpoint and free from burdensome restrictions.

The number of communities and consumers served by the Company, together with the physical equipment at Dec. 31, 1927, and the output for twelve months for all the properties owned by the Company at Dec. 31, 1927, compared with the two previous years, follows:

Trustee—The National Park Bank of New York.

Provisions of Issue—Authorized amount, unlimited; issued, 5% Series due 1957, $8,000,000.

The Mortgage provides for the authentication of bonds thereunder in series up to a maximum of $500,000,000 in aggregate principal amount at any one time outstanding, as defined in the Mortgage, bearing the same or different rates of interest, dates, maturities, redemption provisions and such other distinguishing features and provisions as may be determined by the Board of Directors of the Company, subject, however, to the restrictive provisions of the Mortgage. The Mortgage also provides that additional bonds of the 5% Series due 1957, or other series, may be authenticated thereunder (a) for refunding an equal principal amount of bonds of any series, or outstanding prior lien bonds, as defined in the Mortgage; (b) for cash; (c) for not exceeding 75% of the cost, as defined in the Mortgage, or fair value to the Company, whichever is less, of property additions, as defined in the Mortgage, made or acquired after Nov. 30, 1927, less the principal amount of any outstanding prior lien bonds thereon, and (d) against the property as it will exist on Nov. 30, 1927, to a total of not exceeding $1,500,000 of bonds in addition to this issue. Additional bonds may not be authenticated, except for refunding purposes, unless net earnings, as defined in the Mortgage, for twelve consecutive months within the fifteen calendar months immediately preceding the month in which the application for authentication is made shall have been at least equal to either (1) twice the actual annual interest requirements on, or (2) 12% of the principal amount of all bonds issued and outstanding under the Mortgage, including those proposed to be authenticated, and on outstanding prior lien bonds, all as defined in the Mortgage. The Mortgage contains certain provisions permitting, on conditions to be stated therein, the modification or alteration of the bonds or the Mortgage or of any supplemental indenture, with the assent of the Company and of the holders of not less than 85% in the aggregate principal amount of the outstanding bonds, not including any bonds owned by the Company; provided that any such modification or alteration shall not permit, without the consent of the holders affected (a) the extension of the maturity of any bond, or the reduction in rate of interest thereon, or any other modification in the terms of payment of such principal or interest, or (b) the creation by the Company of any mortgage lien ranking prior to or on a parity with the lien of the Mortgage with respect to any of the property covered thereby. As more fully provided in the Mortgage, bonds authenticated under the Mortgage against such property additions subject to prior liens, as defined in the Mortgage, as shall have continued to be subject to such prior liens, are limited to 25% of all bonds theretofore authenticated under the Mortgage, including those applied for, and no property additions subject to prior liens, as defined in the Mortgage, may be made the basis for the issue of bonds under the Mortgage if the amount of such prior liens exceeds 50% of the cost, as defined in the Mortgage, or fair value to the Company, whichever is less, of such property additions.

Callability—Subject to call as a whole or in part, on at least 30 days' notice, at 105 before Dec. 1, 1934; at ¼% less each succeeding year, up to and including Nov. 30, 1952; thereafter at 100¼ up to and including Nov. 30, 1955; and thereafter at 100, plus accrued interest in each case.

Sinking Fund—None provided.

Security—Secured by a first mortgage on all the fixed properties now owned by the Company.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax refunded upon proper application.

Legal Opinion—Seibert & Riggs, New York (for the Bankers) and Simpson, Thacher & Bartlett, New York (for the Company).

Original Offering—First publicly offered ($8,000,000) in Dec., 1927, at 97¾ and interest by W. C. Langley & Co., John Nickerson & Co., Guaranty Co. of New York, Old Colony Corp., J. G. White & Co., Inc., and Rogers Caldwell & Co., New York.

MISSISSIPPI POWER & LIGHT COMPANY

(Controlled by Electric Power & Light Corporation)

History—Incorporated October 3, 1927, and acquired by purchase the electric power and light and other properties formerly owned and operated by The Mississippi Power and Light Company (old company) (see 1927 Public Utility Manual, page 1815), The Mississippi Central Power Company (old company) and Mississippi Delta Power & Light Company, together with certain other properties. The Company also owns all capital stock of the new **Mississippi Central Power Company** which supplies electric power and light service to McComb, Magnolia and Summit (wholesale), Miss. The Company supplies electric power and light service to 101 communities (1 at wholesale) including Jackson, Vicksburg, Greenville, Brookhaven and Grenada. Company also owns and operates electric railway systems in Jackson, Vicksburg and Greenville, supplies gas service in Jackson

and water service in Hazlehurst, Osyka, Wesson and Raymond, and owns ice manufacturing plants in Greenwood, Brookhaven, Indianola, and three other communities. The total population served is estimated to exceed 179,000.

Properties—The physical property owned by the Company (together with certain minor property owned by a subsidiary, Mississippi Central Power Company) includes electric generating stations having an aggregate installed capacity of 16,340 kilowatts, 1,002 miles of high voltage transmission lines, 448 miles of electric distribution system, gas generating capacity of 900,000 cubic feet per day, 28 miles of gas mains and 25 miles of electric railway track. A substantial portion of the Company's power supply is purchased under favorable contract from Louisiana Power & Light Company (an associated company). The transmission systems are interconnected with those of associated companies to assure consumers an adequate and uninterrupted supply of electrical energy.

The total number of communities and consumers served by the Company (including the Mississippi Central Power Company), together with the physical equipment of all the properties at Dec. 31, 1927, and the output for twelve months ended on that date, compared with corresponding data for the two previous years, follow:

FUNDED DEBT

$9,000,000 FIRST MORTGAGE GOLD BONDS, 5% SERIES DUE 1957; DUE DECEMBER 1, 1957

Dated December 1, 1927.

Interest Payable June and December 1, at office or agency of the Company in the city of New York.

Denominations—Coupon, $500 and $1,000, interchangeable; principal may be registered. Fully registered bonds in denominations of $1,000 and $5,000 and authorized multiples thereof. Fully registered bonds and coupon bonds of denomination of $1,000 interchangeable.

Trustee—American Exchange Irving Trust Co., New York.

Provisions of Issue—Authorized amount, unlimited; issued, 5% Series due 1957, $9,000,000. The mortgage provides for the authentication of bonds thereunder in series bearing the same or different rates of interest, dates, maturities, redemption provisions and such other distinguishing features and provisions as may be determined by the Board of Directors of the Company, subject, however, to the restrictive provisions of the mortgage. The mortgage also provides that additional bonds of the 5% Series due 1957, or other series, may be authenticated thereunder (a) for refunding an equal principal amount of bonds of any series, or outstanding prior lien bonds, as defined in the mortgage; (b) for cash; (c) for not exceeding 75% of the cost, as defined in the Mortgage, or fair value to the Company, whichever is less, of property additions, as defined in the mortgage, made or acquired after Nov. 30, 1927, less the principal amount of any outstanding prior lien bonds thereon, and (d) against the property as it will exist on Dec. 1, 1927, to a total of not exceeding $250,000 of bonds in addition to this issue. Additional bonds may not be authenticated, except for refunding purposes, unless net earnings, as defined in the mortgage, for twelve consecutive months within the fifteen calendar months immediately preceding the month in which the application for authentication is made shall have been at least equal to either (1) twice the actual annual interest requirements on, or (2) 12% of the principal amount of, all bonds issued and outstanding under the mortgage, including those proposed to be authenticated, and on outstanding prior lien bonds, all as defined in the mortgage. The mortgage contains certain provisions permitting, on conditions to be stated therein, the modification or alteration of the bonds or the mortgage or of supplemental indenture, with the assent of the Company and of the holders of not less than 85% in aggregate principal amount of the outstanding bonds, not including any bonds owned by the Company; provided that any such modification or alteration shall not permit, without the consent of the holders affected, (a) the extension of the maturity of any bond, or the reduction in rate of interest thereon, or any other modification in the terms of payment of such principal or interest, or (b) the creation by the Company of any mortgage lien ranking prior to or on a parity with the lien of the mortgage with respect to any of the property covered thereby. As more fully provided in the mortgage, bonds authenticated under the mortgage against

such property additions subject to prior liens, as defined in the mortgage, as shall have continued to be subject to such prior liens, are limited to 25% of all bonds theretofore authenticated under the mortgage, including those applied for, and no property additions subject to prior liens, as defined in the Mortgage, may be made the basis for the issue of bonds under the mortgage if the amount of such prior liens exceeds 50% of the cost, as defined in the mortgage, or fair value to the Company, whichever is less, of such property additions.

Callability—Subject to call at any time on at least 30 days' notice, at 105 before Dec. 1, 1934; at ¼% less each succeeding year, up to and including Nov. 30, 1952; thereafter at 100¼ up to and including Nov. 30, 1955; and thereafter at 100, plus accrued interest in each case.

NEW ORLEANS PUBLIC SERVICE INC.

(Controlled by Electric Power & Light Corp.)

History—New Orleans Public Service Inc., came into existence Sept. 27, 1922, as a merger of the New Orleans Public Service, Inc., the New Orleans Ry. & Light Co., the New Orleans & Carrollton Railroad, Light & Power Co., the New Orleans & Pontchartrain R.R. Co. and the Orleans R.R. Co. New Orleans Public Service, Inc., was incorporated Aug. 18, 1922, under the laws of Louisiana. (The only change of name of the New Orleans Public Service Inc. is the dropping of the comma between the words Service and Inc.) New Orleans Public Service Inc., later acquired the properties of the St. Charles Street Railroad Co., the New Orleans Gas Light Co., New Orleans.

The Citizens Light & Power Co., New Orleans, La., and the Consumers Electric Light & Power Co. (see 1925 Public Utility Manual) were merged into New Orleans Public Service Inc., as of Jan. 1, 1925.

New Orleans Public Service Inc. controls the following companies:

Jefferson & Lake Pontchartrain Ry. Co. through ownership of $99,300 of its $100,000 issued and outstanding capital stock.

Railways Realty Co. through ownership of 25 shares of its 30 shares of issued and outstanding capital stock.

Property and Service—The property of the Company includes electric generating stations having a present aggregate installed capacity of 114,200 kilowatts, and 753 miles of electric transmission and distributing systems; gas works with a manufacturing capacity of 28,124,000 cu. ft. per day, holder capacity of 7,580,000 cu. ft. and 582 miles of gas mains; and 207 miles of electric railway and 787 cars, including 699 passenger cars. During the year ended Dec. 31, 1927, the electric output was 319,842,000 kilowatt-hours, while the gas sendout amounted to 3,121,833,000 cu. ft.

There are more than 82,700 electric consumers and more than 68,300 gas consumers, and during the year ended Dec. 31, 1927, there were carried 144,968,556 electric railway passengers. The total population served is approximately 445,000.

Agreement with the City of New Orleans—In 1921 a settlement was effected with the City of New Orleans, by which a definite basis was agreed upon between the company and the city, governing their mutual relations. Under this settlement, a sum of $44,700,000 was agreed upon as the value of the properties in the system for purposes of the settlement as of Dec. 31, 1920, to be increased by future investments in the property. The City agreed, effective Oct. 1, 1922, to permit such rates for the various services of the company as would enable it to earn 7½% return on values as determined from time to time, after operating expenses, taxes and reserve for renewals and replacements. The agreed rate base is now Dec. 31, 1927) more than $79,000,000.

On this rate base the present allowed return is about $7,072,500, including renewal and replacement reserve appropriations at the rate of $1,800,000 per annum, which are now being set up. This allowed return of about $7,780,000 compares with actual net revenues of $7,015,571 for the year ended Dec. 31, 1927. In addition to the allowed return on the rate base, the settlement provides for indeterminate permits; for the approval by the Commission Council of the City of the issue of securities; and for the settlement of various other points to be considered in a comprehensive understanding between the city and the company.

Statistical Data—The total number of consumers served by Company and the physical equipment of the properties operated as of Dec. 31, 1927, together with the kilowatt-hours output, the gas sendout and the number of passengers carried during the twelve months

$12,000,000 NEW ORLEANS PUBLIC SERVICE INC. FIRST & REFUNDING MORTGAGE GOLD 5s, SERIES "A," DUE OCTOBER 1, 1952

Dated October 1, 1922.

Interest Payable April and October 1, at The Chase National Bank of the City of New York. and Hibernia Bank & Trust Co., New Orleans, La.

Denominations—Coupon, $500 and $1,000; principal may be registered. Fully registered bonds of $1,000 and $10,000 exchangeable for coupon bonds.

Trustee—The Chase National Bank of the City of New York.

Provisions of Issue—Authorized, $500,000,000, but not more than $100,000,000 may be out until General Lien 4½% bonds are retired. In addition to the present $12,000,000 issue, $11,867,000 principal amount of bonds may be certified against property owned at the time of execution of the mortgage (Oct. 1, 1922), subject only to earnings qualifications, but of such $11,867,000 of bonds not exceeding $3,000,000 may be issued before the General Lien 4½% Gold bonds of the Company, which mature in 1935, are paid off. Sufficient of these bonds may be certified for the purpose of refunding the underlying bonds. Additional bonds may be certified for a principal amount not exceeding 80% of the cash cost or fair value, whichever is less, of permanent additions, but only when net earnings as defined in the mortgage for 12 consecutive months of the 15 months immediately preceding have been not less than twice the annual interest charges on all bonds of this and underlying issues outstanding, as defined in the mortgage, and the bonds applied for (or, at the Company's option, 12% of such amount). Subject to this requirement as to earnings, bonds may be certified against deposit with the Trustee of an equal amount of cash to an amount up to $3,000,000 or 10% of all First & Refunding Mortgage bonds then outstanding, whichever is greater. The mortgage further provides that the terms and provisions thereof may be changed and modified by affirmative vote of at least 80% in amount of the bonds then outstanding, at a meeting of the bondholders specially called for that purpose.

Callability—Subject to call as a whole or in part on six weeks' notice at 105 and interest on or before Oct. 1, 1927; at 104 and interest in the next five years; at 103 and interest in the next five; at 102 and interest in the next five; at 101 and interest in the next five, and at 100½ and interest thereafter prior to maturity.

Renewal and Improvement Fund—The mortgage provides for an annual Renewal and Improvement Fund, beginning 1924, equal to 5% of all underlying bonds and First & Refunding Mortgage bonds from time to time outstanding in the hands of the public less certain deductions and allowances as outlined in the mortgage, such Fund to be expended for additions or improvements to the mortgaged property, against which expenditures no bonds can be issued; for repairs, renewals, replacements and maintenance; or, at the option of the Company, for the purchase or call of First & Refunding Mortgage bonds.

Security—Under rate settlement with the City of New Orleans (see under "History") effected in 1921, a basis of valuation for rate making purposes was fixed, which together with subsequent additions amounted, as at Dec. 31, 1927, to more than $79,000,000, including property of the Railways Realty Company. The direct first mortgage lien of the First and Refunding Mortgage bonds covers properties having a present value, as determined in accordance with the settlement ordinance, of about $20,250,000 and the direct general mortgage lien extends over additional properties valued at more than $51,300,000, subject only to divisional issues of $12,149,500; and such bonds are further secured by pledge of all stock, except directors' shares, of Railways Realty Company, whose property is valued at about $525,000. Since the issue of the Series "A" bonds in 1922, the Company, through consolidation proceedings, has brought under the direct lien of the First and Refunding Mortgage bonds the properties of all of the former constituent companies, with one minor exception, theretofore controlled through stock ownership, and certain other properties. The properties upon which the First and Refunding Mortgage bonds are a first mortgage lien have thus been increased by approximately $15,000,000, and the properties upon which such bonds are a direct mortgage lien have been increased by about $36,000,000. Included in the properties on which such bonds are secured by a direct first mortgage are important electric power and light and street railway properties and all the gas properties. The mortgage provides that underlying bonds, as defined in the mortgage, can not be increased in amount and must be paid by maturity without extension. First and Refunding Mortgage bonds are reserved under the mortgage to refund these underlying bonds.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania State Tax of 4 mills refunded.

Original Offering—First publicly offered ($12,000,000) in Oct., 1922, at 90 and interest, to yield about 5.70%, by Dillon, Read & Co., and Electric Bond and Share Co., New York.

Listed—Listed on New York Stock Exchange.

POWER SECURITIES CORPORATION

(Controlled by Electric Power & Light Corp.)

(Supervised by Electric Bond and Share Company)

History—Incorporated June 25, 1919, under the laws of New Hampshire, and began business the following day through acquisition of the assets formerly held by the National Securities Corporation (see 1919 Public Utility Manual, pages 1020 and 2328).

Power Securities Corporation controls the Idaho Power Company, which in turn controls the Boise Valley Traction Company and the Nevada Power Company. Through these subsidiaries it serves with electric power and light an extensive territory in the Snake River district extending across south and central Idaho and into eastern Oregon. Electric power is also supplied for mining operations in Jarbidge, Nevada, and in northwestern Utah.

Electric power and light service is supplied to 62 communities, the principal ones being Boise, Pocatello, Twin Falls, Nampa, Caldwell, Idaho, Nyssa and Huntington, Oregon.

The properties of the system include electric generating stations, all hydro-electric, having an aggregate installed generating capacity of 71,500 kilowatts, 1,623 miles of electric transmission lines and 834 miles of distribution system.

More than 40,688 consumers are served with electric power and light. The total population served is estimated at 150,000.

Snake River Hydro-Electric Developments.—The Snake River, one of the principal rivers of the United States, flows through the territory served by the Company. This river falls nearly 2,500 feet in its approximately 400 miles of winding course between the upper and lower generating plants of the Company. Advantage has been taken of this fall by the construction of five hydro-electric developments at various points on the river, extending from Southeastern Idaho to Eastern Oregon. A sixth hydro-electric development is at Thousand Springs, the waters of which flow into the Snake River. Two additional hydro-electric plants are located on the Malad and Payette Rivers, both rivers being tributary to the Snake.

Interconnection of Properties by Transmission Lines—All except one of the generating plants owned and leased by the Company are interconnected by a comprehensive system of transmission lines and are operated in one group. This interconnected group supplies all the electric power and light service of the Company, except that supplied in the territory in and about Pocatello, American Falls and Blackfoot. When conditions justify, these two groups will be interconnected and the entire property will then be operated as a single system. The transmission system supplying the territory in and about Pocatello, American Falls and Blackfoot is interconnected with the transmission system of the Utah Power & Light Co. The Company's present transmission lines aggregate 1,472 miles, including the line to the Jarbidge, Nevada, mining section, served by the Nevada Power Co.

IDAHO POWER COMPANY

(Controlled by Power Securities Corp.)
(Supervised by Electric Bond and Share Co.)

History and Property—Incorporated May 6, 1915, in Maine.

Idaho Power Co. owns and operates electric power and light properties in an extensive territory in southern and central Idaho and in eastern Oregon, supplying electric power and light service to 67 cities and towns, and supplies electric power for mining operations at Vipont in northwestern Utah. It also owns all the issued capital stock, except directors' shares, of the Boise Valley Traction Co. and the Nevada Power Co., which latter company supplies electric power for mining operations in the Jarbidge, Nevada, district. The population served is estimated at 150,000.

The Snake River, one of the major rivers of the United States, flows through the field of the Company's operations and presents unusual opportunities for the development of hydro-electric power at low cost. The present hydro-electric plants owned by the Company have an installed generating capacity of 71,500 k.w.

With the abundance of additional hydro-electric power which can be cheaply developed as needed the Company is in a position to meet the demands for future power at an unusually low development cost. All of this Company's electrical energy is generated by water power.

Franchises—Of the numerous franchises which the company owns, three, in the opinion of counsel (including a Boise franchise) are without time limit. The franchises under which the Company is operating in ten of these municipalities expire at various dates prior to 1950, but all the remainder of its franchises are for terms extending beyond that date. The Company owns county franchises entitling it to operate in the unincorporated communities served. The Company's franchises in general are satisfactory from a business standpoint.

Service and Property—The number of consumers served by the Idaho Power Co., including its subsidiary, Nevada Power Co., and the physical equipment of properties as of Dec. 31, 1927, and the kilowatt-hours output for the twelve months ended on that date, compared with the five previous years, follow:

CAPITAL STOCK

Authorized, $15,000,000 Common, $5,000,000 7% cumulative Pfd., par $100; 10,000 shares $6 cumulative Pfd. of no par value, and $1,000,000 7% non-cumulative Second Pfd., par $100; outstanding Dec. 31, 1927, $15,000,000 Common, $3,800,000 7% Pfd., and 8,299 shares $6 Pfd. All of the Common stock (except directors' shares) is owned by Power securities Corporation.

Pfd. Stock Provisions—The 7% and $6 Pfd. stocks are entitled to cumulative dividends at rate of 7% and $6 per annum, respectively. Have preference over the Second Pfd. and Common stock in case of liquidation and are redeemable on any dividend date at 110 and accrued dividends.

Transfer Agents (Pfd. Stock)—Bankers Trust Co., New York, and Boise Trust Co., Boise, Ida.

Registrars (Pfd. Stock)—Guaranty Trust Co. of New York, and Boise City National Bank, Boise, Ida.

Dividends—Initial dividend of 3½% on the 7% Pfd. stock was paid Feb. 1, 1917, for the six months' period ended Jan. 31, 1917; at the rate of 7% per annum thereafter. Initial quarterly dividend of $1.50 per share was paid on the $6 Pfd. stock on Feb. 1, 1928. Dividends on both classes of Pfd. are declared the second Thursday of J, A, J & O and are paid F, M, A & N 1.

FUNDED DEBT

FUNDED DEBT

(1)

$27,847,000 FIRST MORTGAGE GOLD 5s; DUE FEBRUARY 1, 1944

Dated February 2, 1914.

Interest Payable February or August 1, at Guaranty Trust Co., of New York.

Denominations—Coupon (principal may be registered), and fully registered, $1,000. The mortgage provides that bonds may be issued in $100, $500 and $1,000 denominations, but the bonds so far issued are in $1,000 denominations only.

Trustee—Guaranty Trust Co., of New York.

Provisions of Issue—Authorized issue, $100,000,000; issued $33,347,000, of which $27,847,000 are outstanding and $5,500,000 are pledged under the First Lien & General Mortgage bonds, described below. Bonds may be issued in one or more series. Those so far issued are known as American series. The remaining bonds may be issued at 80% of the cash cost of permanent improvements, extensions or additions when the net earnings for twelve consecutive months within the fourteen months immediately preceding shall have been at least equal to twice the interest on all bonds outstanding, together with those proposed to be issued.

Callability—Subject to call as a whole on any interest date, or in part by lot by purchase through the sinking fund, at 105 and interest upon 4 weeks' notice.

Sinking Fund—The mortgage provides for the payment as a sinking fund to the Trustee on Dec. 31 of each year as follows: 1% of the amount of bonds outstanding from 1916 to 1918, incl., 2% from 1919 to 1933, incl., and 2½% from 1934 to 1943, incl. The funds so received may be used either to retire bonds at not more than 105 and interest, or for permanent improvements, extensions or additions to the property which might otherwise have been made the basis of the issuance of bonds. If bonds for redemption, as stipulated in the sinking fund provision, are not obtainable in the market at 105 and interest, or at a lower price, they may be called by lot at 105 and interest.

Security—Secured by a direct first mortgage on all of the property, franchises and rights of the company located in the States of Utah, Wyoming and Idaho, and through the deposit of all the issued securities of The Western Colorado Power Co., by a first lien on the property located in Colorado. The mortgage thus covers the Colorado properties as a first collateral lien. No additional bonds or stock of The Western Colorado Power Co. can be issued except to Utah Power & Light Co. and must then be deposited under its First Mortgage.

Tax Provisions—Company does not pay Normal Federal Income Tax.

Original Offering—First publicly offered ($10,000,000) in Feb., 1914, at 95 and interest by Harris, Forbes & Co., New York; Harris, Forbes & Co., Inc., Boston, and Harris Trust & Savings Bank, Chicago. $2,847,000 additional offered in Dec. 1918, at 89½ and interest by the same firms; and a further $2,156,000 in Jan., 1923, at 91½ and interest, yielding about 5.70% by the same firms; $2,000,000 additional in March, 1927, at 98 and interest, yielding about 5.18% by Harris, Forbes & Co., Coffin & Burr, Inc., New York; Harris, Forbes & Co., Inc., Boston; Harris Trust & Savings Bank, Chicago, and Harris, Forbes & Co., Ltd., Montreal.

(3)

$5,500,000 FIRST LIEN AND GENERAL MORTGAGE GOLD BONDS, SERIES OF "4½s DUE 1944"; DUE FEBRUARY 1, 1944

Dated February 1, 1928.

Interest Payable February and August 1, at Guaranty Trust Co. of New York.

Denomination—Coupon, $1,000; principal may be registered.

Trustee—Guaranty Trust Co. of New York.

Provisions of Issue—The mortgage securing these bonds provides that additional bonds may be issued thereunder upon the pledge with the Trustee of an equal principal amount of the Company's First Mortgage 5% bonds, provided, however, that the net earnings of the Utah Power & Light Co. for the twelve months within the fourteen months immediately preceding shall have been equal to at least 1¾ times the annual interest charges on all First Mortgage bonds in the hands of the public and all First Lien & General Mortgage bonds outstanding, including those proposed to be issued. The mortgage also provides that First Lien and General Mortgage bonds may be issued thereunder in different series, provided, however, that no series may be issued maturing earlier than any then existing series.

Callability—Subject to call as a whole or in part on the first day of any month on four weeks' notice through Jan. 1, 1933 at 102½ and interest, with successive reductions in the redemption price of ¼ of 1% on Feb. 1, 1933 and on each Feb. 1, thereafter, to and including Feb. 1, 1941, and on and after Feb. 1, 1942 at 100 and interest.

Sinking Fund—None.

Security—The $5,500,000 First Lien & General Mortgage bonds are secured by deposit with the Trustee of an equal principal amount of the Company's First Mortgage 5% bonds, due 1944. They are further secured by a general mortgage on the entire property of company.

Trustee—Central Union Trust Co., of New York.

Provisions of Issue—These bonds are issued under an Agreement dated May 1, 1922, which provides that Gold Debenture bonds may be issued in series bearing such rates of interest, maturing on such dates, redeemable on such terms, and containing such other rights and limitations permitted by the Agreement as the Company may determine prior to the issue thereof. The Agreement also provides among other things, that no additional Gold Debenture bonds may be issued under said Agreement unless the net income (including that of The Western Colorado Power Co.) applicable to interest charges of the Utah Power & Light Co., as defined in the Agreement, for twelve consecutive calendar months within the preceding fifteen calendar months, shall have been not less than twice the annual interest charges upon all indebtedness of the Company, including the Gold Debenture bonds then to be issued, but excluding indebtedness to be concurrently paid off through use of the proceeds of the sale of capital stock or of the sale of such issue of Gold Debenture bonds. The Gold Debenture bonds will be and become immediately due and payable in case of liquidation or dissolution of the Company, irrespective of the due date specified in any series.

Purpose of Issue—The $5,000,000 issued Debentures were sold to provide funds for the retirement of floating debt and for other corporate purposes.

Callability—These Debentures are not redeemable prior to May 1, 1947. On and after that date, and up to and including Oct. 31, 2016, they are redeemable as a whole or in part at any time upon 60 days' notice at 110 and interest; thereafter at par and interest.

Security—These bonds are a direct obligation of the Utah Power & Light Co., but are not secured by mortgage.

Tax Provisions—Company pays Normal Federal Income Tax up to 2%. Pennsylvania four mills tax refunded upon application.

Original Offering—First publicly offered ($5,000,000) in May, 1922, at 91 and interest, to yield about 6.60%, by Bonbright & Co., Inc., Hayden, Stone & Co., and Electric Bond and Share Co., New York.

FLORIDA POWER & LIGHT COMPANY

(Controlled by American Power & Light Company)

(Supervised by Electric Bond and Share Company)

History—Incorp. Dec. 28, 1925, in Fla. Owns and erates properties formerly owned by Miami Electric ght & Power Company, Miami Gas Company, ami Beach Electric Company, Southern Utilities mpany, Daytona Public Service Company, Ormond pply Company, Lakeland Gas Company, St. Johns ctric Company and Southern Holding Company l other properties. Statements of Southern Utili- s Co., Daytona Public Service Co. and St. Johns ctric Co. (less Railway Dept.) were shown in the 5 Public Utility Manual. It supplies electric power d light service in 137 communities among them sev- l of the most important and rapidly growing cities the State, including Miami, Miami Beach, Fort uderdale, Palm Beach, West Palm Beach, Coral bles, Hollywood, Melbourne, Stuart, Titusville, tona Beach, Ormond and St. Augustine on the east ast; Fort Myers, Punta Gorda, Arcadia and Braden- n in the western part, and Okeechobee, Sanford, latka and Live Oak in central and northern parts of e State.

The electric and gas earnings are derived from prop- ies for which franchises extend to 1954 or later and, gether with the ice business for which no franchises e required, contribute a very substantial portion of e gross earnings of the Company.

The Company also owns gas works and distributing stems in Miami, Daytona Beach, Lakeland and latka, and ice manufacturing plants in Miami, St. gustine, West Palm Beach, Pensacola and 18 other ies. Florida Power & Light Company, in addition, ns the stock of the Companies distributing water in iami, Coral Gables and Stuart, and The Miami Beach ilway Company, which, in addition to operating its n lines in Miami Beach, operates under 30-year reements a co-ordinated electric street railway and otor coach transportation system in Miami, owned the city of Miami.

The total permanent population served is estimated excess of 482,000 and this population is augmented many thousands during the winter months.

Property—Company operates electric generating tions with a total installed generating capacity of 8,031 kilowatts, and has 3,289 miles of transmission d distributing lines serving more than 99,776 electric nsumers.

The total installed capacity includes the two 25,000- owatt units (one of which was placed in operation ring Dec. 1926, and the other during Feb. 1927) the new Lauderdale station, the new Sanford sta- n placed in operation in November, 1926, and the w Punta Gorda station recently placed in operation. he Company now owns 1,158 miles of high voltage nsmission lines, including transmission lines recent- completed, and 2,131 miles of electric distribution stem.

The Lauderdale steam electric generating station, w in operation, is located on the New River and is signed and partially built for an ultimate capacity 150,000 kilowatts. The initial installation will con- t of two 25,000-kilowatt units, one of which was aced in operation in Dec., 1926, and the other early 1927. This station, which is the largest owned by e Company, is a high pressure steam turbine sta- tion of the most modern type and has been designed to burn either coal or fuel oil, and both rail and water transportation are available for fuel deliveries. Fuel oil is now being used.

The new Sanford steam electric generating station, located on the St. Johns River, is designed and has been partially built for an ultimate capacity of 100,000 kilowatts, the initial 10,000-kilowatt unit having been placed in operation in Nov., 1926. This station is a high pressure steam turbine station of the most modern type and has been designed to burn either coal or fuel oil. Fuel oil is now being used. Transportation both by rail and by water is available for fuel deliveries.

Another large generating station of Company now in operation is at Miami, having installed generating capacity of 34,000 k.w. Other principal generating plants include those at Miami Beach, with present installed generating capacity of 8,500 k.w.; at West Palm Beach, with present installed generating capacity of 5,100 k.w.; at Daytona Beach with present installed generating capacity of 5,000 k.w.; at St. Augustine with present installed generating capacity of 5,500 k. w. and at Bradenton with a present installed capacity of 3,514 k. w.

Company in addition owns gas works and distribution systems in Miami, Daytona Beach, Palatka and Lakeland, and ice plants in 20 cities, including Miami, Fort Lauderdale, West Palm Beach, Daytona Beach, Fort Myers, Sanford, St. Augustine and Pensacola. The gas system has 225 miles of mains, serves more than 14,500 consumers, has a holder capacity of 4,890,000 cu. ft., a daily capacity of 11,450,000 cu. ft. and a yearly output at present exceeding 734,068,000 cu. ft.

The ice plants have an aggregate daily manufacturing capacity of about 2,153 tons per day.

Interconnection of Properties by Transmission Lines—As a result of construction recently completed, the physical interconnection by high voltage transmission lines of the Company's electric generating stations and distribution systems, except a few isolated ones, in all communities served has been effected. All of the electric properties of the Company, with the exceptions noted, will now be operated as one unified system.

This interconnected transmission system of more than 850 miles now in operation extends from St. Augustine, the northernmost point served by the Company on the east coast, south of the Miami district, tying in the properties at Palatka, Daytona Beach, Sanford, Titusville, Cocoa, Melbourne, Stuart, West Palm Beach, Palm Beach, Del Ray, Fort Lauderdale, Hollywood, Miami and Miami Beach, and all intervening points served by the Company. In the southwestern section of the State the line extends from Bradenton, through Sarasota and Venice, to Punta Gorda and Fort Myers. A transmission line extending across the State from Punta Gorda, through Arcadia and Okeechobee, to Fort Pierce on the east coast completes the interconnection.

Service and Property—The estimated population and total number of consumers served by Company, and its physical equipment as of December 31, 1927, together with the kilowatt-hours output and the gas
